Department of Legislative Services

Maryland General Assembly
2000 Session

FISCAL NOTE

Bond Bills

The bills listed below authorize the issuance of general obligation bonds to provide grants to various recipients for the acquisition, planning, design, construction, expansion, repair, restoration, renovation, reconstruction, or capital equipping of various facilities.

Most bills require either a hard or soft match, as noted. Where no match is required the term "grant" is indicated. A hard match means the recipient provides a dollar for dollar match of the State funds and does not expend the matching funds until after the effective date of the authorizing act. A soft match is any other type of match. Soft matches include the use of the value of real property as the match; in kind contributions such as materials or construction services; or funds expended prior to the effective date of the bill. A match key is provided immediately below the list of projects.

The list below shows the bond bills introduced as of March 7, 2000. It is organized into four categories: private higher education projects, Maryland Hospital Association (MHA) projects, statewide bond bills, and local bond bills. Within each category the projects are sorted first by the county in which the project is located and then alphabetically by project title. Most projects have both a House and a Senate bill.

Fiscal Summary

State Effect: These grants would be part of the total general obligation debt authorization for FY 2001. The Capital Debt Affordability Committee recommended and the Governor has proposed a general obligation debt authorization of $460 million for FY 2001. State debt service costs on $460 million would be a maximum of $49.7 million annually based on a interest rate of 5.25%. The Spending Affordability Committee has recommended that debt authorizations for FY 2001 be limited to $445 million given the large general fund surplus

available for use in lieu of debt. State debt service costs on $445 million would be a maximum of $48.1 million annually based on an interest rate of 5.25%.

Local Effect: None.

Small Business Effect: Minimal.
