Fiscal Analysis

State Revenues: Vending machine sales in Maryland totaled approximately \$317 million in fiscal 1992 (including newspapers). Based on an historic growth trend of 2%, taxable vending machine sales for fiscal 1997 are estimated at \$349.4 million. Sales tax revenue from this amount, net of the vendor discount, is \$17.26 million. Under this bill, the sales tax would be applied to 95.25% of vending machine receipts, for a net revenue of \$16.44 million. The difference is \$820,000.

The historic growth rate of 2% determines the out-year estimates.
