Vetoed House Bills and Messages

May 25, 2017

The Honorable Michael E. Busch
Speaker of the House
State House
Annapolis, MD 21401

Dear Mr. Speaker:

In accordance with Article II, Section 17 of the Maryland Constitution, I have vetoed House Bill 1 – *Labor and Employment – Maryland Healthy Working Families Act*.

While all of us agree that more workers need paid sick leave in Maryland, House Bill 1 is an irresponsible piece of legislation that unfairly penalizes the hundreds of thousands of hard working men and women who own and operate small businesses in our state. This bill mandates that every employer with 15 or more employees must institute a sick and safe leave policy for employees. This is a complicated, broad, and inflexible proposal that would have a significant impact on every employer in the state. We have made great progress in improving Maryland's business climate, creating nearly 100,000 new jobs since January 2015, and moving forward, we must strike a balance between the needs of workers while not harming our small businesses.

Marylanders deserve a common sense paid sick leave policy that is fair, bipartisan, and balanced – and our administration's proposal, the Common Sense Paid Sick Leave Act of 2017 is exactly that. It requires companies with more than 50 employees to provide paid sick leave and encourages small businesses, as defined by the widely accepted federal standards, to offer paid sick leave by providing tax incentives to offset the costs of providing those additional benefits. Our bill applies a uniform standard for all 24 jurisdictions and balances paid sick leave benefits that had the potential to cover nearly all working Marylanders without placing an unmanageable burden on job creators.

Conversely, House Bill 1 is not a compromise bill, but rather a worse version of a bill that failed to pass the Democratic controlled legislature on four previous occasions. This is an example of political opportunism at its worst and the results will harm, not help Marylanders. Under this proposal, the state will determine the specific procedures that businesses must follow or be found in violation of the law, which carries with it heavy civil penalties. This approach does not allow for flexibility or take into account the specific needs and structure of Maryland businesses today. Further, the requirements for seasonal employers were hastily developed and do not address the true needs of seasonal workers and employers.

The application of the sick and safe leave policy in the bill is overly broad and too ambiguous for effective and reasonable compliance and enforcement. Despite what certain Maryland legislators clearly believe, every business in Maryland is not the same. Different sick leave standards are needed across various industries (i.e. restaurant industry, tipped employees,

certain health care workers, non–profit and government grant recipients, etc.). For example, the employee calculation to determine if the employer is required to provide sick leave includes all employees, even those not eligible for sick leave benefits. Employees have to "regularly" work at least 12 hours per week and employee hours are based on a "normal" work week. "Regularly" and "normal" are undefined and overly ambiguous terms that will further complicate compliance.

These are just a few of the problems regarding the application of your sick and safe leave proposal. The complexities of tracking sick leave accrual and use is also an unnecessary burden for Maryland businesses. Employees accrue leave at different rates, can use the leave at different intervals, and the law allows for complex shift trading and modified schedule allowances. Maryland businesses need a common sense approach to affording valuable sick leave benefits to their workers and House Bill 1 does not provide this.

In addition, employers face unfair enforcement measures for actual and presumed violations. The employer is presumed to be in violation of the law if they somehow fail to keep sick and safe leave records for three years. These same employers also face extensive, burdensome and sometimes unknown damages for violations. An employer can be ordered to pay actual economic damages to an employee in addition to the monetary value of unpaid sick and safe leave. A court has overly broad discretion to award damages in a civil action including an award of three times the value of unpaid sick and safe leave. A court can also order punitive damages in any amount to be determined by the court, as well as any other relief that the court deems appropriate.

Further and perhaps most egregiously, workers may legally be required to provide a reason and be forced to verify that reason to access their sick and safe leave. For example, if a person is suffering from a sensitive medical issue, they could be forced to divulge this personal and/or protected information to their employer.

I remain committed to continuing to improve Maryland's business climate and preventing hardworking Marylanders from having to make difficult choices about their health and welfare. A balanced, fair, and common sense approach to paid sick leave benefits that are flexible for the employee and the employer are an important step in continuing to foster a more business–friendly climate in the state. This legislation does not get us there.

Fortunately, as drafted, House Bill 1 would not take effect until January 1, 2018. This gives both the Senate and the House the ability to work with our administration on a bipartisan proposal next session that would finally provide the employees and employers of our state with the benefits and protections they so clearly need and deserve. I view this as not the end of this discussion on this issue, but just the beginning.

We owe it to the citizens of our state to work together on this important issue, to compromise, and find the right balance between providing benefits and protecting our hardworking citizens. We can and we must find this balance. I am respectfully calling on both you and President Mike Miller to join with our administration in that effort.

For these reasons, I have vetoed House Bill 1.

Sincerely,

Lawrence J. Hogan, Jr.
Governor

House Bill 1

Section 5–324(d)

(2012 Replacement Volume and 2016 Supplement)

Preamble

WHEREAS, § 5–324(b)(1)(ii)7B of the Family Law Article provides that, for children placed under an order of guardianship by the juvenile court following the termination of parental rights, the juvenile court shall direct the provision of certain services or the taking of certain actions as to the child's education, health, and welfare, including, for a child with a disability, services to obtain ongoing care, if any, needed after the guardianship case ends; and

WHEREAS, In the recent case of In re Adoption/Guardianship of Dustin R., No. 24, September Term, 2015, the Maryland Court of Appeals affirmed that these provisions empower the juvenile court to order a State agency to provide services needed to obtain ongoing care for a child under an order of guardianship after the child reaches age 21 and the guardianship ends and that these provisions do not violate the separation of powers doctrine enshrined in Article 8 of the Maryland Declaration of Rights; and

WHEREAS, The Court of Appeals further held that the juvenile court has inherent parens patriae powers to order these services for the protection of the child; and

WHEREAS, The Court of Appeals further held that these services should act as a bridge for a child with a disability to provide continuity as the child transitions to the adult guardianship system; and

WHEREAS, The Court of Appeals further stated that, if a State agency challenges the necessity of these services, the juvenile court has the authority to enforce an order directing the provision of these services until the child's adult guardian files a request for a judicial or administrative hearing on the challenge; and

WHEREAS, Children in foster care face significant challenges when they age out of the child welfare system and transition to adulthood, including a lack of access to necessary services, resources, and support; and

WHEREAS, Children who are under the CINA jurisdiction of the juvenile court are not eligible for the protection provided by § 5–324(b)(1)(ii)7B of the Family Law Article, yet would benefit from that protection; now, therefore,

SECTION 1. BE IT ENACTED BY THE GENERAL ASSEMBLY OF MARYLAND, That the Laws of Maryland read as follows:

(b) If the court obtains jurisdiction over a child, that jurisdiction continues in that case until the child reaches the age of 21 years, unless the court terminates the case.

(1) Remains in effect; and

Article – State Finance and Procurement

14–302.

(a) (1) (i) 1. Except for leases of real property, each unit shall structure procurement procedures, consistent with the purposes of this subtitle, to try to achieve an

overall percentage goal of the unit's total dollar value of procurement contracts being made directly or indirectly to certified minority business enterprises.

2. Notwithstanding subsubparagraph 1 of this subparagraph, the following contracts may not be counted as part of a unit's total dollar value of procurement contracts:

A. a procurement contract awarded in accordance with Subtitle 1 of this title;

B. a procurement contract awarded to a not–for–profit entity in accordance with requirements mandated by State or federal law; and

C. a procurement by the Maryland Developmental Disabilities Administration of the Department of Health and Mental Hygiene for family and individual support services, community residential services, resource coordination services, behavioral support services, vocational and day services, and respite services, as those terms are defined in regulations adopted by the Department of Health and Mental Hygiene.

(ii) 1. The overall percentage goal shall be established on a biennial basis by the Special Secretary of Minority Affairs, in consultation with the Secretary of Transportation and the Attorney General.

2. During any year in which there is a delay in establishing the overall goal, the previous year's goal will apply.

(iii) 1. In consultation with the Secretary of Transportation and the Attorney General, the Special Secretary of Minority Affairs shall establish guidelines on a biennial basis for each unit to consider while determining whether to set subgoals for the minority groups listed in § 14–301(k)(1)(i)1, 2, 3, 4, and 6 of this subtitle.

2. During any year in which there is a delay in establishing the subgoal guidelines, the previous year's subgoal guidelines will apply.

(iv) 1. The Special Secretary of Minority Affairs, in consultation with the Secretary of Transportation and the Attorney General, shall establish goals and subgoal guidelines that, to the maximum extent feasible, approximate the level of minority business enterprise participation that would be expected in the absence of discrimination.

2. In establishing overall goals and subgoal guidelines, the Special Secretary of Minority Affairs shall provide for public participation by consulting with minority, women's, and general contractor groups, community organizations, and other officials or organizations that could be expected to have information concerning:

A. the availability of minority– and women–owned businesses;

B. the effects of discrimination on opportunities for minority– and women–owned businesses; and

C. the State's operation of the Minority Business Enterprise Program.

(v) In establishing overall goals, the factors to be considered shall include:

1. the relative availability of minority– and women–owned businesses to participate in State procurement as demonstrated by the State's most recent disparity study;

2. past participation of minority business enterprises in State procurement, except for procurement related to leases of real property; and

3. other factors that contribute to constitutional goal setting.

(vi) Notwithstanding § 12–101 of this article, the Special Secretary of Minority Affairs shall adopt regulations in accordance with Title 10, Subtitle 1 of the State Government Article setting forth the State's overall goal.

(2) The Special Secretary of Minority Affairs, in consultation with the Secretary of Transportation and the Attorney General, shall establish guidelines for each unit to consider when determining the appropriate minority business enterprise participation percentage goal for a procurement contract in accordance with paragraph (3) of this subsection.

(3) Each unit shall:

(i) consider the practical severability of all contracts and, in accordance with § 11–201 of this article, may not bundle contracts;

(ii) implement a program that will enable the unit to evaluate each contract to determine the appropriate minority business enterprise participation goals, if any, for the contract based on:

1. the potential subcontract opportunities available in the prime procurement contract;

2. the availability of certified minority business enterprises to respond competitively to the potential subcontract opportunities;

3. the contract goal guidelines established under paragraph (2) of this subsection;

4. the subgoal guidelines established under paragraph (1)(iii) of this subsection; and

5. other factors that contribute to constitutional goal setting;

(iii) monitor and collect data with respect to prime contractor compliance with contract goals; and

(iv) institute corrective action when prime contractors do not make good–faith efforts to comply with contract goals.

(4) Units may not use quotas or any project goal–setting process that:

(i) solely relies on the State's overall numerical goal, or any other jurisdiction's overall numerical goal; or

(ii) fails to incorporate the analysis outlined in paragraph (3)(ii) of this subsection.

(5) (i) A woman who is also a member of an ethnic or racial minority group may be certified in that category in addition to the gender category.

(ii) For purposes of achieving the goals in this subsection, a certified minority business enterprise may participate in a procurement contract and be counted as a woman–owned business, or as a business owned by a member of an ethnic or racial group, but not both, if the business has been certified in both categories.

(6) Each unit shall meet the maximum feasible portion of the State's overall goal established in accordance with this subsection by using race–neutral measures to facilitate minority business enterprise participation in the procurement process.

(7) If a unit establishes minority business enterprise participation goals for a contract, a contractor, including a contractor that is a certified minority business enterprise, shall:

(i) identify specific work categories appropriate for subcontracting;

(ii) at least 10 days before bid opening, solicit minority business enterprises, through written notice that:

1. describes the categories of work under item (i) of this paragraph; and

2. provides information regarding the type of work being solicited and specific instructions on how to submit a bid;

(iii) attempt to make personal contact with the firms in item (ii) of this paragraph;

(iv) offer to provide reasonable assistance to minority business enterprises to fulfill bonding requirements or to obtain a waiver of those requirements;

(v) in order to publicize contracting opportunities to minority business enterprises, attend prebid or preproposal meetings or other meetings scheduled by the unit; and

(vi) upon acceptance of a bid or proposal, provide the unit with a list of minority businesses with whom the contractor negotiated, including price quotes from minority and nonminority firms.

(8) The Special Secretary of Minority Affairs shall:

(i) in consultation with the Secretary of Transportation and the Attorney General, establish procedures governing how the participation of minority business enterprise prime contractors is counted toward contract goals; and

(ii) notwithstanding § 12–101 of this article, adopt regulations setting forth the procedures established in accordance with this paragraph.

(9) (i) 1. If a contractor, including a certified minority business enterprise, does not achieve all or a part of the minority business enterprise participation goals on a contract, the unit shall make a finding of whether the contractor has demonstrated that the contractor took all necessary and reasonable steps to achieve the goals, including compliance with paragraph (7) of this subsection.

2. A waiver of any part of the minority business enterprise goals for a contract shall be granted if a contractor provides a reasonable demonstration of good–faith efforts to achieve the goals.

(ii) If the unit determines that a waiver should be granted in accordance with subparagraph (i) of this paragraph, the unit may not require the contractor to renegotiate any subcontract in order to achieve a different result.

(iii) The head of the unit may waive any of the requirements of this subsection relating to the establishment, use, and waiver of contract goals for a sole source, expedited, or emergency procurement in which the public interest cannot reasonably accommodate use of those requirements.

(iv) 1. Except for waivers granted in accordance with subparagraph (iii) of this paragraph, when a waiver determination is made, the unit shall issue the determination in writing.

2. The head of the unit shall:

A. keep one copy of the waiver determination and the reasons for the determination; and

B. forward one copy of the waiver determination to the Governor's Office of Minority Affairs.

(v) On or before July 31 of each year, each unit shall submit directly to the Board of Public Works and the Governor's Office of Minority Affairs an annual report of waivers requested and waivers granted under this paragraph.

(vi) The report required under subparagraph (v) of this paragraph shall contain the following information on those contracts where the unit considered a contractor's request for waiver of all or a portion of the minority business enterprise goals:

1. the contract titles, numbers, and dates;

2. the number of waiver requests received;

3. the number of waiver requests granted; and

4. any other information specifically requested by the Board.

(10) (i) 1. This paragraph applies to a bidder or offeror after submission of a bid or proposal and before the execution of a contract with an expected degree of minority business enterprise participation.

2. If the bidder or offeror determines that a minority business enterprise identified in the minority business enterprise participation schedule has become or will become unavailable or ineligible to perform the work required under the contract, the bidder or offeror shall notify the unit within 72 hours of making the determination.

(ii) 1. If a minority business enterprise identified in the minority business enterprise participation schedule submitted with a bid or offer has become or will become unavailable or ineligible to perform the work required under the contract, the bidder or offeror may submit a written request with the unit to amend the minority business enterprise participation schedule.

2. The request to amend the minority business enterprise participation schedule shall indicate the bidder's or offeror's efforts to substitute another certified minority business enterprise to perform the work that the unavailable or ineligible minority business enterprise would have performed.

(iii) A minority business enterprise participation schedule may not be amended unless:

1. the bidder or offeror provides a satisfactory explanation of the reason for inclusion of the unavailable or ineligible firm on the minority business enterprise participation schedule; and

2. the amendment is approved by the unit's procurement officer after consulting with the unit's minority business enterprise liaison.

(11) (i) This paragraph applies after execution of a contract with an expected degree of minority business enterprise participation.

(ii) The minority business enterprise participation schedule, including any amendment, shall be attached to and made a part of the executed contract.

(iii) **1. [2.**] 3.** The unit shall send a copy of the written consent obtained under subsubparagraph **[**1**] 2** of this subparagraph to the Governor's Office of Minority Affairs.

(iv) A minority business enterprise participation schedule may not be amended after the date of contract execution unless the request is approved by the head of the unit and the contract is amended.

(12) If, during the performance of a contract, a certified minority business enterprise contractor or subcontractor becomes ineligible to participate in the Minority Business Enterprise Program because one or more of its owners has a personal net worth that exceeds the amount specified in § 14–301(k)(3) of this subtitle:

(i) that ineligibility alone may not cause the termination of the certified minority business enterprise's contractual relationship for the remainder of the term of the contract; and

(ii) the certified minority business enterprise's participation under the contract shall continue to be counted toward the program and contract goals.

(13) (i) Except as provided in subparagraph (ii) of this paragraph, a not–for–profit entity participating as a minority business enterprise on a procurement contract awarded by a unit before July 1, 2015, may continue to participate in the contract until the contract expires or otherwise terminates, including all options, renewals, and other extensions.

(ii) 1. The not–for–profit entity's participation may not be counted toward achieving the minority business enterprise participation goals in this subsection.

2. The unit may not require that a certified minority business enterprise be substituted for the not–for–profit entity in order to meet the minority business enterprise goals for the procurement contract.

Dear Mr. Speaker:

In accordance with Article II, Section 17 of the Maryland Constitution, I have vetoed House Bill 447 – *Baltimore City – Board of Municipal and Zoning Appeals – Appeals Authority*.

The Honorable Michael E. Busch
Speaker of the House
H–101 State House
Annapolis, MD 21401

Dear Mr. Speaker:

In accordance with Article II, Section 17 of the Maryland Constitution, I have vetoed House Bill 461 – *Education – Accountability Program – Assessments (More Learning, Less Testing Act of 2017).*

This bill requires the State Board of Education to develop, in collaboration with certain entities and individuals, a middle school social studies assessment, as well as a redesigned high school social studies assessment, that meet specified criteria to be implemented by a certain date. This bill also requires each local board of education to establish a District Committee on Assessments to monitor and evaluate the county's assessment program, and to complete specified tasks. In addition, this bill requires the State Board of Education to adopt regulations that limit the amount of time that may be devoted to federal, State, and locally mandated assessments for each grade, and also requires the Maryland State Department of Education (MSDE) to conduct a specified survey regarding time spent on assessments.

Senate Bill 452, which was passed by the General Assembly and signed by me, accomplishes the same purpose. Therefore, it is not necessary for me to sign House Bill 461.

Sincerely,

Lawrence J. Hogan, Jr.
Governor

The Honorable Thomas V. Mike Miller
President of the Senate

The Honorable Michael E. Busch
Speaker of the House
State House
Annapolis, MD 21401

Dear Mr. President and Mr. Speaker:

In accordance with Article II, Section 17 of the Maryland Constitution, I have vetoed Senate Bill 543/House Bill 694 – *Higher Education – Admissions Process – Criminal History (Maryland Fair Access to Education Act of 2017).*

This legislation prohibits colleges and universities from using an admissions application containing questions about a prospective student's criminal history — no matter how violent or lengthy that criminal history may be. Additionally, Senate Bill 543/House Bill 694 limits how a college can use a prospective or incoming student's criminal history information, curtailing its ability to ensure a safe campus environment.

Protecting our citizens must be a top priority of any government and Maryland's colleges and universities must be safe communities where students are free to learn and grow. When families send their children to college, they know they will be exposed to exciting new opportunities and challenges, but also to new dangers. In this, parents have an expectation that the school to which they entrust their child will do everything possible to keep its students safe.

Senate Bill 543/House Bill 694 jeopardizes student safety by dictating how and when schools can ask about and use criminal history information about potential students. This

could lead to situations where a school unknowingly admits a student with a violent past or feels it must accept a student with a criminal history for fear of running afoul of the law.

Most alarmingly, the legislation does little to differentiate between those with a violent felony, such as a sexual assault conviction, and those with a nonviolent misdemeanor on their record.

Legislation barring colleges and universities from using admissions applications containing questions about misdemeanor or nonviolent convictions while still allowing questions about violent felonies would better balance opportunity with public safety.

Our laws must balance the opportunity for second chances with our most important duty of ensuring public safety. I have championed policies that recognize the innate potential of each and every Marylander no matter their criminal history. In 2015, I was proud to sign the Second Chance Act and provide individuals a clean slate by shielding from public knowledge certain low–level criminal offenses. Last year, together with your leadership, we were able to pass the Justice Reinvestment Act which lowers penalties for nonviolent drug offenders, emphasizes treatment and rehabilitation, and contains one of the largest expansions of expungement opportunities in recent history.

However, while measures like the Second Chance Act and Justice Reinvestment Act strike this crucial balance, Senate Bill 543/House Bill 694 tips the scales to the detriment of public safety. While individuals of all criminal backgrounds should be given educational, employment, and growth opportunities, colleges and universities must have the ability to know who they are accepting onto their campuses. We should not encourage schools to turn a blind eye to a prospective student's potentially violent criminal background.

For these reasons, I have vetoed Senate Bill 543 and House Bill 694.

Sincerely,

Lawrence J. Hogan, Jr.
Governor

The Honorable Michael E. Busch

Speaker of the House
State House
Annapolis, Maryland 21401

Dear Mr. Speaker:

In accordance with Article II, Section 17 of the Maryland Constitution, I have vetoed House Bill 978 – *Education – Accountability – Consolidated State Plan and Support and Improvement Plans*.

The Every Student Succeeds Act (ESSA) was signed by President Obama on December 10, 2015. This bipartisan measure reauthorizes the 50–year–old Elementary and Secondary Education Act (ESEA), the federal education law that reflects this country's longstanding commitment to equal opportunity for all students. ESSA was a response to the growing concern over the prescriptive nature of the student achievement goals required by the former No Child Left Behind (NCLB) Act. Unlike NCLB, ESSA provides flexibility to states to choose their own goals and create their own accountability systems, so long as they are designed to close achievement gaps and promote strong student performance.

Maryland has been a leader on school accountability for more than two decades. Unfortunately, if House Bill 978 is enacted, Maryland would be forced by the legislature to adopt the weakest accountability system in the country under ESSA. Instead of being recognized as a national leader in education, Maryland would become a national leader in deprioritizing student learning. Because this legislation lacks accountability and includes provisions aimed at maintaining the status quo in failing schools, Maryland State Department of Education has expressed strong opposition to this bill, and the Maryland State Board of Education voted unanimously against this legislation.

House Bill 978 would weight academic performance indicators at 65 percent, while non–academic indicators such as "school climate surveys" are weighted at 35 percent. Very simply, the prioritization of these non–academic factors is designed to hide what is really happening in failing schools and is not correlated to student achievement in any way. Of the states that have posted their proposed plans to comply with ESSA, all have proposed academic performance indicators weighted at or above 75 percent. ESSA specifies that student performance must be given "much greater weight" in the accountability system. 65 percent for academic indicators and 35 percent for non–academic indicators is not "much greater weight."

This legislation also prohibits most well–known and nationally accepted interventions in persistently failing schools. The bill's sponsor alleges this language is necessary to "prevent the state from enacting heavy–handed, radical solutions" when a school has been failing to meet the educational needs of its children, year after year. It is important to note the State Board of Education is powerless to adopt these interventions without the legislature's approval. This part of the bill is nothing more than bald, and frankly, bad politics.

To make matters much worse, the bill and its sponsor have identified no other evidence–based intervention strategies that are working in other states. In essence, the true purpose of this bill is to fight for and protect the status quo, which sadly has become the unofficial mantra of the political operatives who run the state teachers union. In response to the months of lobbying and political pressure applied by these operatives, the legislature has voted in favor of a bill that puts the priorities and needs of adults over what is best for our children and students. This bill invents a nonexistent "crisis" and then presents no alternative solutions. The entire episode is beneath the standards of the Maryland General Assembly and our state as a whole.

Most outrageously, this dangerous bill would potentially put hundreds of millions of dollars of federal funding at risk. In fact, according to the Department of Legislative Services, this bill threatens to cost the state $246.8 million annually in federal education funding, including more than $50 million annually in Baltimore City alone. At a time when school districts around the state are fighting for additional funding in response to declining enrollment, the cavalier manner in which the legislature is potentially jeopardizing federal funding is as astounding as it is disturbing. Just this week, our administration was proud to join with leaders from the General Assembly, Baltimore City, and jurisdictions around the state to provide nearly $30 million in additional education funding. This potential funding loss due to the enactment of this bill would completely wipe out this new investment.

While other states are working to add to the toolbox of their boards of education and state departments of education to help students assigned to persistently failing schools, this outrageous legislation has an opposite and deleterious effect. House Bill 978 would dramatically limit the ability of the State Board of Education, an independent body charged with providing an exceptional education for all Maryland's children regardless of where a child happens to live, to meet its constitutional and moral obligations.

Ultimately, it is difficult to describe the disastrous effects of this misguided legislation any better than the following blog post excerpt from The Education Trust, a national non–profit education advocacy organization, headed by former U.S. Secretary of Education under President Obama, John B. King, Jr.:

In recent years, Maryland has taken important steps to increase the honesty and rigor in its education system. The state has raised its standards. It has included more students — especially students with disabilities — in the National Assessment of Educational Progress. This new bill could dramatically reverse this progress, leaving Maryland — often considered a leader in education — in the unfamiliar position of trailing behind other states. The Maryland State Board of Education and Gov. Larry Hogan are right to oppose this legislation and keep sights set higher for Maryland's students. (Natasha Ushomirsky, "Maryland Takes A Big Step In The Wrong Direction," The Education Trust, 4/4/17)

For these reasons, I have vetoed House Bill 978.

Sincerely,

Lawrence J. Hogan, Jr.

SECTION 4. AND BE IT FURTHER ENACTED, That the net proceeds of the sale of bonds shall be used and applied exclusively and solely for the acquisition, construction, improvement, or development of public facilities for which the bonds are sold. If the amounts borrowed shall prove inadequate to finance the projects described in the resolution, the County may issue additional bonds with the limitations hereof for the purpose of evidencing the borrowing of additional funds for such financing, provided the resolution authorizing the sale of additional bonds shall so recite, but if the net proceeds of the sale of any issue of bonds exceed the amount needed to finance the projects described in the resolution, the excess funds so borrowed and not expended shall be applied to the payment of the next principal maturity of the bonds or to the redemption of any part of the bonds which have been made redeemable or to the purchase and cancellation of bonds, unless the County shall adopt a resolution allocating the excess funds to the acquisition, construction, improvement, or development of other public facilities, as defined and within the limits set forth in this Act.

SECTION 5. In each and every fiscal year that any of the bonds are outstanding, the County shall levy or cause to be levied ad valorem taxes upon all the assessable property within the corporate limits of the County in rate and amount sufficient to provide for or assure the payment, when due, of the principal of and interest on all the bonds maturing in each such fiscal year and, in the event the proceeds from the taxes so levied in any such fiscal year shall prove inadequate for such payment,

additional taxes shall be levied in the succeeding fiscal year to make up any such deficiency. The County may apply to the payment of the principal of and interest on any bonds issued hereunder any funds received by it from the State of Maryland, the United States of America, any agency or instrumentality thereof, or from any other source, if such funds are granted for the purpose of assisting the County in financing the acquisition, construction, improvement, or development of the public facilities defined in this Act and, to the extent of any such funds received or receivable in any fiscal year, the taxes that are required to be levied may be reduced accordingly.

SECTION 6. AND BE IT FURTHER ENACTED, That the County is further authorized and empowered, at any time and from time to time, to issue its bonds in the manner hereinabove described for the purpose of refunding, by payment at maturity or upon purchase or redemption, any bonds issued hereunder. The validity of any such refunding bonds shall in no way be dependent upon or related to the validity or invalidity of the obligations so refunded. The powers herein granted with respect to the issuance of bonds shall be applicable to the issuance of refunding bonds. Such refunding bonds may be issued by the County in such an amount as shall be necessary for the purpose of providing it with funds to pay any of its outstanding bonds issued hereunder at maturity, for the purpose of providing it with funds to purchase in the open market any of its outstanding bonds issued hereunder, prior to the maturity thereof, or for the purpose of providing it with funds for the redemption prior to maturity of any outstanding bonds issued hereunder which are, by their terms, redeemable, for the purpose of providing it with funds to pay interest on any outstanding bonds issued hereunder prior to their payment at maturity of purchase or redemption in advance of maturity, or for the purpose of providing it with funds to pay any redemption or purchase premium in connection with the refunding of any of its outstanding bonds issued hereunder. The proceeds of the sale of any such refunding bonds shall be segregated and set apart by the County as a separate trust fund to be used solely for the purpose of paying the purchase or redemption prices of the bonds to be refunded.

SECTION 7. AND BE IT FURTHER ENACTED, That the County may, prior to the preparation of definitive bonds, issue interim certificates or temporary bonds, exchangeable for definitive bonds when such bonds have been executed and are available for such delivery, provided, however, that any such interim certificates or temporary bonds shall be issued in all respects subject to the restrictions and requirements set forth in this Act. The County may, by appropriate resolution, provide for the replacement of any bonds issued hereunder which shall have become mutilated or lost or destroyed upon such conditions and after receiving such indemnity as the County may require.

SECTION 8. AND BE IT FURTHER ENACTED, That any and all obligations issued pursuant to the authority of this Act, their transfer, the interest payable thereon, and any income derived therefrom in the hands of the holders thereof from time to time (including any profit made in the sale thereof) shall be and are hereby declared to be at all times exempt from State, county, municipal, or other taxation of every kind and nature whatsoever within the State of Maryland. Nothing in this Act shall prevent the County from authorizing the issuance and sale of bonds the interest on which is not excludable from gross income for federal income tax purposes.

SECTION 9. AND BE IT FURTHER ENACTED, That the authority to borrow money and issue bonds conferred on the County by this Act shall be deemed to provide an additional and alternative authority for borrowing money and shall be regarded as supplemental and additional to powers conferred upon the County by other laws and shall not be regarded as in derogation of any power now existing; and all Acts of the General Assembly of Maryland heretofore passed authorizing the County to borrow money are hereby continued to the extent that the powers contained in such Acts have not been exercised, and nothing contained in this Act may be construed to impair, in any way, the validity of any bonds that may have been issued by the County under the authority of any said Acts, and the validity of the bonds is hereby ratified, confirmed, and approved. This Act, being necessary for the welfare of the inhabitants of Calvert County, shall be liberally construed to effect the purposes hereof. All Acts and parts of Acts inconsistent with the provisions of this Act are hereby repealed to the extent of such inconsistency.

Article - Economic Development

Section 14-201 through 14-205 and the subtitle "Office of the Business Ombudsman"

(2008 Volume and 2017 Supplement)

Preamble

WHEREAS, House Bill 1 of the 2017 Session of the Maryland General Assembly ("Maryland Healthy Working Families Act") was vetoed on May 25, 2017, the veto was subsequently overridden by the Maryland General Assembly, and the bill became Chapter 1 of the Acts of 2018;

WHEREAS, a strong and healthy workforce benefits all Marylanders and the State of Maryland has a commitment to expand access to paid leave in the workforce in a manner that does not burden job creators;

WHEREAS, the Committee on Paid Leave Policy submitted its findings in a final report after six months conducting in-person interviews with impacted organizations, individuals, employees, and employers from across the entire state;

WHEREAS, the findings of the report reveal that the Maryland Healthy Working Families Act contains potentially unintended consequences that negatively impact small businesses and workers;

WHEREAS, small businesses are concerned about fully complying with the prescriptive and complicated provisions of the Maryland Healthy Working Families Act in order to minimize the risk of being found in violation of the law with the presumption of guilt, which carries with it severe civil penalties;

WHEREAS, the Maryland Healthy Working Families Act creates unnecessary hardships and lacks clarity regarding verification for leave used between the 107 and 120 calendar days for employers in the tourism and hospitality industries, especially in places around the state that have a high demand for seasonal workers during peak seasons;

WHEREAS, working Marylanders have expressed concern about revealing intimate personal details to their employers in order to access sick leave;

WHEREAS, Maryland workers should not be unnecessarily laid off and small businesses should not be forced to shut their doors in order to comply with overly strict, burdensome, and costly regulations;

WHEREAS, small-businesses job creators who desire to remain in compliance with sick leave and other labor laws may need additional resources;

WHEREAS, personal employee information and required employer documentation must be handled with sensitivity; and

WHEREAS, the Business Ombudsman serves as a liaison between businesses, economic development organizations, communities, and federal, State, and local units and agencies; now, therefore,

SECTION 1. BE IT ORDERED BY THE GOVERNOR OF MARYLAND, PURSUANT TO ARTICLE II, SECTION 24, OF THE CONSTITUTION OF MARYLAND, That Sections 14-201 through 14-205 of the Economic Development Article and the subtitle "Office of the Business Ombudsman" be repealed.

Tomorrow: I am hoping to see the day when all caucuses w/in our legislative bodies become fraternal-ONLY!

As it was during the C/R era & to the extend we still have challenges today, we must have the courage to face down and eradicate them through a focus & disciplined movement(sacrifice) so that America can finally achieve that pinnacle of her ideal-where "all men are created equal ..... "

Each of us has a sphere of influence which is rarely consistently maximized for a cause outside of a personal want.

*If we want the true Ideal of America, . . .
We must know that the success of others is not a threat but strengthens our resolve.
*If we want the true ideal of America, . . .
Let us not forget who each and everyone of us is; and the reason we are here in this country. (Immigration battles continue today because we are still the ideal place to be.)
*If we want to reach that pinnacle that I know we can, . . . Let us move forward in the spirit of MLK, Jr and all those who believed, despite our challenges, that the American Ideal was and remains worth fighting for.
I am here to share with you that it can **only** be achieved if we all work toward it. The universe is **designed** for good for all, but for our selfish **default** mechanism.

Mr. Speaker, my colleagues, & guests, together we have much work to do. A work that will require a committed "movement/sacrifice" on all of our parts; (that is,) if we we want to go beyond just an ideal and move toward the reality or he Beloved Community King saw for us.

I stand committed, who will join me?

GENERAL ASSEMBLY COMPENSATION COMMISSION

January 16, 2018

The Honorable Thomas V. Mike Miller, Jr.
President of the Senate

The Honorable Michael E. Busch
Speaker of the House of Delegates

Gentlemen:

On behalf of the members of the General Assembly Compensation Commission, it is my privilege to transmit to you the commission's thirteenth quadrennial analysis of legislative compensation and allowances, an effort mandated by Article III, Section 15, of the Constitution of Maryland.

The commission's Resolution, to be considered at the 2018 legislative session, makes no changes to legislative salaries for the term beginning in 2019. The only changes from the 2014 Resolution that currently govern legislative compensation are as follows:

- for out-of-state travel, authorizing the Presiding Officers to allow the reimbursement of lodging at the published conference rate if higher than the appropriate federal General Services Administration rate;

- altering the age at which a designated beneficiary (other than a surviving spouse) can receive a retirement allowance or death benefit from 60 to 62 and, for early retirement, from 50 to 55, for members who have no creditable service before January 14, 2015;

- increasing the age that a child of a member, who dies while serving in the General Assembly, may receive a death benefit from 18 to 26, and adding the provision that this benefit could be paid to a disabled child regardless of age;

- removing an arcane reference that requires a legislator to die contemporaneously with the legislator's spouse in order for a child to receive a death benefit;

- authorizing the naming of a nonprofit organization as a beneficiary to receive a lump-sum death benefit;

- beginning with the next legislative term, removing the ability of legislators to purchase service credit in order to vest in the Legislative Pension Plan;

- clarifying for those members who have previously purchased service credit in order to vest in the Legislative Pension Plan when they may receive retirement benefits; and

- providing up to three years of service credit in the Legislative Pension Plan for military service.

Almost all of these changes align provisions of the Legislative Pension Plan with those in other plans in the State Retirement and Pension System.

In addition to these recommendations, the commission has been asked to provide input on whether it had concerns with allowing legislative service to count toward eligibility to claim military service credit, if a former legislator sought that credit in another plan in the State Retirement and Pension System. The commission did not feel that it had sufficient information to comment on this specific issue. However, it is clear in our action to allow service credit in the Legislative Pension Plan for military service that we want to recognize a member's military service.

Finally, in the course of our meetings, the commission identified three areas where we felt additional information would be helpful in in order to make better decisions. First, there is a paucity of data on how much time members spent on legislative duties. The work of the legislature is clearly more than just that performed in the 90-day session. However, there is little sense of the actual time devoted by members to their legislative responsibilities. Second, the commission would benefit from understanding from current and former members of any barriers to legislative service that relate to areas over which the commission has purview. Finally, the commission considered a proposal to allow the transfer of service credit from other plans in the State Retirement and Pension System into the Legislative Pension Plan. The commission ultimately felt that it did not have sufficient data to fully understand the implications of any such proposal and asked the State Retirement Agency and the Department of Legislative Services to more fully investigate this issue for the consideration of the next commission.

It is our hope that you can facilitate the collection of this information for the benefit of the next commission.

The members of the compensation commission have enjoyed the opportunity to serve and would be pleased to meet with you and members of the General Assembly to discuss the commission's findings and proposals.

Respectfully,

Executive Summary

Pursuant to Article III, Section 15, of the Constitution of Maryland, the General Assembly Compensation Commission submits its recommendations for legislative compensation and allowances during the 2019-2022 term of office. This report summarizes the compensation principles and information guiding the commission's determinations and presents the recommendations. As required by the Constitution of Maryland, these recommendations have been incorporated in a resolution adopted by the commission (2018 Resolution).

The recommendations presented in the report have been guided primarily by the overarching principle that the Maryland legislature is part time, continues to be representative of a wide range of occupations and professions, and has this broad-based range of experience that has long been considered an integral element of what the General Assembly of Maryland represents. At the same time, much is expected of a legislator in terms of time and dedication of effort, ability to manage and determine appropriate action on multiple and complex issues, and a willingness to communicate regularly with constituents. This time commitment may come at a cost to the development of another career and the ability to easily plan for long-term goals.

The commission believed that the current salary level was appropriate for the time taken by a legislator to fulfil their duties and responsibilities and recommended no change to legislative salaries.

Most of the changes being recommended by the commission relate to the Legislative Pension Plan. In making its decisions about the plan, the commission's philosophy was, where appropriate, to align the provisions of the Legislative Pension Plan with those in other plans in the State Retirement and Pension System.

Specific changes include:

- for out-of-state travel, authorizing the Presiding Officers to allow the reimbursement of lodging at the published conference rate if higher than the appropriate federal General Services Administration rate;

- altering the age at which a designated beneficiary (other than a surviving spouse) can receive a retirement allowance or death benefit from 60 to 62 and, for early retirement, from 50 to 55, for members who have no creditable service before January 14, 2015;

- increasing the age that a child of a member, who dies while serving in the General Assembly, may receive a death benefit from 18 to 26 and adding the provision that this benefit could be paid to a disabled child regardless of age;

- removing an arcane reference that requires a legislator to die contemporaneously with the legislator's spouse in order for a child to receive a death benefit;

- authorizing the naming of a nonprofit organization as a beneficiary to receive a lump-sum death benefit;

- beginning with the next legislative term, removing the ability of legislators to purchase service credit in order to vest in the Legislative Pension Plan;

- clarifying, for those members who have previously purchased service credit in order to vest in the Legislative Pension Plan, when those members may begin to receive retirement benefits; and

- providing up to three years of service credit in the Legislative Pension Plan for military service.

Outside of these changes, the commission recommends that all other aspects of the 2014 Resolution currently governing legislative compensation be retained.

Chapter 1. Introduction

Prior to 1971, the State's constitution established legislative salaries. Related allowances, including expense reimbursements and retirement benefits, were specified in statute. The salary could be changed only through a constitutional amendment ratified by the people in a general election. With the exception of a salary increase to $2,400 in 1964, the voters defeated all the constitutional amendments relating to legislative salaries proposed from 1958 to 1971.

Believing that higher and more regularly adjusted legislative compensation would assist in the modernization of the General Assembly, the 1967-1968 Constitutional Convention included a provision in the proposed new Constitution of Maryland giving the legislature the power to establish legislative compensation. After the voters rejected the proposed constitution in 1968, a study group appointed to recommend amendments to the existing constitution proposed the creation of a legislative compensation commission.

A constitutional amendment, approved by the voters in 1970, created the nine-member General Assembly Compensation Commission and specified that the commission submit salary and allowance recommendations to the legislature every four years. The commission includes five persons appointed by the Governor, two persons appointed by the President of the Senate, and two persons appointed by the Speaker of the House of Delegates. Appointees serve a four-year term. The appointments should be made by the Governor and the Presiding Officers four years in advance of the session at which the commission's recommendations are submitted. This schedule seeks to provide the commission with greater independence. Members of the General Assembly and State and local government officers and employees are not eligible for appointment to the commission.

In 1976, the compensation commission provisions of the Constitution of Maryland were changed to require uniformity of legislative compensation. The modification requires that all members, except officers of the Senate and the House of Delegates, receive the same rates of compensation and retirement benefits. The 1976 amendment negated a policy, established by the 1974 commission, which had required members of the General Assembly employed by the State or local governments to receive reduced compensation.

The constitutional provisions, Article III, Section 15, (**Exhibit 1**) provide that:

- the compensation commission shall submit its compensation, allowances, and pension recommendations to the General Assembly by formal resolution within 15 days after the beginning of the last regular General Assembly session in a four-year term of office. In 2018, the commission must submit its resolution proposing compensation and allowances for the 2019-2022 General Assembly term by January 24, 2018;

- rates of compensation and pensions shall be uniform for all members of the General Assembly, except that the officers of the Senate and the House of Delegates (traditionally, the President of the Senate and the Speaker of the House) may receive higher compensation;

- compensation allowances may not be less than the dollar amounts prior to the establishment of the first compensation commission in 1970;

- through a joint resolution, the General Assembly may reduce or reject but may not increase any item in the resolution;

- the commission's resolution, with any reductions concurred in by joint resolution of the General Assembly, has the force of law and takes effect at the beginning of the next General Assembly; and

- the provisions of each resolution govern until superseded by a subsequent resolution.

The Constitution of Maryland, as interpreted by the Attorney General, gives the commission exclusive jurisdiction over salaries, meal and lodging expense allowances, travel allowances, employee benefit programs, and the legislative retirement system. This exclusive jurisdiction extends only to payments made to the legislators themselves. Most prior commissions have not dealt with legislative district office accounts that fund Annapolis and district office space, equipment, utility, communication, and legislators' staff assistance costs. The annual legislative budget process establishes the district office account funding levels.

As shown in **Exhibit 2,** there is no uniformity among the states as to how legislative compensation is determined. Since 1964, 19 states have established compensation commissions, although the authority of those commissions varies – in 5 states the commission sets the salary; in 7 states, including Maryland, the commission sets the salary unless the recommendations are vetoed; in Arizona the commission's recommendations must be approved by voters; and in 6 states the commission's recommendations are simply advisory. In 5 other states, salary changes are tied to a designated index (for example, the consumer price index).

It is interesting to note that in those states that have a compensation commission that either sets pay or sets pay unless vetoed, the average raise in legislative salaries is significantly higher than in those states without a compensation commission or in which the compensation commission is advisory. Although politics can intercede even in those states with a compensation commission that can set salaries or set salaries unless vetoed, it is clear that compensation commissions can more easily overcome the political difficulties associated with voting to increase one's own salary.

The General Assembly Compensation Commission Resolutions of 1971, 1974, 1978, 1982, 1986, 1990, 1994, 1998, and 2002 took effect as submitted, unchanged by the legislature. In each year, joint legislative resolutions reducing or rejecting items in the commission's resolution failed to pass both houses. In 2006, changes proposed by the commission were rejected by the legislature leaving compensation and other allowances unchanged from the 2002 Resolution. In 2010, changes proposed by the commission were also rejected by the legislature. However, the legislature added a provision concerning the forfeiture of retirement benefits. In 2014, the General Assembly Compensation Commission Resolution took effect as submitted.

Exhibit 3 sets forth the process and time line by which a resolution takes effect. **Exhibit 4** summarizes the commission's preceding resolutions from 1971 to 2006. **Exhibit 5** provides a more detailed comparison of the final resolution adopted to govern compensation in 2010 and the adopted General Assembly Compensation Commission Resolution for 2014. The 2014 Resolution made significant recommendations, including increased salaries to reflect the previous eight years of no salary increases; revisions to the retirement benefit in the light of significant State employee pension changes in 2011; and various other changes to allowable expenses. The 2014 Resolution forms the basis for discussions of the current Compensation Commission.

Activities in 2017 and 2018

The commission met twice, once in December 2017 and again in January 2018. The following summarizes the various meetings and activities of the commission:

- **December 18, 2017** – At its organizational meeting, the commission scheduled a future meeting, which would include the opportunity for public testimony and discussed the nature of the commission's work. The commission was briefed by staff on applicable constitutional requirements and other legal issues, the legislative process pertaining to the commission's resolution, elements of the current resolution, the recommendations of the 2014 commission and the outcome of those recommendations, and the composition and workload of the Maryland legislature.

  The commission heard from staff on all aspects of legislative compensation: information on legislative salaries nationally and in Maryland; expense allowances for Maryland legislators; other benefits available to Maryland legislators including district office accounts; and information on the Legislative Pension Plan including a comparison to pension plans in other states.

  The commission also considered pension issues raised by the State Retirement Agency, the Chairs of the Joint Committee on Pensions, and staff concerning the purchase of air time, death benefits, credit for military service, the transfer of service credit from other State Retirement and Pension Systems into the Legislative Pension Plan, and forfeiture of benefits.

- **January 16, 2018** – At its decision meeting, the commission first took public testimony, considered correspondence from the Secretary of the Department of Budget and Management, and then debated and voted on compensation issues and requested that the staff prepare a final report incorporating the commission's recommendations and the Resolution to be introduced at the 2018 session of the General Assembly of Maryland.

Minutes from the December, 18, 2018 meeting are found in **Appendix 1**. Correspondence from the State Retirement Agency, the chairs of the Joint Committee on Pensions, and the Secretary of Budget and Management are included in **Appendix 2**. The decision document is provided in **Appendix 3**. Additional material requested by the commission at the December 18, 2018 meeting are included in the decision document or in **Appendix 4** as appropriate.

The discussions of the decision meeting are incorporated into the text of the final report.

Chapter 2. Compensation Principles, Background Materials, and Decisions

The Commission's Framework for Decision Making

The Part-time Status of Legislators

The key consideration in determining compensation for the Maryland legislature is the characterization of the body as a part-time institution. Although interim work requires a substantial commitment of time and effort throughout the year, the formal session of the legislature is 90 days.

There is no formal measurement of the time worked by a Maryland State legislator. The legislative session is 90 consecutive days and establishes a base of working time; but for many legislators, their legislative responsibilities go far beyond the session. Indeed, much is expected of a legislator in terms of time and dedication of effort, ability to manage and determine appropriate action on multiple and complex issues, and a willingness to communicate regularly with constituents. This time commitment may come at a cost to the development of another career and the ability to easily plan for long-term financial goals.

In terms of the amount of legislation considered during session, the most recent term has generally followed a typical pattern in that the amount of legislation introduced, considered, and subsequently passed is generally lowest in the first year of a term and then subsequently increases (**Exhibit 6**). The number of bills introduced in the past two sessions has been particularly high. While bill numbers themselves are a little misleading in that there are numerous cross-files (the same legislation introduced in both chambers) and bill re-introductions (failed legislation from prior years), the higher volume certainly plays into longer hearing days during the session. However, as noted above, a legislator's responsibilities go beyond just those of session.

The National Conference of State Legislatures (NCSL) distinguishes between legislatures as follows:

- Full-time legislatures, where the legislative calendar and workload (time in session, constituent service, interim committee work, and election campaigns) requires a legislator to commit the equivalent of 80% or more of a full-time job to legislative duties. Legislative salaries and legislative staff support tend to reflect this commitment.

- Traditional or citizen legislatures, where the time commitment to legislative duties is less than 50% of a full-time job and salaries are likewise relatively modest.

- "Hybrid" legislatures, where the time commitment falls between the full-time and citizen categories. Legislative salaries are set likewise, but it would be expected that the member

might need to earn additional outside income.[1] Hybrid legislatures are further distinguished by those that lean closer to full-time and those that lean more to part-time.

As shown in **Exhibit 7**, Maryland is categorized by NCSL as a hybrid legislature. However, it is important to note that the data on time spent on legislative work used as the basis for the exhibit is somewhat old (compiled in 2002).

Nonetheless, while the classification system to characterize State legislators used by NCSL is subjective, it appears reasonable when set against other measures. For example, **Exhibits 8** and **9** detail staffing levels at state legislatures. Generally speaking, states with full-time legislatures and larger states tend to have more permanent staff per legislator and a higher overall staffing level (including session-only staff). Maryland falls around the national average in both measures.

Another distinction of legislative type has been between "professional" and "citizen" legislatures. In many ways, these measures are often simply another way of describing "full-time" and "part-time" legislatures as noted above, but the distinction is worth noting. Of interest here is the work of a political scientist, Peverill Squire, at the University of Missouri who is well known for his studies on state legislatures. **Exhibit 10** outlines the attributes that Squire and a colleague associate with a professional and citizen legislature. The exhibit also offers the arguments that can be made to describe the benefits of each type of legislature. The same author assesses the relative professionalism of state legislatures using the U.S. Congress as a benchmark of a "professionalized" legislature. The criteria used included the length of the legislative session, salaries, and available legislative staff – all criteria similar to that used in a less sophisticated way by NCSL in its delineation of state legislatures. Unsurprisingly, the end result, as shown in **Exhibit 11**, looks very similar to that shown in Exhibit 6. Of the 10 states identified by NCSL as full-time or hybrid leaning to full-time, 9 are ranked by Squire in the top 10 in terms of professionalism.

Historically, Maryland's legislature has proudly worn the mantle of a citizen legislature. Only 12% of Maryland's State legislators describe themselves as full-time, as shown in **Exhibit 12.** As seen in the exhibit, the Maryland legislature retains a reasonably diverse membership in terms of professional backgrounds, bringing different perspectives and experiences to the lawmaking process.

In establishing the legislative compensation package, previous commissions have been mindful not to set compensation that would change the direction of the legislature (be it described as hybrid versus full-time or citizen versus professional) in either way. This can be seen as trying to balance the desire to attract persons with experience and ability who otherwise might or could not run for office and providing a salary high enough to enable individuals to periodically leave their professions or businesses for legislative work but not being so high that it would promote a

[1] National Conference of State Legislatures. The Politics of Pay. *State Legislatures.* (July/August 2014).

preponderance of full-time legislators. Similarly, the salary and benefit package should not be so low as to limit candidates to those with independent incomes or retirees.

There is no practical way to measure the influence of legislative compensation on an individual's decision to serve. Suffice it to say that there has been no noticeable shift in the composition of the legislature in terms of professional backgrounds. Neither has there been a marked change in the level of candidacy for office, and there remains significant interest in serving as represented in the level of competition for seats and the level of turnover in recent elections (**Exhibit 13**). As shown in the exhibit, the most influential driver of turnover remains redistricting with higher levels of turnover typically seen after a decennial reapportionment (1974, 1982, 1994, 2002, and 2014).

Tenure of the current legislators would also indicate that legislative salary and benefits play little role in members seeking reelection. **Exhibit 14** details the total legislative service for current senators. Only 4 senators have less than two terms of legislative service, with the average length of legislative service totaling almost 16 years, or four terms. The average length of service in the Senate is boosted primarily by the extent of prior service in the House of Delegates (34 senators having some prior House of Delegates service). **Exhibit 15** provides the same data for current members of the House of Delegates. The average length of legislative service is somewhat lower, slightly less than 8 years, or two terms. This drop in average tenure reflects the fact that 68 House of Delegates members have less than one full term of service, a function primarily of significant turnover in the 2014 elections and to a lesser extent the appointment of previously incumbent legislators to the current Administration.

Legislative Salaries

The commission reviewed a variety of salary data in order to judge the adequacy of legislative salaries. The first point of comparison was to compare Maryland's legislative salaries with other states, although as noted in the discussion above, the duties, responsibilities, and compensation of legislators in other states are partially a function of institutional characteristics. **Exhibit 16** sets out comparative data as to 2017 salaries and session lengths.

Given the institutional variations and the lack of information documenting the time that legislators across the states devote to legislative business, it is difficult to precisely compare Maryland's legislative compensation with that of other states. Nonetheless, the comparison to other states shows that Maryland's legislative salary is the twelfth highest in the nation, third only to Hawaii and New Jersey in terms of non-full-time or full-time leaning legislatures. As shown in **Exhibit 17**, which sets forth comparative salary data for state legislators across the country over recent years, the relative salary for members of the General Assembly of Maryland, in 2017, increased by one place from 2013.

The data from Exhibit 17 shows that 16 states saw a legislative salary increase between 2013 and 2017 (California, Pennsylvania, Massachusetts, Hawaii, Wisconsin, Maryland,

Washington, Delaware, Minnesota, Arkansas, Indiana, Oregon, Tennessee, Idaho, Rhode Island, and Maine). This was in contrast to the 2009 through 2013 period where only 8 states saw increases and 5 states experienced reductions. As noted in the exhibit, Maryland legislative salaries increased by 11.8% between 2013 and 2017, the seventh highest increase among the states. As noted earlier, this increase was the first since 2006.

A different kind of state-by-state comparison is by budget size. Among those states with budgets comparable in size to Maryland's (see **Exhibit 18**), Maryland's legislative salaries ranked the highest.

Another point of comparison is to compare State legislative salaries and salary increases with other State and local officials as well as State employees. **Exhibit 19**, for example, shows a summary of State employee and legislator salary changes since fiscal 2003 and indicates that State employees received four general salary increases, or cost-of-living adjustments, and three merit increases in the last eight fiscal years, while legislators have received four increases, all in the past four years. Additional detail on State employee compensation is provided in **Exhibit 20**.

The salaries of selected Maryland State officials, including constitutional officers, cabinet secretaries, and judges are set forth in **Exhibit 21** for fiscal 2011 through 2018. It shows that, like the salaries of legislators, the salaries of constitutional officers were similarly frozen between 2011 and 2015 before increases began in 2016. Salaries of deputy constitutional officers, judges, and most cabinet heads were flat in fiscal 2011 through 2013 because of the State's fiscal situation before increasing thereafter, although none saw the percentage increases enjoyed by the constitutional officers.

Looking at compensation at the local level, salaries for six county councils/county commissioners in fiscal 2018 are higher than that of State legislators in 2017 (Baltimore City and Baltimore, Charles, Howard, Montgomery, Prince George's, and Montgomery counties), with Montgomery and Prince George's counties' salaries more than double the State legislative salary (**Exhibit 22**). State legislative salaries will actually overtake that of Charles County effective January 1, 2018. Legislative salaries in the six most populous counties and the Baltimore City Council have increased at widely varying rates, both long-term since fiscal 2006 and in the past four years (**Exhibit 23**). As would be expected, salaries for the chief executive of those seven jurisdictions, plus the executives in Cecil, Frederick, and Wicomico counties, easily outstrip State legislative salaries (see **Exhibit 24**). The chief executives in Howard, Montgomery, and Prince George's counties earn more than the Governor. The county executive of Baltimore and the mayor of Baltimore City enjoy salaries only slightly below that of the Governor based on the Governor's salary effective January 1, 2018.

Finally, in **Exhibit 25**, calendar 2016 median household income and per capita personal income levels for each Maryland jurisdiction are presented. The average per capita personal income statewide was $58,052, more than the calendar 2016 legislative salary of $46,915. The legislative salary is above the average per capita income in nine jurisdictions. Conversely, it is

only 58% of that in the wealthiest jurisdiction (Montgomery County). A legislative salary is also well below the calendar 2016 statewide average median household income of $78,945 (although still higher than the median household income in three jurisdictions), underscoring the notion that a Maryland legislative salary will typically need to be supplemented in some way by the individual member or a household family member in most parts of the State.

One interesting recent study by the online analytical group 538.com, based on 2014 data and citing work by numerous political scientists on the issue of legislative pay, compared legislative salaries combined with per diems to median household income by state. Unsurprisingly, as shown in **Exhibit 26**, there is significant variation by state, and again unsurprisingly, similar groupings of states to those already noted above emerge. Maryland tends to be somewhat lower ranked in this chart because while the combined State legislative salary and per diem are in the top quintile, the State's median household income was the highest in the nation.

Salary Recommendations

The commission considered the recent funding history for legislative salaries and noted that the 2014 commission had provided significant salary increases in the current term. It was noted that those increases were intended to catch-up from eight years with no salary increases. However, the discussion also acknowledged that the increases had been significant at a time of relatively low inflation. Members referred back to the material presented in the December 18, 2017 meeting, and the point was made that legislative salaries are high for a part-time legislature, and even without an increase in the next term, it is unlikely that this will significantly lower State legislative salaries in comparison to other states.

The commission voted unanimously to retain legislative salaries at the current level for the following term. However, the commission asked that in the transmittal letter to the Presiding Officers that it would be helpful to the deliberations of the next commission for them to facilitate the gathering of data on the amount of time legislators spend on legislative work as well as to identify barriers to potential service by younger members.

Expense Reimbursements

Other states' comparisons have less relevance for per diem expense reimbursements, which should be a function of actual costs rather than institutional characteristics or legislative workloads. Nevertheless, it is worth noting that most states have some kind of per diem or expense reimbursement allowance, and most, like Maryland, tie those reimbursements to some external measure such as federal per diem rates.

In-state Travel

The current resolution establishes guidelines for the reimbursement of expenses incurred for food and lodging while engaged in specified legislative activities in Maryland. Legislators receive a meal allowance in the same combined amount that is allowed State employees under the standard State travel regulations ($47 per day in fiscal 2018). One difference is that State employees must submit appropriate receipts in order to be reimbursed, legislators do not. Lodging reimbursements must be supported by receipts and are subject to the limits specified by the federal General Services Administration (GSA). For example, the GSA limit for Annapolis was $101 per day for the 2017 session. Legislators may be reimbursed for expenses incurred in traveling between a member's home and place of session, meeting, or legislative function at the standard mileage rate set for State employees under the State travel regulations (54.5 cents per mile effective January 1, 2018).

These in-state expenses have been tied to these various external standards for some considerable time – mileage since 1975, lodging since 1995, and meals since 2003.

The resolution also provides that legislators are entitled to a $750 nonvouchered annual payment for travel within a member's district. This payment was introduced in 1987 and remained unchanged until the 2014 Resolution when it was increased to $750.

Exhibit 27 provides data for fiscal 2014 through 2017 for regular session and interim expenses for lodging, meals, and mileage. As shown, there has been little change in overall expenditures over the period. In general, just over three-quarters of legislators regularly utilize lodging in Annapolis during session, 11% do not submit any claims for lodging, and 13% submit occasionally (see **Exhibit 28**).

Exhibit 29 illustrates patterns of meal allowance submissions by legislators during the 2014 through 2017 sessions. This continues the pattern since the meal reimbursement was tied to the State Standard Travel Regulations in 2003 – most legislators consistently request 100% of the daily limit for the entire session.

Out-of-state Travel

Under the current resolution, any legislator who wishes to be reimbursed for actual expenses incurred for registration fees, meals, lodging, and travel in attending a function outside the State must seek prior approval of the President of the Senate and the Speaker of the House with reimbursement other than registration fees tied to rates established by GSA. This provision replaced previous provision whereby the Presiding Officers developed guidelines for out-of-state travel, established a maximum reimbursement amount for meal and lodging expenses, and provided for an exception.

Exhibit 30 provides data on the extent of out-of-state travel from fiscal 2014 to 2017 (transportation and registration costs are included to provide an overall sense of expenditures,

although these costs are not part of the commission's jurisdiction). **Exhibit 31** provides more longitudinal data. Overall, expenses can fluctuate widely from year to year and are primarily influenced by the location of various annual conferences that are frequently attended by legislators (*e.g.*, the NCSL, the Southern Legislative Conference, and the Council of State Governments), as well as the willingness of the Presiding Officers to authorize out-of-state travel. However, as shown in Exhibit 31, although out-of-state travel costs have increased somewhat in the past two years, the extent of out-of-state travel is still far below that seen prior to the most recent recession.

Expense Recommendations

The commission felt that the current structure for expenses reimbursement, a structure which, for the most part, ties expenses to relevant State or federal expense regulations, was appropriate. The commission considered only one change to the current resolution in the area of out-of-state travel. Specifically, it was recommended to allow the Presiding Officers to approve reimbursement for a conference lodging rate that was higher than the relevant GSA lodging rate. This issue occasionally arises when a conference is held at a specific location, and the difference between the conference rate and the GSA rate deters attendance. Since the Presiding Officers have to approve attendance at any out-of-state conference for which a legislator is seeking reimbursement, and the fact that these travel expenses are a matter of public record, this additional step should not be cumbersome or problematic. The commission voted unanimously to approve this change.

Other Benefits Available to Active Legislators

The 2014 Resolution permits legislators to participate in benefit programs generally available to all State employees including health insurance, prescription drug plan, dental insurance, accidental death/dismemberment, term life insurance, tax sheltered spending accounts, deferred compensation programs (although no State match is available to members), workers' compensation coverage, and credit union services. Participation is in the same manner as the participation of State employees and includes payroll deductions directly relating to these programs. However, legislators may not receive State employee death benefits or paid leave and may not participate in the State's unemployment insurance program. As shown in **Exhibit 32**, the majority of legislators participate in the various health-related benefit plans, with slightly more (73%) participating in the health insurance plan versus prescription plan (70%) and dental plan (66%).

Among the other benefits enjoyed by legislators is the ability to continue to participate in the State Health Plan after they leave office. Participation requires the former legislator to pay the full cost of the health insurance and a 2% administrative charge. These benefits, more commonly known as COBRA – Consolidated Omnibus Budget Reconciliation Act – coverage, are generally available for 18 months after termination of employment (with certain exceptions). Prior to the

2014 Resolution, COBRA benefits were available to legislators without any time limit or until the former legislator declined to participate, became eligible for health insurance through another employer, or retired. The 2014 Resolution aligned participation in the State health program for former legislators to the coverage provided to former State employees. Exceptions were made for former legislators participating in the State health program prior to the effective date of the resolution as well as legislators who were serving at the effective date of the resolution but did not serve in the next term immediately following the effective date of the resolution. For these members, the prior COBRA provision applied.

Comparing the specific benefits enjoyed by Maryland's legislators to those in other states is difficult. However, a number of broad points can be made.

- For **health insurance**, legislators in 17 states, including Maryland, receive the same health insurance as state employees. In terms of cost-sharing, 28 states split the cost of health insurance in some manner between the state and the legislator; 5 states offer health insurance with the legislator paying the full cost of the premium; and 4 states pay the full amount of a legislator's health insurance premium. In 4 states, no health insurance is offered to legislators. In Maryland, for example, for Preferred Provider Organization plans, the State pays 80% of premium cost and the legislator pays 20%.

- For **dental insurance**, legislators in 15 states, including Maryland, receive the same dental insurance as state employees. In terms of cost-sharing, 16 states, including Maryland, provide dental insurance at the cost of the legislator; 19 states split the premium cost of dental insurance between the state and the legislator; and 2 states pay the full cost of the dental insurance premium. In 5 states, no dental insurance is offered to legislators.

- For **vision insurance**, legislators in 7 states, including Maryland, receive vision insurance through the regular health insurance plan. In terms of cost-sharing, 15 states require legislators to pay the full premium cost for vision insurance. In 8 states, no vision insurance is offered.

- For **disability insurance**, legislators in 22 states, including Maryland, receive the same disability insurance offered to state employees. In terms of cost-sharing, legislators in 13 states, including Maryland, must pay for the full cost of the premium; 8 states pay a portion of a legislator's disability insurance premium; and 7 states pay the full premium cost. In 18 states, no disability insurance is offered.

- For **life insurance**, legislators in 31 states, including Maryland, are offered the same life insurance benefits as state employees. In terms of cost-sharing, 20 states cover the full cost of at least a basic level of life insurance benefit for legislators. The amount of coverage the state pays for varies significantly, and every state that provides for a basic level of coverage gives the legislator the option to purchase additional life insurance at their own expense. In 13 states, a portion of the cost of a legislator's life insurance benefit

is covered; while in 10 states, including Maryland, life insurance is offered at the full cost of the legislator. In 6 states, no life insurance benefit is offered.

Other Benefit Recommendations

The commission did not consider or make any changes to the other benefits currently offered to legislators.

Pension Plan

The 2014 Resolution made a number of significant changes to the Legislative Pension Plan, reflecting the fact that State employee pension benefits were significantly changed in 2011 as well as to comply with federal tax regulations.

Current Benefit

Under the current resolution, participation in the Legislative Pension Plan is now mandatory (prior to the 2014 Resolution, membership was optional although participation was virtually universal). A member must accumulate 8 years of service credit in order to vest in the pension plan and thus be eligible to receive benefits. The member contribution rate is 7% of the member's salary for up to 22 years and three months. Legislative service beyond this time period does not earn additional retirement benefits. In addition, the member does not make any further contributions beyond this time period.

To receive a normal service retirement allowance from the plan, in addition to accumulating eight years of service credit, a member with no creditable service prior to January 14, 2015, must also be age 62. For members with creditable service prior to that date, the retirement age is 60. A member with no creditable service prior to January 14, 2015, may retire as early as age 55, but benefits will be reduced by 6.0% for each year that the member is less than age 62 (a maximum reduction of 42.0%). A member with creditable service prior to January 14, 2015, may retire as early as age 50, but benefits will be reduced by 6.0% for each year that the member is less than age 60 (a maximum reduction of 60.0%). In either case, the retirement allowance at full retirement age equals 3.0% of the salary of an active legislator in a similar position for each year of service. The maximum allowance is 66.66% of the salary payable to an active legislator. Following retirement, post-retirement allowance increases are based upon increases in the salary of an active legislator.

There is a death benefit for legislators with less than eight years of service that provides to the surviving spouse, or designated beneficiary if there is no surviving spouse, a lump-sum payment of one year's salary plus a return of member contributions with 4% interest. There is also a death benefit for legislators with eight or more years of service (vested members) or former

vested members who are not yet receiving a benefit. In that case, the surviving spouse, or designated beneficiary if there is no surviving spouse, may elect (1) the lump-sum payment of one year's salary plus a return of member contributions with 4% interest; or (2) a monthly benefit of 50% of the allowance accrued at the member's death. Payment to the surviving spouse begins at the member's death. Payment to the designated beneficiary begins at age 60 (or actuarially reduced at age 50). Finally, the surviving spouse, or designated beneficiary if no surviving spouse, of a retired legislator receives a monthly survivor benefit of 50% of the allowance accrued at the member's death. Payment to the surviving spouse begins at the member's death, while payment to a designated beneficiary begins at age 60 (or actuarially reduced at age 50).

It should be noted that, although the prior compensation commission did alter the ages at which legislators may retire, it did not make a similar change to when death benefits could be paid. Those ages continue to align with the retiree ages prior to January 14, 2015.

Exhibit 33 compares the Legislative Pension Plan to the pension plans available to judges, the State Police and other law enforcement officers, the Governor, State employees, and teachers. The exhibit also details the key eligibility, retirement conditions, contributions, and service credit changes that have impacted the plans in recent years. One significant impact of these changes is to treat members of the same systems differently based on the date of initial membership.

Exhibit 34 examines demographic data regarding the membership in the Legislative Pension Plan, specifically the number, average age, and years of creditable service of active legislators in the plan. This exhibit shows that there are 188 active legislators participating in the plan, of whom approximately 47% have served eight years or more in office and, therefore, are vested. This percentage is much lower than noted four years ago due to significant turnover at the 2014 election.

Exhibit 35 presents the number, average age, average years of service, and average monthly benefit of retired legislators. The statistics show that the average monthly benefit for retirees under the 2010 Resolution (shown as the 2002 plan) is $1,606; for beneficiaries, the average monthly benefit is $858. On average, these retirees had served as legislators for 14 years.

Legislative Pensions in Other States

Most states have legislative pension plans. Although direct comparisons are difficult to make, these other plans offer perspective in evaluating Maryland's Legislative Pension Plan, which appears to provide relatively generous retirement benefits.

Exhibit 36 includes a state-by-state comparison of the retirement benefits accruing to legislators and the contributions or cost that a legislator must pay to be a member of the retirement plan. As indicated in Exhibit 36, in terms of plan ranking, Maryland's Legislative Pension Plan ranks twelfth. However, in terms of rankings by state, Maryland ranks ninth as three states with a higher ranking (Pennsylvania, Illinois, and Hawaii) are double-counted as they have pre-reform and reform plans that have a higher benefit than Maryland. Of the states with

higher benefits than Maryland, four are considered full-time or full-time leaning legislatures (Illinois, Pennsylvania, New York, and Massachusetts). Of part-time legislatures in the survey, Maryland ranks fifth. Compared to legislative salaries, the most striking anomaly is Texas where salaries are negligible but the retirement benefit is comparatively high.

As a percentage of salary, Maryland provides a retiree with 12 years of service a benefit equal to 36% of the salary of a current legislator, and a retiree with 20 years of service a benefit equal to 60% of the salary of a current legislator. For a 20-year legislator, eight states offer benefits that equate to a higher percentage of salary than Maryland.

In terms of relative contribution rates, **Exhibit 37** details that Maryland's current legislator contribution rate of 7% ranks eleventh amongst those states in the survey (six states have no contribution rate and Nevada has the highest contribution rate, 15%). The Legislative Pension Plan has a relatively generous benefit multiplier of 3%, which ranks tenth among legislative pension plans and ninth among states (**Exhibit 38**). Other points of comparison between the Legislative Pension Plan and those in other states are detailed in **Exhibit 39.**

Pension Plan Recommendations

The commission affirmed the basic structure of the current Legislative Pension Plan. In considering changes to the plan, the guiding principle adopted was that, to the maximum extent possible, changes should be consistent with other plans in the State Retirement and Pension system. The changes to the Legislative Pension Plan considered by the commission were as follows:

- Altering the age at which a designated beneficiary (other than a surviving spouse) can receive a retirement allowance or death benefit from 60 to 62 and, for early retirement, from 50 to 55, for members who have no creditable service before January 14, 2015. The 2014 Resolution made a change to the age at which a retiree can claim a benefit: specifically, increasing the eligible age to 62 or 55 for early retirement for members with no service prior to January 14, 2015. However, no change was made to the age at which a designated beneficiary (other than a surviving spouse) may receive an allowance or death benefit, retaining 60 and 50, respectively. Given the significant changes made to the Legislative Pension Plan by the 2014 Resolution, this lack of alignment was an oversight. Aligning the ages to the retirement age for members would also be consistent with all other plans in the State Retirement and Pension System. The commission voted unanimously to make the change.

- Increasing the age up to which a child of a member who dies while serving in the General Assembly may receive a death benefit. Under the current resolution, that benefit is allowed for children under age 18. Recent legislation impacting all other plans in the State Retirement and Pension System increased the age up to which a child could receive a

benefit to 26 and added the provision that this benefit could be paid to a disabled child regardless of age. It was noted that this change reflected that, under federal law, children may stay on a parent's health plan until they reach age 26. By making this change, not only would the child receive a benefit until they were 26 (or older if disabled), they would also be able to access health benefits if they were receiving an annuity. The commission again unanimously agreed to align the Legislative Pension Plan with the other plans.

- Removing an arcane reference that requires a legislator to die contemporaneously with the legislator's spouse in order for a child to receive a death benefit. Again, no other plans in the State Retirement and Pension System have this restriction. The commission agreed unanimously to remove this reference.

- Authorizing the naming of a nonprofit organization as a beneficiary to receive a lump-sum death benefit. Currently, the Legislative Pension Plan does not allow a member to name a nonprofit organization as a beneficiary. This is allowed by other plans in the State Retirement and Pension System. Given that this is allowed by the other plans, the commission again unanimously agreed to adopt the provision in the Legislative Pension Plan.

- Discontinuing, beginning in 2019, the ability of legislators to purchase service credit in order to vest. The commission had significant discussion on this issue in the December 18, 2017 meeting, and the same concerns were reiterated at the decision meeting: that the practice was at odds with other plans in the State Retirement and Pension System; that the original policy rationale for allowing the purchase of credit had been made moot by Internal Revenue Service (IRS) guidelines; and that the potential for a member (elected or otherwise) to serve a very short period in office and still buy time to be eligible for a pension and other retiree benefits should be eliminated. The commission voted unanimously to eliminate the purchase of service credit beginning in 2019. This would still allow the purchase of service credit by current members, although they would have to be mindful of IRS regulations.

- Clarifying, for those members who have previously purchased service credit in order to vest, when they may receive retirement benefits. The commission was asked by the State Retirement Agency (SRA) to affirm the current practice it uses to determine when a former member who is otherwise eligible to retire and who has purchased service credit can actually receive a benefit. Specifically, SRA requires a member to wait for the amount of time equivalent to the amount of service credit purchased. The current resolution is silent on this matter. The commission agreed that it was inappropriate for a member to immediately claim a retirement benefit simply by virtue of purchasing service and unanimously agreed to adopt a clarifying provision.

- Providing credit for military service. The commission, as with its counterparts in 2010 and 2014, took up the issue of providing a service credit for military service. The commission

was generally supportive of the idea. Members thought a provision might encourage former members of the military to run for legislative office and also noted that a similar provision exists in other plans in the State Retirement and Pension System. One concern was how to ensure that the same military service was not being counted toward another retirement benefit. In statute, this is not allowed in other plans, although SRA acknowledged that implementing this service credit provision can prove difficult. On balance, the commission agreed that military service credit should be offered in the Legislative Pension Plan. As the vesting period for the Legislative Pension Plan is shorter than the for State employees, for example, the commission unanimously agreed to allow up to three years of military service credit.

The commission considered two other pension-related issues. First, to allow the transfer of service credit from other plans in the State Retirement and Pension System into the Legislative Pension Plan. While this kind of transfer is allowed by other plans in the State Retirement and Pension System, there is no provision in the Legislative Pension Plan. The commission ultimately felt that it did not have sufficient data to fully understand the implications of any such proposal and asked SRA and the Department of Legislative Services to more fully investigate this issue for the consideration of the next commission. Second, the commission had been asked to provide input on whether it had concerns with allowing legislative service to count toward eligibility to claim military service credit if a former legislator sought that credit in another plan in the State Retirement and Pension System. The commission did not feel that it had sufficient information to comment on this specific issue, but noted its action to provide a military service credit in the Legislative Pension Plan.

Other Benefits Available to Retired Legislators

Retired legislators may participate in State benefit programs available to retired State employees. Except for spending accounts and workers' compensation coverage, these programs are the same as those for active legislators.

Retired legislators qualify for the State health program subsidy if vested (8 years of service). For retired legislators with creditable service before January 14, 2015, the amount of the subsidy is one-sixteenth of the full State subsidy for each year of service. This means that upon reaching the normal retirement age, a former legislator with 8 years of service is eligible to receive 50% of the State subsidy for health insurance. Those with 16 or more years qualify for 100% of the subsidy. For legislators with no creditable service prior to January 14, 2015, the 2014 Resolution altered the calculation of the State subsidy of retiree health benefit from one-sixteenth of the full State subsidy to one-twentieth of the full State subsidy for each year of service. This change reflected a similar change that was made to the same subsidy for State employees in 2011.

Other Retiree Benefit Recommendations

The commission did not consider or make any changes to the other benefits currently offered to retired legislators.

Forfeiture of Benefits

The current Resolution governing legislative compensation includes a provision on forfeiture of benefits that was added by the General Assembly in the 2010 Resolution and affirmed by the 2014 commission. Since that time, legislation was enacted concerning the forfeiture of benefits for Constitutional Officers. The forfeiture provision for Constitutional Officers is different in that the qualifying crime is narrower in scope, it provides for a judicial process that allows for less than 100% forfeiture of benefits, and includes an innocent party provision, *i.e.*, allowing a court to provide some benefits to an innocent party, including previously agreed to domestic relations orders.

The commission acknowledged that the legislative forfeiture provision, which the legislature imposed on itself, was more stringent than that passed for constitutional officers. However, there was little sentiment to change the current forfeiture provisions except in one area: a provision for innocent parties. The commission eloquently debated the need to protect innocent parties, especially if those parties themselves have been found to be victims. There was tremendous sympathy for potential innocent parties; however, discussion also centered on the need to hold elected officials to the highest standard as well as the broader policy question of whether a benefit should be attributed to the member only or to their broader beneficiaries.

The commission took two votes: first, to make some provision for innocent parties. This motion was defeated 8-1 with Ms. Brenda B. Rever being in favor. Second, the commission voted to retain the existing forfeiture provision. This motion was agreed to unanimously with the acknowledgement of the concerns that the commission had about the potential impact on innocent parties.

Summary of Legislative Benefits

Exhibit 40 summarizes the salary and fringe benefit value for current legislators effective January 1, 2018, assuming that the member takes advantage of certain health benefits with a certain amount of coverage. This value varies only for those members with over 22 years and three months of service when retirement contributions are no longer deducted. As shown in the exhibit, the fringe benefit value adds over $23,000 to the value of the salary and fringe benefit total.

Exhibit 41 summarizes the retirement allowance and fringe benefit value for an active legislator on retirement based on the salary in effect on January 1, 2018, and assuming that the retired member takes advantage of certain health benefits with a certain amount of coverage. In this exhibit, the total retirement benefit varies by length of service (although the basic allowance calculation is the same for a legislator with equal service regardless of when legislative service began), and by whether the legislator had creditable service prior to January 14, 2015. Those members with creditable service prior to that date have a higher retiree health insurance subsidy until 20 years of service, which results in a significantly higher total retirement benefit.

Exhibit 42 summarizes the salary and fringe benefit value and the value of the retirement benefit for a legislator and State employee with certain lengths of service and also under the two different frameworks determining those retirement benefits (for legislators the 2010 Resolution versus the 2014 Resolution and for State employees pre- and post-2011 pension reforms). As is clear from the exhibit, legislators and State employees earning the same salary and opting for the same health insurance coverage receive the same salary and fringe benefit value. Where the distinction between the two is stark is the retirement benefit. Not only is the legislative retirement allowance more generous (based on the higher multiplier), accessing that benefit is also easier.

District Office Accounts

The commission does not have jurisdiction over district office accounts or other items that legislators do not receive as individuals. However, for informational purposes, material regarding the amount and use of district office expenses **(Exhibit 43**), a history of district office account allowances since 1971 (**Exhibit 44**), and information on staff assistance for members of the legislature (**Exhibit 45**) is provided.

(1) Each member who wishes to be reimbursed for expenses actually incurred for registration fees, meals, lodging and travel in attending a meeting, conference or other function outside the State that the member believes is directly related to, or will substantially enhance the performance of, the member's duties as a legislator shall request and obtain in writing the prior approval of the President of the Senate and the Speaker of the House of Delegates. The request for approval shall indicate the basis for the request for reimbursement, the estimated amount of reimbursable expenses and such other information as may be reasonably necessary to determine the appropriateness of reimbursement. The President of the Senate and the Speaker of the House of Delegates shall develop guidelines for reimbursement of out-of-state travel and other expenses. In developing these guidelines the President of the Senate and the Speaker of the House of Delegates may utilize the provisions of the Standard Travel Regulations of the State of Maryland to the degree applicable, except that the policies in paragraph (2) of this Item 2D shall be observed.

(2) (i) The amount of any reimbursement for registration fees, as well as attendance at the particular function, must be approved in advance by the President of the Senate and the Speaker of the House of Delegates.

(ii) 1. The maximum amount of reimbursement available for actual expenses incurred for meals and lodging on any trip shall be determined by the joint action of the President of the Senate and the Speaker of the House of Delegates in connection with approval of each request, and, except as provided in subsubparagraph 2. of this subparagraph, in no other event shall a member be reimbursed for meals and lodging expenses combined that exceed the most current published federal General Services Administration daily per diem rates for meals and lodging.

2. In the event that the published conference rate for lodging exceeds the General Services Administration daily per diem rate for lodging, the President of the Senate and the Speaker of the House of Delegates may approve the published conference rate.

(iii) Copies of all requests for approval, all written approvals and disapprovals, and all requests for actual reimbursement shall be maintained in a central file in the Finance and Administrative Services Office of the Department of Legislative Services and kept available for public inspection upon request for a period of at least five (5) years.

Participation in these programs shall be in the same manner as the participation of State employees. Additional benefits programs authorized for State employees during a legislative term of office may not be made available to legislators until the beginning of the next term, at which time they shall be fully available unless prohibited elsewhere in this Resolution. Legislators may not receive State employee death benefits, paid leave, or payroll deductions other than those associated with the items authorized by this Resolution. Legislators may not participate in the State's unemployment insurance program, including those former legislators who have been unseated by the elective process.

(2) (i) A legislator who leaves the General Assembly before January 14, 2015, may continue to participate in the State health program until the former legislator declines to participate in the program, becomes eligible for health insurance coverage through another employer, or retires.

(ii) A legislator who leaves the General Assembly on or after January 14, 2015, may continue to participate in the State health program in the same manner as State employees, in accordance with the most current State of Maryland Health Benefits Guide.

(iii) Former legislators electing to participate in the State health insurance program must pay the full cost of the insurance, which includes the individual's contribution and the State subsidy and an administrative charge not exceeding 2%.

Constitutional Provisions Regarding General Assembly Compensation Commission

Art III, §15

Section 15. Duration of sessions of General Assembly; compensation and allowances.

(1) The General Assembly may continue its session so long as in its judgment the public interest may require, for a period not longer than ninety days in each year. The ninety days shall be consecutive unless otherwise provided by law. The General Assembly may extend its session beyond ninety days, but not exceeding an additional thirty days, by resolution concurred in by a three-fifths vote of the membership in each House. When the General Assembly is convened by Proclamation of the Governor, the session shall not continue longer than thirty days, but no additional compensation other than mileage and other allowances provided by law shall be paid members of the General Assembly for special session.

(2) Any compensation and allowances paid to members of the General Assembly shall be as established by a commission known as the General Assembly Compensation Commission. The Commission shall consist of nine members, five of whom shall be appointed by the Governor, two of whom shall be appointed by the President of the Senate, and two of whom shall be appointed by the Speaker of the House of Delegates. Members of the General Assembly and officers and employees of the Government of the State of Maryland or of any county, city, or other governmental unit of the State shall not be eligible for appointment to the Commission. Members of the Commission shall be appointed for terms of four years commencing on June 1 of each gubernatorial election year. Members of the Commission are eligible for re-appointment. Any member of the Commission may be removed by the Governor prior to the expiration of his term for official misconduct, incompetence, or neglect of duty. The members shall serve without compensation but shall be reimbursed for expenses incurred in carrying out their responsibilities under this section. Decisions of the Commission must be concurred in by at least five members.

(3) Within 15 days after the beginning of the regular session of the General Assembly in 1974 and within 15 days after the beginning of the regular session in each fourth year thereafter, the Commission by formal resolution shall submit its determinations for compensation and allowances to the General Assembly. The General Assembly may reduce or reject, but shall not increase any item in the resolution. The resolution, with any reductions that shall have been concurred in by joint resolution of the General Assembly, shall take effect and have the force of law as of the beginning of the term of office of the next General Assembly. Rates of compensation and pensions shall be uniform for all members of the General Assembly, except that the officers of the Senate and the House of Delegates may receive higher compensation as determined by the General Assembly Compensation Commission. The provisions of the Compensation Commission resolution shall continue in force until superseded by any succeeding resolution.

(4) In no event shall the compensation and allowances be less than they were prior to the establishment of the Compensation Commission *(amended by Chapter 695, Acts of 1941, ratified Nov. 3, 1942; Chapter 497, Acts of 1947, ratified Nov. 2, 1948; Chapter 161, Acts of 1964, ratified Nov. 3, 1964; Chapter 576, Acts of 1970, ratified Nov. 3, 1970; Chapter 541, Acts of 1976, ratified Nov. 2, 1976; Chapter 681, Acts of 1977, ratified Nov. 7, 1978)*.

Attributes of a Professional and Citizen Legislature

Professionalization Component	Professionalized Legislature	Citizen Legislature
Compensation and benefits	● Increased incentive to serve, leading to longer tenure and more experience ● Increased ability to focus on legislative activities ● Attracts better qualified members	● Members spend more time in their community, not the capital ● Costs less to maintain legislative branch ● Attracts members who wish to commit to public service while maintaining other careers ● More turnover means less experience but more new ideas
Time demands of service	● Reduced opportunities to pursue other employment and increased need for higher salary to compensate for lost income ● Increased opportunity to master legislative skills ● More time for policy development and deliberation	● Increased opportunity to pursue other employment and less need to compensate for lost income ● Need to manage time in session effectively ● Makes interim between sessions available for study of issues and legislative oversight
Staff and resources	● Increased ability of members to influence policymaking process ● Increased job satisfaction ● Enhanced reelection prospects	● Primary reliance on central, nonpartisan staff ● Staffing is more efficient and cost-effective ● Requires members to conduct own constituent service and correspondence ● Reduced incumbency advantage in elections. No need for year-round offices in capital

(1) The fiscal 2005 annual salary review (ASR) provided upgrades for public defenders, social services attorneys, assistant general counsels (human relations), assistant State prosecutors, direct service workers in the Department of Juvenile Services, property assessors, laboratory scientists, administrative law judges, and banking financial examiners.

(2) The fiscal 2006 ASR provided a one-grade salary adjustment for the Deputy State Fire Marshal classification series.

(3) Fiscal 2007 general salary increases are $900 for employees making less than $45,000 at the end of fiscal 2006, $1,400 for employees making $70,000 or more, and 2% for those remaining.

(4) The fiscal 2007 ASR provided reclassifications and other enhancements for correctional officers and correctional support personnel, registered nurses, licensed practical nurses, direct care assistants, forensic scientists, institutional educators, administrative law judges, and teachers' aides.

(5) A 2.0% cost-of-living increase was included in the fiscal 2009 budget. However, a furlough for State employees by Executive Order 01.01.2008.20 on December 16, 2008, reduced employee salaries by an average of approximately 1.5%. General Assembly members are constitutionally exempt from furloughs.

(6) The fiscal 2009 ASR provided reclassifications and other enhancements for scientists, investigators, engineers, public defender intake specialists, veteran services, cemetery workers, call center specialists, complex tax auditors, tax consultants, retirement benefits counselors, medical care specialists, dental workers, financial regulators, deputy fire marshals, lead aviation maintenance technicians, police communications operators, and civilian helicopter pilots.

(7) State employee salaries were reduced through furlough in fiscal 2009 by Executive Order 01.01.2008.20 in December 2008. The salaries for employees earning $40,000 were reduced by the value of two days' salary; those earning between $40,000 and $59,999 were reduced by the value of four days' salary; and those earning $60,000 or above were reduced by five days' salary. Public safety positions required to maintain 24/7 facilities were exempted from the action. The result was an average salary reduction of approximately 1.5%.

(8) State employee salaries were reduced through furloughs and salary reductions in fiscal 2010 by Executive Order 01.01.2009.11 in August 2009. All employees are subject to a temporary salary reduction of five salary days, while non-24/7 employees with salaries between $40,000 and $49,999 are furloughed for an additional three days, those between $50,000 and $99,999 for an extra four days; and those earning over $100,000 are furloughed for an additional five days. The result was an average salary reduction of approximately 2.6%.

(9) State employee salaries were reduced through furloughs and salary reductions in fiscal 2011 by Executive Order 01.01.2010.11 in May 2010. The structure mirrors the fiscal 2010 program.

(10) The fiscal 2012 budget provided employees with a one-time $750 bonus.

(11) The fiscal 2013 ASR provided upgrades to the following classifications: contribution tax auditors, Maryland correctional enterprise industries representative I and II, and regional managers. Two new classes were also created – nutrient management specialist III and forensic behavioral specialists.

(12) The fiscal 2014 ASR provided one grade for the following classifications: emergency medical services' communication officer staff; State Department of Assessment and Taxation assessors; personnel classifications at the Maryland Department of Health (MDH), the Department of Human Services, and the Department of Public Safety and Correctional Services (DPSCS); and civilian fixed wing pilots, aviation technicians, and inspectors at the Department of State Police. Parole and probation agents at DPSCS that are an agent 1, receive a one-grade increase, agent II and senior currently at base, step 1 or step 2 are moved up to step 3. Personnel officers in the employee relations function at the Department of Budget and Management (DBM) are moved into four-level class series.

(13) The fiscal 2015 ASR provided one grade for the following classifications: psychologist positions statewide, DBM operating and capital analysts; park technicians at the Department of Natural Resources; direct care workers and geriatric assistants at MDH; psychiatrists, alcohol and drug counselors, and criminal justice social workers at DPSCS; and loan writers at the Department of Housing and Community Development. The ASR also included funds to provide equity for the planning series at the Department of Planning and MDH and a $3,000 hire bonus and a $3,000 retention bonus for registered nurses at MDH.

(14) The fiscal 2016 ASR provided a one grade increase to wage and hour investigators and administrators at the Employment Standards and Prevailing Wage Programs at the Department of Labor, Licensing, and Regulation.

(15) The fiscal 2017 ASR provided for step increases for building security officers; a one grade increase for Department of General Services procurement officers; salary parity with detective for the warrant apprehension job series at DPSCS; step increases for Department of Housing and Urban Development fiscal staff; and polygraph operators at the Department of State Police and DPSCS.

Staff Assistance for Members of the General Assembly of Maryland

Funding is included in the fiscal 2017 budget for the General Assembly of Maryland to provide staff assistance to senators and delegates as follows.

Senate

Funds are included to permit each senator to hire an administrative aide that is a regular full-time, benefited employee. The current salary range for these positions is $39,000 to $71,190.

Funds are included to permit each senator to hire a secretary for the legislative session. This is generally a benefited employee. For fiscal 2017, each position is budgeted at $8,118.

Each senator is provided with a District Office Allowance of $18,965. Of this amount, $5,800 is restricted to staff assistance. Nine leadership positions are each provided with $20,436, of which $6,500 is restricted to staff assistance.

Each senator is provided with a Supplemental Operating Fund in the amount of $7,500. This amount is intended to supplement the District Office Allowance and may be spent on operating expenses or for staff assistance at the senator's option.

House

Funds are included in the House budget to provide for payment of salaries attributable to specifically budgeted delegation staff positions. These are generally benefited positions that may work either a full-time or a part-time schedule depending on workload. The applicable salary for each budgeted delegation staff position is established based primarily on qualifications, experience, and anticipated workload.

Funds are included to permit each delegate to hire a secretary for the legislative session. Each delegate's secretary is funded at $2,755 for fiscal 2017, which if combined with two other delegates, approximates the amount budgeted for each senator's secretary.

Each delegate is provided with a District Office Allowance of $18,965. Of this amount, $5,800 is restricted to staff assistance. Twelve senior leadership positions are each provided with $20,436, of which $6,500 is restricted to staff assistance. Five delegation chair positions are each provided with $19,810, of which $5,800 is restricted to staff assistance.

Each delegate is provided with a Supplemental Operating Fund in the amount of $3,546. This amount is intended to supplement the District Office Allowance and may be spent on operating expenses or for staff assistance at the delegate's option.

General Assembly Compensation Commission

Minutes – December 18, 2017 Meeting

Commissioners in Attendance: Lisa First-Willis, Chair; Laurence C. Daniels; Lyn A. Dippel; Joshua C. Greene; Robert A. Liberto; Wendell G. Rakosky; Gene M. Ransom III; and Joe Rubino

Staff in Attendance: Simon G. Powell, Dana K. Tagalicod, and Laura M. Vykol

Others in Attendance: Phillip Anthony, Department of Legislative Services (DLS); Anne E. Gawthrop, State Retirement Agency (SRA); and Matthew Palmer, Office of the Governor

Ms. First-Willis convened the meeting at 1:15 p.m. After introductions, the chair consulted with other members to set the next meeting of the commission, which was agreed for January 16, 2018, at 9:30 a.m. in Annapolis.

The meeting proceeded with staff providing information on the charge of the commission, a comparison of the structures adopted by states to determine legislative compensation, and the process in Maryland for the development and disposition of the compensation resolution.

In presenting the framework for thinking about legislator compensation, staff presented various data concerning the categorizations of State legislatures: full-time versus part-time and professional versus citizen. In presenting the data, staff acknowledged that there is no good way to measure the time taken by legislators to fulfill their duties and responsibilities. Mr. Rakosky noted that, in terms of bills introduced and passed, there has not been a substantial increase in workload. Staff concurred, although noting that the trend was generally pointing to an increase in legislation. It was also noted that the General Assembly of Maryland has developed organizationally in recent years; for example, standing committees establishing subcommittees, the addition of professional committee staff resources, and increasing access to data and information, all of which tends to mean that more time and attention is paid to legislation. Mr. Ransom also noted that much more work is done during the interim (*i.e.*, out of session).

The question of the relative time dedicated to being a legislator was discussed further after presentation of data drawn from national and academic sources. Mr. Rakosky was particularly interested in data that identifies the occupations of Maryland legislators and whether legislators actually perform in those occupations while serving as legislators. Staff noted that the data was

self-reported and agreed that some legislators might identify as a certain profession but at that point be retired or no longer are in the profession.

Mr. Rakosky asked if there was any difficulty in getting people to run for office. Staff presented charts, which noted that competition for office appears healthy and tenure levels, particularly in the House of Delegates, reflects significant turnover that could be seen as a sign of competition. While it could also be argued that this level of turnover is due to the difficulty of juggling the role of legislator with another career, there is little evidence that this is directly due to compensation issues. Certainly, the level of uncontested elections in primary and general elections appears not to have changed markedly and is more reflective of typical political and geographical issues than lack of interest.

In discussing actual salaries, after staff presented data on State and local salary levels and salary trends, discussion centered on how to appropriately consider the salary paid in an annualized sense based on the part-time status of the legislature against the recognition that Maryland has a relatively high cost of living. This question also prompted a discussion of whether the commission had any particular strategy that should be adopted in developing salary recommendations.

In response, staff reiterated that lack of meaningful data on the time taken by legislators to perform their jobs precludes a clear sense of how to annualize legislative salaries. However, in response to a request from Ms. First-Willis, staff agreed to provide the commission with more information on salaries in comparison to relative cost of living at the next meeting. In terms of overall strategy, staff noted that any overarching strategy is set by each commission. Mr. Ransom noted that generally each commission is largely comprised of new members, and each makes its own way. As a member of the previous commission, for example, he noted that there was concern about the lack of a salary increase over the prior eight years and also the need to reconsider the Legislative Pension Plan in the context of recent reforms in the State employee plan. While there was still concern about the actual basis for the current salary level, none of the commission members expressed interest in fundamentally changing salaries to either align with what are considered full-time legislatures or those that are closer to the bottom of the current range of State legislative salary levels.

Moving to a discussion of legislative expenses, staff noted that most of the expense levels were tied to external reimbursement schedules (either State or federal) to allow for timely changes and also to rely on the analysis that is used to develop those schedules. Members seemed to generally concur that this was sensible. Mr. Daniels did ask if there were any issues with the hotel rates allowed currently. Staff noted that consideration had been asked to allow for reimbursement of hotels at the General Services Administration or conference rate when members attend conferences, as there had been occasions when the difference between the two had dissuaded members from attending conferences.

Staff then presented data on health coverage levels. In response to various questions raised by Mr. Rakosky, staff noted that the employer (the State) and employees share the cost of coverage with the precise share varying according to the plan; cost sharing for active legislators is the same

as for active State employees; and that the commission has the authority to change coverage and cost-sharing arrangements, although that would mean effectively creating a legislative health and benefits plan separate to that of State employees.

After a short break, the commission turned to a presentation on legislative retirement benefits. In reviewing the components of the legislative pension plan, specifically the time for vesting in the legislative plan, it was noted that this had remained unchanged in the prior resolution at 8 years despite the change to the State employee plan (from 5 to 10 years) under the 2011 pension reforms. Ms. First-Willis asked if there had been discussion of changing the vesting provision by the previous commission. Staff replied that there was a discussion. However, the prior commission felt that while the vesting period for legislators was now less than for State employees, previously, it had been greater. Further, there was a desire to align the vesting period around the length of a legislative term (*i.e.*, multiples of 4 years). It was felt that 12 years was too long a vesting period, so the decision was made to retain the 8-year provision.

In response to questions from Mr. Rakosky, staff also clarified provisions about the pension plan, specifically if the overall funding requirement would be decreased if the member contribution was increased (it would); if a member receives his/her own contributions back if leaving the plan prior to vesting (yes, upon request); if you can claim a legislative pension while still serving (a member may not); and the overall health of the pension system (not as well funded as the pension funds of other AAA-rated states but significantly improved in terms of funding status compared to what was expected after 2011 pension reforms).

Mr. Ransom asked staff if there had been any concerns raised by legislatures after the significant changes to the legislative retirement plan in the 2014 Resolution. Staff noted that since the changes were prospective in nature, nobody has yet retired under the new provisions; so in that regard, comment was unlikely. While a small number of legislators had not been participating in the plan (participation was made mandatory in 2014), there had been no complaints raised within DLS or SRA about this issue.

Staff then presented a chart detailing relative benefits for legislators and State employees earning the same salary, both pre- and post-pension reform/resolution change. Discussion around the chart included (1) whether the salary itself was appropriate for the status of the legislature; and (2) that it was important to remember that State employees have a greater opportunity to increase salary beyond that of legislators. Mr. Ransom also made the point that the last commission did try and balance the changes made to overall compensation, *i.e.*, increasing salaries but changing retirement benefits by increasing mandatory contributions that mitigated the benefit of the salary increase and increasing retirement age.

Staff then presented a number of issues concerning the Legislative Pension Plan for the consideration of the commission, issues that could require changes to the current resolution.

- The need to amend the current provision that allows the purchase of "air time", *i.e.*, service credit in order to become vested. The cost of the purchase includes both the

employee and employer contribution. Ms. Gawthrop of SRA noted that the Legislative Pension Plan is the only plan in the State system that allows this type of purchase. It is a long-standing provision that recognizes that legislators can lose their job in an election and not reach the vesting period. Counsel for SRA has advised that this provision does not comply with the Internal Revenue Services' (IRS) regulations, which only allow air time purchase if a member has already accrued 5 years of service and can only purchase up to 5 years.

In response to questions from Mr. Ransom, Ms. Gawthrop noted that the largest purchase of air time was 7.5 years, and 16 legislators have purchased air time, 12 of which would not be allowed under IRS regulations. Ms. Dippel asked if air time purchase was only available if a member ran for reelection and lost. Ms. Gawthrop noted that it was available to any member who wanted to purchase credit in order to vest regardless of why the member left public office.

The members agreed that, at the very least, consideration must be given to adopting a provision consistent with IRS guidelines and adopting further options and clarifications beyond that. Both Mr. Rubino and Mr. Daniels noted that changing the provision to be consistent with IRS guidelines would essentially preclude one-term members who lose reelection from accessing a retirement benefit. In other words, undermining the original policy consideration for the provision in the first place. In response to a question from Mr. Daniels about retroactivity, Ms. Gawthrop said that any change should be prospective and those that current fall foul of IRS guidelines would have to be dealt with on a case-by-case basis.

- ***Death Benefits*** – A number of issues were raised around death benefits.

  - Staff noted that, in the Legislative Pension Plan, benefits are available to children under 18 whereas other plans have recently extended benefits to age 26 and disabled children. Mr. Rakosky asked what the likely cost would be to make such a change. Staff noted that it would be slight as the situation rarely happens.

  - It was also noted that, while the prior commission altered the early retirement benefits and retirement age, it did not alter when beneficiaries can get benefits. Conforming when beneficiaries can access benefits to that of the member, would be consistent with the overall actions of the prior commission.

  - A legislator has raised the issue to staff about naming a nonprofit organization as a beneficiary, something that is not currently allowed under the Legislative Pension Plan. Ms. Gawthrop noted that this option was available to State employees but only for a lump-sum payment.

- ***Transfer of Service Credit*** – Staff presented an issue bought up under the prior commission about allowing transfer of service credit from another State pension plan into the Legislative Pension Plan. This is currently prohibited (similar to the Judges Pension plan), not least because the multiplier for the legislative plan is higher than other plans.

- ***Military Service Credit*** – Each of the past two commissions have considered the question of whether to allow some credit for military service. All other plans allow some form of credit except for the Legislative Pension Plan.

  Mr. Ransom noted that for both the military service credit issue and transfer of service credit that the prior commission deferred because of, among other things, the many other changes being considered by the commission to the Legislative Pension Plan. Mr. Rubino asked if a member would get military credit even if you have used that credit as part of another military pension and how it would benefit the State. Mr. Ransom thought it might encourage more people to run. Staff agreed to collect additional data on the issue and provide language that was included in the final 2010 General Assembly Compensation Commission Resolution (all of the changes made in that resolution were ultimately rejected by the General Assembly) for consideration at the next meeting.

- ***Forfeiture of Benefits*** – The current provision was added to the 2010 Resolution by the legislature and affirmed by the 2014 commission without change. In 2016, the General Assembly passed forfeiture provisions for constitutional officers. Those provisions go into effect at the beginning of the next term. The current forfeiture provision is silent on a number of issues including having no provision for innocent spouses/beneficiaries and process.

  The commissioners were generally wary about making changes to this provision at a time when a number of current and former members of the legislature have pled guilty to, or are facing charges of, corruption. However, there was also some concern about the current provision not allowing for any exceptions for certain beneficiaries.

Prior to adjournment, Ms. First-Willis asked staff that, in the preparation of decision documents, especially on retirement changes that the commission wishes to consider, information is provided comparing changes to the State employee retirement plan and also a sense of cost. The meeting was adjourned at 4:20 p.m.

Dear Ms. First-Willis,

I am writing to you on behalf of the Board of Trustees for the State Retirement and Pension System (System) with regard to a provision included in the Legislative Pension Plan (LPP) that it believes should be reviewed by the General Assembly Compensation Commission. This provision addresses the purchase of service credit by non-vested members who are no longer active members of the LPP, and is referred to as "air time". The purpose of this provision is to allow members of the Maryland General Assembly who leave the legislature prior to vesting, to purchase the creditable service necessary to vest in the LPP.

Specifically, Item 3A, § 6(d) of the 2014 Resolution of the General Assembly Compensation Commission provides:

> A member may purchase service credit in the Legislative Pension Plan so that the amount of the creditable service of the member aggregates not more than 8 years if the member:
>
> (1) Has less than 8 years of creditable service in the Legislative Pension Plan; and
> (2) Pays to the Board of Trustees an amount equal to the sum of:
> (i) 7% of the annual salary payable to a legislator during the years of service to be purchased; and
> (ii) The contributions payable by the State with respect to the salary of a legislator during the years of service to be purchased.

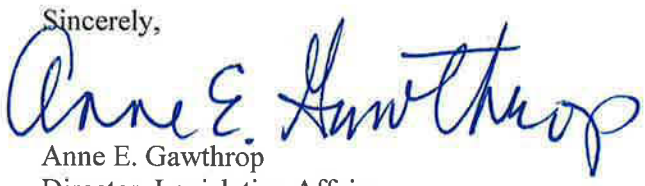
Tax counsel for the System has informed the Board that this provision does not comply with Internal Revenue Code (IRC) § 415(n), regarding non-qualified permissive service credit. Generally, non-qualified permissive service credit refers to service credit for a time period that is not associated with a period of employment, military service, or qualifying leave of absence. A qualified plan (such as the System) fails to comply with IRC § 414(n)(3)(8) if it allows the purchase of non-qualified permissive service credit by a member with fewer than five years of participation in the plan, or if it permits the purchase of more than five years of non-qualified permissive service credit. As currently drafted, Item 3A, § 6(d) impermissibly allows the purchase of more than five years of non-qualified service credit, and also impermissibly allows a member with fewer than five years of participation to purchase non-qualified service credit. Per § 6(d), a member with less than eight years of creditable service can purchase creditable service "so the amount of the creditable service of the member aggregates not more than eight years."

In order to comply with IRC § 415(n), the Board is requesting the Commission to revise Item 3A, § 6(d) to prevent a member with fewer than five years of service credit from purchasing non-qualified service credit. Additionally, it appears that § 6(d) appears to allow the purchase of air time by a member who is currently serving in the General Assembly. The Board would also request the Commission to amend this section to clarify that only members of the LPP who are no longer serving in the General Assembly may purchase air time.

Finally, Item 3A, § 6(d) is silent with regard to how air time should be applied. The Board would request the Commission to clarify this section as to when a member who has purchased air time may retire. The current practice of the State Retirement Agency (Agency) has been to inform members who purchase air time, that they may not retire from the LPP until after the period of time they purchase has elapsed. Presently, all members who have purchased air time have been further from normal retirement age than the years they have purchased, so providing that a member must wait until the amount of air time has elapsed has not resulted in any delay of receiving a service retirement for those members. However, if a member left the General Assembly with six years of service at age 62 (current normal service retirement in the LPP) and purchased the two years necessary to vest in the LPP, the Agency's practice would be to require that individual to wait until age 64 to begin receiving a service retirement allowance from the LPP. In light of this potential delay that could occur, the Board would request the Commission to clarify § 6(d) as to whether such a member should wait until the period of air time has elapsed before a member may begin receiving a service retirement allowance, or whether that member may begin receiving a retirement allowance immediately upon purchasing air time if at the time of purchase the member had reached normal service retirement age.

If you have any questions on the issue of air time, please do not hesitate to contact me at 410-625-5602 or agawthrop@sra.state.md.us.

Sincerely,



Anne E. Gawthrop

MARYLAND GENERAL ASSEMBLY

JOINT COMMITTEE ON PENSIONS

June 15, 2017

Members of the General Assembly Compensation Commission:

As co-chairs of the General Assembly's Joint Committee on Pensions and chairs of the Senate and House oversight subcommittees on pensions, we write to request that the General Assembly Compensation Commission (commission) take under consideration legislation that has passed during the current legislative term when reviewing the Legislative Pension Plan (LPP) when the commission meets this fall.

Chapter 220 of 2016 implements a process by which pension benefits for certain constitutional officers may be forfeited on commission of certain crimes. The legislation does not take effect until the beginning of the next term in 2019. While the LPP already has a forfeiture provision, Chapter 220 addresses areas in which the LPP provisions are silent or ambiguous and contains provisions that provide protections for innocent spouses and dependents. Chapter 220's effective date was delayed so that the commission would have an opportunity to review its provisions for possible incorporation into the LPP beginning with the next legislative term of office.

Chapters 277 and 278 of 2017 made changes to the death benefits available in the several systems of the State Retirement and Pension System. As the General Assembly could not incorporate these changes into the LPP, we request that the commission review the changes made in Chapters 277 and 278 and consider updating the LPP death benefit provisions to be consistent with the benefits offered to all other system members and their surviving dependents.

Finally, Senate Bill 598 of 2017 addressed military service credit for former members who became members of another system through State employment. Although the legislation addressed military service credit for non-LPP members, the legislation was held by the Senate Budget and Taxation pension subcommittee after a question arose as to whether the matter would fall under the jurisdiction of the commission.

Dear Chair First-Willis:

As the Commission deliberates on possible changes to the compensation and allowances due members of the General Assembly, it may be helpful for Commission members to have some understanding of the State's current and forecasted General Fund budget outlook.

FY 2019 forecast shows spending growth at 5.3% and revenue growth of 3.1%. Growth in spending continues to outpace otherwise healthy revenue growth. The result is a short- and long-term structural gap. The FY 2019 Budget must resolve a $298 million structural deficit and account for a $100 million close-out balance, in accordance with the General Assembly's Spending Affordability Committee recommendations.

General Fund Budget Outlook Fiscal 2018-2023[1]
($ in Millions)

	2019 Baseline	2020 Est.	2021 Est.	2022 Est.	2023 Est.
Cash Balance	-$287	-$889	-$1,200	-$1,340	-$1,493
Structural Balance	-$298	-$832	-$1,103	-$1,261	-$1,414

The cumulative impact of this imbalance in spending and revenues is a $4.9 billion structural gap over the next five years. In addition, there is considerable uncertainty as to the impact of federal tax and spending decisions on the State's fiscal situation.

The Administration has been prudent in constraining State agencies' spending while delivering quality services to Maryland citizens. Unfortunately, eliminating COLAs for State employees' has been part of the budget balancing strategies for the past several years. The Spending

Affordability Committee's working documents, in fact, highlight foregoing general and merit salary increases for State employees as a discretionary action to reduce the State's FY 2019 budget shortfall.[2] These are not easy decisions.

The Administration will deal with any volatility in revenue and spending to deliver a balanced budget – we invite those who have been charged with decisions that impact the budget to be mindful of the challenges and goal of this Administration to address Maryland's long-term structural deficit.

Sincerely,

David R. Brinkley

Expenses

Current

Lodging (In-state)	Vouchered and tied to the General Services Administration (GSA) rate for Annapolis (currently $101 per diem) or outside of Annapolis at the appropriate local GSA rate if approved by Presiding Officers.
Meals (In-state)	Nonvouchered and reimbursed in accordance with standard State travel regulations ($47 total in fiscal 2018).
Mileage (In-state)	Reimbursed in accordance with standard State travel regulations (53.5 cents per mile effective January 1, 2017).
In-district travel	$750 nonvouchered annual payment.
Out-of-state travel	Subject to the most current published federal GSA daily per diem rates for meals and lodging.

Proposed Change: for out-of-state travel add a provision that allows an exception to the GSA rate: The maximum amount of reimbursement available for actual expenses incurred for meals and lodging on any trip shall be determined by the joint action of the President of the Senate and the Speaker of the House of Delegates in connection with approval of each request, provided that in no event shall a member be reimbursed for meals and lodging expenses combined that exceed the most current published federal GSA daily per diem rates for meals and lodging **except that in the event that the published conference rate for lodgings exceeds the GSA rate the Presiding Officers may approve the published conference rate**.

Fringe Benefits – Current Legislators	With exception of participation in the State's unemployment insurance program, receiving death benefits, and paid leave, benefits are the same as State employees including cost-sharing provisions.

Pension and Retirement Provisions

Item 3A

Participation	Mandatory enrollment.
Vesting	After 8 years of creditable service.
Member Contribution	7.0% of annual salary, up to 22 years and three months.
Retirement Allowance	3.0% of salary of active legislator for each year of service.
Maximum Allowance	66.67% of salary payable to an active legislator.
Cost-of-living Adjustment	Benefit recalculated based on salary increases for active legislators.

Eligibility
(Members with Creditable Service Before January 14, 2015)

Normal Retirement	Age 60 with at least 8 years of service.
Early Retirement	Age 50 with at least 8 years of service, actuarially reduced 6.0% for each year under age 60 (maximum reduction 60.0%).

(Members with No Creditable Service Before January 14, 2015)

Normal Retirement	Age 62 with at least 8 years of service.
Early Retirement	Age 55 with at least 8 years of service, actuarially reduced 6.0% for each year under age 62 (maximum reduction 42.0%).

Survivor's Allowance/Death Benefit

Nonvested, Active Legislator	Surviving spouse, or designated beneficiary if no surviving spouse, receives lump-sum payment of one year's salary, if any, plus return of member's contributions (with interest).

Vested Active or Former Legislator	If there is no spouse and the member has designated multiple beneficiaries, then the beneficiaries share equally the lump-sum payment noted above. Surviving spouse, or designated beneficiary if no surviving spouse, may elect either the lump-sum payment noted above or a monthly benefit of 50.0% of allowance accrued at member's death. Payment to surviving spouse begins at member's death. Payment to designated beneficiary begins at age 60 or actuarially reduced at age 50.

Proposed Change: Align the age for a death benefit payment to designated beneficiary consistent with change made in 2014 Resolution for retirement age eligibility. Payment to designated beneficiary would begin at **age 62 years** or actuarially reduced **at age 55**.

	If there is no spouse and the member has designated multiple beneficiaries, then the beneficiaries share equally the lump-sum payment noted above.
Retired Legislator	Surviving spouse, or designated beneficiary if no surviving spouse, receives a monthly benefit of 50.0% of allowance accrued at member's death. Payment to surviving spouse begins at member's death. Payment to designated beneficiary begins at age 60 or actuarially reduced at age 50.

Proposed Change: Align the age for a death benefit payment to designated beneficiary consistent with change made in 2014 Resolution for retirement age eligibility. Payment to designated beneficiary would begin at **age 62 years** or actuarially reduced **at age 55**.

	If there is no spouse and the retiree has designated multiple beneficiaries, then the beneficiaries share equally the balance of the actuarial equivalent present value of the retiree's basic allowance computed at the time of retirement.
Basic Allowance	Provides maximum benefit to retiree based on creditable service. At the retiree's death, the spouse or designated beneficiary receives 50.0% of the retiree's benefit for life.

Optional Allowance	Provides reduced allowance to retiree. One hundred percent of benefit paid to spouse or designated beneficiary for life. Unless the beneficiary is the retiree's spouse or disabled child, a designated beneficiary may not be more than 10 years younger than the retiree.

Proposed Change: The current resolution provides a death benefit for minor children (under age 18) for a member who dies while serving as a legislator in the General Assembly. Align the age for a death benefit to recent legislation allowing payments up to age 26 and for disabled children regardless of age. Payment of benefits to each surviving child who has not attained **the age of 26 and for disabled children regardless of age.**

Proposed Change: The current resolution contains provisions that require a legislator to die contemporaneously with the legislator's spouse in order for a minor child (under age 18) to receive a death benefit. The other plans in the State Retirement and Pension System do not have these contemporaneous death provisions; these other plans instead provide that if a member does not have a surviving spouse, the death benefit may be paid to the children up to age 26 or to disabled children regardless of age. ***Remove the contemporaneous death provisions from the resolution and instead specify that if a legislator does not have a surviving spouse that the death benefit may be paid to children up to age 26 or disabled children regardless of age.***

Proposed Change: Authorize the naming of a nonprofit organization as a beneficiary by a member to receive a lump-sum death benefit. No current provision.

Disability Benefit	If totally disabled, a vested member receives a normal retirement allowance regardless of age.
Less Than 8 Years of Service	A legislator who leaves office with less than 8 years of service may (1) withdraw member contributions; (2) pay member and State contributions to accumulate 8 years; or (3) transfer legislative service to another State system in which the member participates. A legislator who resigns to become a State judge is entitled to a retirement allowance regardless of years of legislative service.

Proposed Change: Discontinue, beginning with the implementation of the 2018 Resolution, the current provision that allows a legislator to purchase service credit in order to vest.

Proposed Change: If the commission wishes to continue the purchase of service credit in order to vest, align the provision to IRS guidelines, which would allow purchase only after 5 years of service and the purchase of only a maximum of 3 years.

Proposed Change: Confirm for those members who have already bought service credit, and if continued moving forward for those that do so in the future, the current practice that members are not eligible for retirement until after the same length of time as the service credit purchased, i.e., if a member would otherwise be eligible for retirement but has purchased 2 years in order to vest, he/she cannot retire for 2 years.

Proposed Change: The current resolution appears to allow the purchase of service credit even if a member is currently serving in the General Assembly. ***If the commission wishes to continue the purchase of service credit in order to vest, amend the resolution to clarify that only members of the Legislative Pension Plan who are no longer serving in the General Assembly may purchase service credit.***

Other

Proposed Change: Transfer of service credit into the Legislative Pension Plan. Under the current resolution, only members with less than 8 years of service (not vested in the Legislative Pension Plan) may transfer creditable service <u>from</u> the Legislative Pension Plan to a State system in which the member participates (the member must also transfer the member's accumulated contributions). There is no current provision to allow transfers <u>into</u> the Legislative Pension Plan from any other system or plan. ***If the commission wishes to allow the transfer of service credit into the Legislative Pension Plan, the commission should consider requiring the member to pay an amount (in addition to transferring the member's accumulated contributions) because the benefit multiplier in the Legislative Pension Plan is more generous than in all other systems. If the commission wishes to allow the transfer of service credit into the Legislative Pension Plan, the commission should consider whether to apply this only prospectively or also retroactively.***

Proposed Change: Allow Military Service Credit to be claimed in the Legislative Pension Plan. No provision under the current resolution. The 2010 General Assembly Compensation Commission Resolution did propose a military service credit option. That resolution was rejected in its entirety by the General Assembly, which did not consider the individual provisions within the resolution. The specific language in the 2010 Resolution allowed for up to 3 years of military service credit once a member was vested and also precluded the purchase of service credit to become vested. The provision also generally referred to that provision of the State Personnel and Pensions Article governing military service credit in the State system and include a provision specifying that an individual may not receive credit for specified military service if the individual receives credit for military service from another retirement system for which retirement benefits have been or will be received by the individual.

Military Credit (Language proposed in the 2010 Resolution).

(a) Subject to the provisions of Title 38 of the State Personnel and Pensions Article, a member is entitled to receive service credit for military service only on the attainment of 8 years of creditable service in the Legislative Pension Plan.

(b) Military service credit under this section may not exceed 3 years.

(c) A member may not purchase any service credit to attain the 8 years of creditable service required under subsection (a) of this section.

If the commission wishes to allow military service credit to be claimed in the Legislative Pension Plan, the commission should consider whether to apply this only prospectively or also retroactively.

Advise the General Assembly on whether the commission has concerns with allowing legislative service to be counted toward the amount of service that is needed to claim military service credit in other systems. In order to claim military service credit in other systems, employees need 10 years of service credit. Senate Bill 598 of 2017 would have allowed service credit earned as a legislator to be counted toward the attainment of 10 years of service if a former legislator later sought that service credit as a member of another system through State employment. The General Assembly held this legislation during the 2017 session in order to ask for the commission's advice on this legislation.

Item 3B – Fringe Benefits – Retired Legislators

May participate in benefit programs available to retired State employees (*i.e.*, deferred compensation programs and credit union services).

Former legislators receiving a retirement allowance who have creditable service before January 14, 2015, qualify for State health insurance benefits and a subsidy equal to one-sixteenth of the full State subsidy for each year of service.

Former legislators receiving a retirement allowance who have no creditable service before January 14, 2015, qualify for State health insurance benefits and a subsidy equal to one-twentieth of the full State subsidy for each year of service.

Item 4 – Forfeiture of Benefits

An individual who is a member or retiree of the plan will forfeit all legislative retirement benefits in the plan if the individual is convicted of a crime committed during the individual's term of office and the crime is (1) a felony; or (2) a serious misdemeanor relating to the individual's public duties as a legislator. The convicted member or retiree is entitled to a return of employee contributions, plus interest, less any benefits already paid to a retiree. The benefits will be restored if the conviction is overturned.

Proposed Change: Align in part, or in whole, the forfeiture provision for legislators with recently enacted legislation for Constitutional Officers (provisions that go into effect after January 9, 2019). Key differences between the current forfeiture provision and that which will go into effect for constitutional officers include:

Qualifying Crime: Current resolution forfeits benefits for a member or retiree if convicted of, or entering plea of *nolo contendere* to, any crime committed during a member's terms of office that is a felony or misdemeanor related to public duties and responsibilities or a crime of moral turpitude for which the penalty could include incarceration. Under Constitutional Officers statute, qualifying **crime is limited to conviction of, pleading guilty to, or entering a plea of *nolo contendere* to a felony in the course of fulfilling duties and responsibilities, committed through authority derived from the position of employment, and is done in an attempt to result in gain, profit, or advantage to that individual.**

Forfeiture Amount: Under the current resolution, 100% of benefits are forfeited. Under Constitutional Officer statute **the amount to be forfeited is determined by an order of the Circuit Court (see process below) based on criteria including the severity of the crime; monetary loss suffered as a result of the crime; degree of public trust placed in the officer; financial needs and resources of that officer; and spouse, children, and other dependents or former spouse and any other factors the court deems relevant.**

Innocent Parties: Current resolution applies forfeiture provision to member/retiree and their beneficiary. Under Constitutional Officers statute the provision includes:

(1) the ability to allow a domestic relations order that provides some or all of the forfeited benefits to be paid to a spouse, former spouse, child, or other dependent based on a consideration of whether they were culpable or complicit in the commission of the qualifying crime; and

(2) that any existing domestic relations order is not adversely affected.

Process: Current resolution is silent on process leaving it to the discretion of the State Retirement Agency to implement. Under Constitutional Officers, there is a clear process that requires, **upon conviction, the Attorney General or State's Attorney to file a complaint in circuit court to instigate forfeiture, provides for notice requirements, requires the court to make an order for forfeiture based on certain provisions including the amount to be forfeited and any allowance for beneficiaries, and requires the pension system Board of Trustees to adopt regulations to implement the provisions providing additional clarity.**

Comparison of Proposed Changes to Legislative Pension Plan with the State Employees Plan

Current Resolution	Proposal	State Employees Plan	Cost Estimate
Age eligibility for death benefits for members with no creditable service prior to January 14, 2015, is 60 or actuarially reduced to 50	Align with other retirement age eligibility changes from 2014 to 62 or actuarially reduced to 55	No comparable provision	Potential savings
Age eligibility for minor children for death benefits of member serving in the General Assembly is 18	Increase eligibility to age 26 and allow disabled child to be eligible regardless of age	Eligible up to age 26 and disabled children are eligible regardless of age	Potential cost
Contemporaneous death provisions for minor children to receive death benefits	Remove contemporaneous death provisions and, instead, specify that if a legislator does not have a surviving spouse that the death benefit may be paid to children up to age 26 or disabled children regardless of age	No contemporaneous death provisions. If no surviving spouse, the death benefit may be paid to children up to age 26 or disabled children regardless of age	Likely neutral
No current provision	Allow the naming of a nonprofit organization as a beneficiary for a lump-sum death benefit	Allowed	Likely neutral
Allows the purchase of service credit up to that amount required to vest in the plan	Option 1. Disallow Option 2. Comply with Internal Revenue Service regulations	Not permitted	Potential savings (greater under Option 1 than Option 2)

Current Resolution	Proposal	State Employees Plan	Cost Estimate
	Option 3 (can combine with Options 1 or 2). Clarify when a purchaser of service credit is able to retire Option 4 (can combine with Options 2 and 3). Clarify that a purchaser of service credit cannot be an active member of the General Assembly		
Does not allow the transfer of service credit into the Legislative Pension Plan	Permit the transfer of service credit from another system into the Legislative Pension Plan	Does not allow the transfer of service credit into the Legislative Pension Plan but allows the transfers of service credit into most of the other plans in the system	Potential cost
Does not include any provision for credit for military service	Provide a credit for military service	Allows up to five years of service credit for military service	Potential cost
Forfeiture of benefits: Complete loss of benefits for member/retiree and beneficiaries based on conviction or plea of *nolo contendere* for felonies and misdemeanors related to public duties and responsibilities and certain crimes of moral turpitude	Align to recent legislation for forfeiture of benefits for constitutional officers that narrows the qualifying crime, allows for partial loss of benefits, allows for a benefit for innocent parties, and establishes a process for implementing forfeiture	No comparable provision	Potential cost

2018 State of the State Address
Governor Lawrence J. Hogan, Jr.

February 2, 2018

Mr. Speaker, Mr. President, Members of the General Assembly, distinguished guests, and my fellow Marylanders:

Three years ago, when I first had the honor of standing before this assembly to report on the state of our state, Maryland was at a critical turning point.

Our state economy was floundering and lagging behind the rest of the nation.

Maryland was losing businesses, jobs and taxpayers at an alarming rate.

Too many of our families and small businesses were struggling just to make ends meet.

The people of Maryland had become frustrated with politics as usual.

Our state was at a crossroads, and we faced a pivotal choice:

A choice between continuing in the same direction or putting Maryland on a new and better path.

And all of us had to make a choice between serving a political party or serving the people of Maryland.

One need only look to Washington to see the destruction that is caused when hyper-partisanship and inflammatory rhetoric permeate the debate and erode our faith in the institutions of government.

When I stood on the steps of this historic State House three years ago to give my inaugural address, I said that “The politics that have divided our nation need not divide our state.” And I warned against “Wedge politics and petty rhetoric used to belittle our adversaries and to inflame partisan divisions.”

I reminded Marylanders that our state was better than that.

Our history proved that we were better.

And for the past three years we have been.

We’ve worked hard to usher in a new spirit of bipartisanship in Annapolis, and to create an environment of trust and cooperation where the best ideas rise to the top based upon their merit, regardless of which side of the aisle they come from.

Time and again, we have chosen to engage in thoughtful and civil debate.

We have risen above the fray of partisan politics, and we have chosen to seek common sense bipartisan solutions to the serious problems that faced us.

We are living up to the great potential and promise of our state, and together, we are changing Maryland for the better.

Because of that, I am pleased to report that today the state of our state is stronger than it has been in decades, and we are forging an even stronger and brighter future for Maryland.

Through internal struggle and outward chaos, we have not faltered.

We have made progress with courage and with clarity of purpose, and our citizens are more pleased with the job that we are doing and the direction that we are heading than they have ever been before.

Together we have been doing what Marylanders do best: We are leading by our actions and by our example, and ladies and gentlemen, we cannot afford to turn back now.

Three years ago, our most pressing task was to grow the private sector, put more people to work, make Maryland more competitive, and to turn our economy around.

And that is exactly what we have done.

The day after I was sworn in, we submitted the first balanced budget in a decade, which eliminated nearly all of the $5.1 billion dollar structural deficit which we inherited.

We did it while cutting taxes three years in a row.

And we've put all that money back into the pockets of hardworking Marylanders, retirees, and small businesses and back into our growing economy, which has helped us create an incredible economic resurgence in our state.

Businesses are now returning to and expanding in Maryland once again.

We had the best year for business in Maryland in 15 years and the best year for job growth in a decade. We went from losing 100,000 jobs to gaining more than 110,000 jobs.

We've had the fastest job growth in the mid-Atlantic region and one of the strongest economic turnarounds in America.

Maryland truly is open for business.

We are fourth among all 50 states for entrepreneurial business growth. We have the second lowest percentage of people living below the poverty level in the nation, and we have the highest median household income in America.

On growing jobs and our state economy, Maryland is leading by action and by example, and we cannot afford to turn back now.

This year, let's work together to protect hardworking Marylanders from the impact that the federal tax overhaul will have on Maryland's state and local taxes.

We may not be able to control what they do in Washington, but we certainly can come together in Annapolis to ensure that this money remains in the pockets of Maryland citizens where it belongs.

And we can protect Marylanders from health insurance rate increases caused by the failures in Washington. Let's develop bipartisan solutions to stabilize rates.

Last year we worked together with you to enact the More Jobs for Marylanders Act, which has encouraged and incentivized manufacturers to create more jobs where we needed them the most.

And we worked together to enact the Hometown Heroes Act of 2017.

This year, let's work to pass the More Jobs for Marylanders Act 2.0 to expand the reach of this successful program to additional jurisdictions and to other business sectors.

Let's expand the Hometown Heroes Act to include our correctional officers, and this year, let's finally move forward on our bill to eliminate taxes on the retirement income of our military veterans.

We agree on providing paid sick leave to more Marylanders.

But let's put aside the politics and work together to fix this flawed legislation. Don't let a bad bill kill good small businesses and jobs.

Pass our proposal to provide tax incentives for our small businesses to help offset the costs of providing these benefits to their employees.

We don't want Annapolis to become like Washington, where bad policy is passed with a promise that a fix will come later.

This issue is much too important and the impact is too far-reaching for us to risk getting it wrong.

For three straight years we have delivered record investments in education.

This year, let's continue that historic trend and do it for the fourth straight year.

Our budget provides an unprecedented $6.5 billion for K-12 education, which is more than the legislative funding formulas call for.

We ensured that every single school system in Maryland will receive increased funding from the state.

Our capital budget invests an additional $365 million for school construction funding, the largest investment in school construction in a decade.

Fully 70 percent of our capital budget is dedicated to education.

Let's ensure that every single child in Maryland has access to a world-class education, regardless of what neighborhood they happen to grow up in.

Maryland is home to America's most educated workforce, with the highest concentration of doctoral scientists and engineers in the nation.

We are third in the nation for research and development intensity, second among all 50 states for concentration of STEM employment, and we were recently named the most innovative state in America.

On education, Maryland is leading by action and by example, and we cannot afford to turn back now.

Let's work together to pass the Protect Our Students Act of 2018, because the status quo is simply not good enough for Maryland's children.

Let's work together to make our schools more accountable by passing the Accountability in Education Act of 2018.

No child should have to pay the price for the mistakes of adults who have failed them.

This is too important to play politics. This is about our children and their futures. It's about giving every Maryland child opportunities and a hope for a better future.

When it comes to rebuilding Maryland's transportation infrastructure, we are moving forward with nearly all of the highest priority transportation projects in every single jurisdiction all across Maryland.

We are making record investments for innovative traffic relief with major improvements to the Baltimore Beltway, I-95, the Capital Beltway, Route 270, and the Baltimore-Washington Parkway.

We have nearly 1,000 projects totaling $9 billion currently under construction from one corner of the state to the other, and we have already repaved 8,000 lane-miles – more than one-third of the entire state highway system.

Construction of the long-anticipated Purple Line is underway, which represents the largest public-private transit project in the nation.

We have been breaking records at the Port of Baltimore for three straight years, and BWI Marshall has become the number one airport in the region and one of the most thriving airports in the nation.

On transportation infrastructure, Maryland is leading by action and by example, and we cannot afford to turn back now.

We have fully funded the Chesapeake and Atlantic Coastal Bays Trust Fund and Program Open Space.

We brought all the stakeholders together and hammered out a compromise phosphorus management solution that is one of the most significant initiatives to clean up the Bay in a generation.

As chairman of the six-state Chesapeake Executive Council, I have been leading the fight to protect and restore federal funding for the Bay, and our administration has committed $4 billion dollars toward wide-ranging initiatives to protect the Bay.

On its latest annual report card the Chesapeake Bay received its highest score in a quarter century.

We pushed for landmark legislation to cement our state's position as a national and international leader in combating greenhouse gas emissions.

We expanded the Climate Change Commission.

We enacted the Clean Water Commerce Act, the Clean Cars Act, and several other bills to protect our environment and to grow clean energy investment and green jobs.

And we enacted clean air standards which are stronger than 48 other states and nearly twice as strong as the Paris accord recommendations.

When it comes to safeguarding our environment, Maryland is leading by action and by example, and we cannot afford to turn back now.

Last year opioid-related deaths exceeded deaths from both firearms and motor vehicle fatalities combined.

Last March, we became the first state in the nation to declare a State of Emergency in response to this crisis.

We have committed half a billion dollars toward fighting the heroin and opioid epidemic and substance use disorders, with a four-pronged approach focused on education, prevention, treatment, and enforcement.

Yet this problem is continuing to destroy lives and tear apart families and communities in our state and all across America.

Two weeks ago, I got a letter from Karen Dolch, a mom from Salisbury.

She wrote about her son, Chad, a 4-year veteran of the United States Army who served a 15-month tour in Iraq.

When Chad returned home, he struggled with PTSD and addiction.

He went through some difficult times, but then Karen says he got clean and was turning his life around. I had the opportunity to meet Chad when I spoke at his graduation from welding school.

Karen sent a picture from that day of the three of us. I have it here with me today.

In her letter, Karen wrote that on December 17th, Chad tragically died at the age of 29 after overdosing on heroin that was mixed with morphine and fentanyl.

Chad's mom, Karen, is here with us today.

She wanted to honor Chad by showing us that, when we talk about this crisis, we are really talking about fighting for all the Chads and the Karens out there – for all the lives cut too short and all the families that will never be the same.

That's why no matter how hard it is, we cannot ever give up this fight.

We enacted tough anti-gang legislation, including a new Maryland RICO statute.

We formed a new Maryland Criminal Intelligence Network to assist police and prosecutors in going after and taking down the people who are responsible for so much of the violence in our state.

This year, let's crack down on those violent criminals who use guns to commit crimes by passing tougher minimum sentences.

And pass truth-in-sentencing legislation to require that repeat violent criminals serve their full sentences without the possibility of suspension, parole, or probation.

Let's strengthen Maryland's gang statutes and RICO law to help take down these drug dealing criminal gang enterprises.

Work with us to classify felony human trafficking as a violent crime and to finally pass the Repeat Sexual Predator Prevention Act.

And no rapist should be allowed to maintain parental rights and no victim should be forced to interact with her attacker. I commend you for finally passing the Rape Survivor Family Protection Act, and I will sign it into law the moment it reaches my desk.

This year, pass the Legislative Transparency Act of 2018 so that Maryland can join the 43 other states across America that require legislative deliberations to be livestreamed to the public.

And help us put the issue of term limits on the ballot this year for the people of Maryland to decide this issue for themselves in November.

And in order to uphold the public trust and to truly represent the interests of all the people we were elected to serve, let's put partisanship and self-interest aside and join together with the overwhelming majority of Marylanders to end the practice of partisan gerrymandering in Maryland.

Instead of becoming more like Washington, let's send a message to Washington by putting the politics aside and coming together for all Marylanders.

On that snowy day three years ago just after I took the oath of office I said, "To those who would drive us to the extremes of either party, let me remind you that Maryland has always been a state of middle temperament."

I asked that "we seek that middle ground where we can all stand together."

And ladies and gentlemen, over the past three years we have.

Together, we have put Maryland on a new and better path, and we cannot afford to turn back now.

Let's keep moving forward.

Let's continue changing Maryland for the better.

Thank you.

God bless you.

May God continue to bless the great State of Maryland.
