§4–111.3.

(a) Beginning in the 2018–2019 school year, each county board is encouraged to implement an agriculture science curriculum specified in subsection (b) of this section in:

(1) At least one public high school in the county; or

(2) At least one career and technology education center in the county.

(b) The agriculture science curriculum implemented under subsection (a) of this section shall be:

(1) Selected from existing curricula that have been developed by the Department; or

(2) Developed by a county board and approved by the Department.
