§7–10A–05.

The plan to implement the pilot program shall:

(1) Provide a useful educational medium for students in the pilot program;

(2) Be capable of being implemented at a reasonable cost;

(3) Encourage and develop students' familiarity with computer technology and train teachers to integrate such technology into their curriculum;

(4) Add to the increased performance of the students participating in the program; and

(5) Provide performance indicators that illustrate how teachers' familiarity with technology and teaching resources within the pilot program have increased.
