§13–4003.

(a) The purpose of the Program is to provide grants to local fire departments and volunteer fire companies and departments to procure innovative cancer screening tests that are not otherwise conducted during routine physical examinations or covered by insurance to professional firefighters employed by a local fire department and volunteer firefighters who serve in a volunteer fire company or department.

(b) The goal of the Program is to reduce cancer mortality among professional and volunteer firefighters while advancing the adoption of novel technologies that may also benefit the health of Marylanders and the economy of the State.
