BOARD OF PUBLIC WORKS - CAPITAL APPROPRIATION

8 The General Assembly is concerned that the
9 Office for Individuals with Disabilities
10 (OID) continues to experience problems
11 securing the cooperation of the various
12 agencies and departments in their efforts
13 to assure that Access Maryland projects
14 are initiated and completed in a timely
15 manner. OID is requested to develop
16 additional policies and procedures to both
17 streamline the process and set a time
18 limit on the use of awarded funding. A
19 report should be submitted to the budget
20 committees by October 1, 2000 regarding
21 the new policies and procedures as well as
22 the progress made in improving the
23 process.

24 Approval of funding for a non state owned
25 capital project for which future State
26 funding is indicated in the Capital
27 Improvement Program does not imply
28 that the General Assembly has committed
29 to provide funding based on a percentage
30 of the project cost.

31 Capital projects comprising grants to local
32 governments in support of Smart Growth,
33 economic development or redevelopment,
34 and neighborhood revitalization should be
35 shown in the Division of Neighborhood
36 Revitalization within the Department of

27 MILITARY DEPARTMENT

28 It is the intent of the General Assembly that
29 all eligible veterans shall be honored for
30 their service to the State and their
31 country in accordance with Section 6 of
32 Article 65. Furthermore the General
33 Assembly intends to fully fund, at the
34 level necessary, the expenses associated
35 with the provision of this benefit to
36 eligible veterans in recognition of their
37 service and sacrifice to the State. The
38 General Assembly is concerned about the
39 lack of federal participation in these

1 military burial honors and urges the
 2 federal government to appropriate funds
 3 to cover the expense of honor guards.
 4 Should federal funds become available it
 5 is expected that the Military Department
 6 will use federal funds before using State
 7 general funds to cover these expenses.

4 DEPARTMENT OF TRANSPORTATION

5 The Maryland Department of
 6 Transportation shall not expend funds on
 7 any job or position of employment
 8 approved in this budget in excess of
 9 ~~9,200.5~~ ~~9,254.0~~ **9,205.5** positions and
 10 160.4 contractual full-time equivalents
 11 paid through special payments payroll
 12 (defined as the quotient of the sum of the
 13 hours worked by all such employees in the
 14 fiscal year divided by 2,080 hours) of the
 15 total authorized amount established in
 16 the budget for the Maryland Department
 17 of Transportation at any one time during
 18 fiscal 2001. The level of 160.4 contractual
 19 full-time equivalents may be exceeded
 20 only if the Maryland Department of
 21 Transportation notifies the budget
 22 committees of the need and justification
 23 for additional contractual personnel due
 24 to:

25 (1) business growth at the Port of
 26 Baltimore and Baltimore/Washington
 27 International Airport which demands
 28 additional personnel; or

29 (2) emergency needs which must be met
 30 (such as transit security or highway
 31 maintenance).

32 The secretary shall utilize the authority
 33 under the Transportation Article, Section
 34 2-101 and 2-102, to implement this
 35 provision. However, any authorized job or
 36 position to be filled above the ~~9,200.5~~
 37 ~~9,254.0~~ **9,205.5** permanent position
 38 ceiling approved by the Board of Public
 39 Works shall count against the Rule of 50.
 40 The establishment of new jobs or positions
 41 of employment not authorized in the fiscal
 42 2001 budget shall be subject to the State
 43 Finance and Procurement Article, Section
 44 7-236 and the Rule of 50.

1 Further provided that the Maryland
2 Department of Transportation may
3 create and fill an additional 47
4 authorized positions above the ceiling
5 of 9,205.5 which shall not count
6 against the rule of 50 if:

7 (1) Senate Bill 811 or House Bill 1248
8 amending the Mass Transit
9 Administration's (MTA) farebox
10 recovery requirement is enacted;
11 and

12 (2) The Maryland Department of
13 Transportation demonstrates to the
14 budget committees that the
15 positions are necessary to expand
16 MTA bus services consistent with
17 any farebox recovery legislation
18 enacted during the 2000 legislative
19 session, and the budget committees
20 have 45 days to review and
21 comment on the proposal.

22 It is the intent of the General Assembly that
23 funds dedicated to the Transportation
24 Trust Fund shall be applied to purposes
25 bearing direct relation to the State
26 transportation program, unless directed
27 otherwise by legislation. To implement
28 this intent for the Maryland Department
29 of Transportation in fiscal 2001, no
30 commitment of funds in excess of
31 \$250,000 may be made nor may such an
32 amount be transferred, by budget
33 amendment or otherwise, for any project
34 or purpose not normally arising in
35 connection with the ordinary ongoing
36 operation of the department and not
37 contemplated in the budget approved or
38 the last published Consolidated
39 Transportation Program without review
40 and comment by the budget committees.

41 It is the intent of the General Assembly that
42 projects and funding levels appropriated
43 for capital projects, as well as total
44 estimated project costs within the
45 Consolidated Transportation Program

1 (CTP), shall be expended in accordance
2 with the plan approved during the
3 legislative session. In the event the
4 department modifies the program to:

5 (1) Add a new project to the construction
6 program or development and
7 evaluation program meeting the
8 definition of "major project" under
9 Section 2-103.1 of the Transportation
10 Article, which was never previously
11 contained within a plan reviewed in a
12 prior year by the General Assembly and
13 will result in the need to expend funds
14 in the current budget year; or

15 (2) Change the scope of a project in the
16 construction program or development
17 and evaluation program meeting the
18 definition of "major project" under
19 Section 2-103.1 of the Transportation
20 Article, which will result in an increase
21 of more than 10 percent or \$1,000,000,
22 whichever is greater, in the total
23 project cost as reviewed by the General
24 Assembly during a prior session, the
25 department shall prepare a report to
26 notify the budget committees of the
27 proposed changes. For each change, the
28 report shall identify the project title,
29 justification for adding the new project
30 or modifying the scope of the existing
31 project, current year funding levels,
32 and the total project cost estimate as
33 approved by the General Assembly
34 during the prior session compared with
35 the proposed current year funding and
36 total project cost estimate resulting
37 from the project addition or change in
38 scope.

39 Notification of changes in scope shall be
40 made to the General Assembly concurrent
41 with the submission of the draft and final
42 CTP. Notification of new construction
43 project additions, as outlined in
44 paragraph (1) above, shall be made to the
45 General Assembly prior to the
46 expenditure of funds or the submission of

1 any contract for approval to the Board of
2 Public Works.

3 Further provided that it is the intent of the
4 General Assembly that the Maryland
5 Department of Transportation (MDOT)
6 support bicycle transportation on State
7 highways and transit systems. MDOT
8 shall include bicycle ways in new
9 non limited access State highway
10 construction projects and continue to
11 support programs providing bicycle ways
12 along the State's existing highway
13 infrastructure, where practicable. The
14 department shall implement programs
15 supporting bicycle traffic in the Mass
16 Transit Administration and Washington
17 Metropolitan Area Transit Authority
18 transit systems, such as the availability of
19 bicycle racks at transit stations. MDOT
20 must develop an action plan to implement
21 policies and programs supporting bicycle
22 traffic and report to the budget
23 committees on its plan by October 1, 2000.
24 This plan should develop outcome
25 measures to examine how effectively it is
26 being implemented. MDOT should also
27 identify funding supporting the bicycle
28 traffic in the Consolidated Transportation
29 Program.

30 Consolidated Transportation Bonds may be
31 issued in any amount provided that the
32 aggregate outstanding and unpaid
33 principal balance of these bonds and
34 bonds of prior issues shall not exceed
35 \$823,000,000 as of June 30, 2001.
36 Provided, however, that in addition to the
37 limit established under this provision, the
38 department may increase its debt
39 outstanding by not more than \$15,000,000
40 so long as (1) notice stating the specific
41 reason for the additional debt
42 requirement is provided to the budget
43 committees and (2) the budget committees
44 have 45 days to review and comment on
45 the proposal before publication of a
46 preliminary official statement including
47 the debt.

7 MK02.02 Addictions Treatment Services

8 It is the intent of the General Assembly that
 9 the Judiciary, the Department of Human
 10 Resources (DHR), and the Department of
 11 Health and Mental Hygiene (DHMH)
 12 collaborate to improve the implementation
 13 of the pilot program established by
 14 Chapter 367, Acts of 1997, to secure a
 15 proper home environment for
 16 drug-addicted babies. To foster
 17 improvement:

18 (1) Workshops shall be conducted for
 19 judges in the jurisdictions with pilot
 20 programs regarding both Chapter 367,
 21 Acts of 1997, and the General
 22 Assembly's finding that older children
 23 are more difficult to place in an
 24 adoptive home;

25 (2) The Department of Health and Mental
 26 Hygiene shall ensure appropriate
 27 treatment is available on demand for
 28 women giving birth to drug-exposed
 29 infants; and

30 (3) DHR and DHMH shall seek to improve
 31 the utilization of treatment.
 32 Improvements shall include increasing
 33 referral and completion rates for
 34 appropriate treatment.

35 By July 1, 2000, DHMH, DHR, and the
 36 Judiciary shall submit to the budget
 37 committees a plan for improving the
 38 utilization of treatment, guaranteeing
 39 appropriate substance abuse treatment is
 40 available on demand, and educating
 41 judges on Chapter 367, Acts of 1997, and

1 the General Assembly's finding concerning
 2 adoption. By December 1, 2000, DHMH,
 3 DHR, and the Judiciary shall submit a
 4 report to the budget committees on the
 5 effectiveness of the pilot program. The
 6 report shall include data on: the number of
 7 women served through the pilot program;
 8 the number of women entering treatment;
 9 the number of women completing
 10 treatment; the number of Child in Need of
 11 Assistance petitions filed; the number of
 12 children removed from their home; and the
 13 reasons children were not removed when
 14 their mothers refused or failed to complete
 15 substance abuse treatment.

16 General Fund Appropriation, provided that
 17 \$1,000,000 of this appropriation may only
 18 be expended to purchase substance abuse
 19 treatment slots in advance for Temporary
 20 Cash Assistance applicants and
 21 recipients. To the extent feasible, the
 22 funds should be used to encourage the
 23 development of new treatment slots
 24 rather than the setting aside of existing
 25 treatment slots for Temporary Cash
 26 Assistance applicants and recipients.
 27 Further provided that priority for
 28 treatment purchased with \$3,000,000 of
 29 this appropriation be given to mothers of
 30 drug exposed infants and Temporary
 31 Cash Assistance applicants and
 32 recipients.....

33 ~~January 1, 2001 to the budget committees~~
34 ~~on increasing the wages of direct service~~
35 ~~workers, given that State employees with~~
36 ~~comparable duties have higher wages.~~
37 ~~The department shall use the research~~
38 ~~conducted by the Community Services~~

1 Reimbursement Rate Commission in the
2 development of the plan, provided that
3 the department submits a plan by
4 August 1, 2000, on increasing the
5 salaries and benefits of direct service
6 workers, given that direct service
7 workers employed by
8 community-based providers do not
9 receive the same level of salaries and
10 benefits as State employees with
11 comparable training and
12 responsibilities. These direct service
13 workers are essential since they have
14 the most direct contact with clients.
15 With an enhanced salary and benefits
16 package, community-based providers
17 would be able to improve the
18 recruitment and retention of direct
19 service workers, leading to a higher
20 quality of services. Therefore, the

22 includes the following items related to
23 the salary and benefits packages of
24 direct service workers employed by
25 community-based providers in the

5 Supplemental Pool recommended by
6 the Federally Qualified Health Center
7 Viability Committee by adjusting total
8 HealthChoice funds prior to setting
9 specific managed care rates for
10 calendar 2001.

11 Provided that the Department of Health
12 and Mental Hygiene (DHMH),
13 effective July 1, 2000, report quarterly
14 to the budget committees on the status
15 of the fiscal 2001 appropriation for
16 the Medical Care Provider
17 Reimbursements, any anticipated
18 deficiency appropriation that may be
19 required, and the policy decisions
20 that may impact the budget and the
21 provider community. It is the intent of
22 the General Assembly to closely
23 monitor this budget. The General
24 Assembly recognizes that numerous
25 policy decisions will be necessary over
26 the course of the fiscal year that may
27 create a programmatic deficit.

28 Further provided that DHMH will
29 report to the House Environmental
30 Matters Committee, the House
31 Appropriations Committee, the Senate
32 Finance Committee, and the Senate
33 Budget and Taxation Committee prior
34 to the submission of regulations on
35 the encounter data-driven calendar
36 2001 HealthChoice rates. The General
37 Assembly is concerned that the
38 HealthChoice rate setting will be
39 determined by the status of the fiscal
40 2001 Medicaid budget. It is the intent
41 of the General Assembly that the
42 HealthChoice Managed Care
43 Organization (MCO) rate process be
44 data driven. Issues of concern which
45 should be addressed in the report are:
46 (1) an annual, actuarial adjusted
47 trend factor, (2) regional adjustments,

1 (3) an outdated fiscal 1997
2 fee-for-service (FFS) base, (4)
3 carve-outs, (5) the use and impact of a
4 new ACG Grouper, (6) the level of
5 managed care savings, (7) substance
6 abuse, (8) HIV rates, (9) the cost of
7 newborns and deliveries, and (10) the
8 FFS provider reimbursement levels.

9 General Fund Appropriation, provided that
10 no part of this general fund appropriation
11 may be paid to any physician or surgeon
12 or any hospital, clinic, or other medical
13 facility for or in connection with the
14 performance of any abortion, except upon
15 certification by a physician or surgeon,
16 based upon his or her professional
17 judgment that the procedure is necessary,
18 provided one of the following conditions
19 exists: where continuation of the
20 pregnancy is likely to result in the death
21 of the woman; or where the woman is a
22 victim of rape, sexual offense, or incest
23 which has been reported to a law
24 enforcement agency or a public health or
25 social agency; or where it can be
26 ascertained by the physician with a
27 reasonable degree of medical certainty
28 that the fetus is affected by genetic defect
29 or serious deformity or abnormality; or
30 where it can be ascertained by the
31 physician with a reasonable degree of
32 medical certainty that termination of
33 pregnancy is medically necessary because
34 there is substantial risk that continuation
35 of the pregnancy could have a serious and
36 adverse effect on the woman's present or
37 future physical health; or before an
38 abortion can be performed on the grounds
39 of mental health there must be
40 certification in writing by the physician or
41 surgeon that in his or her professional
42 judgment there exists medical evidence
43 that continuation of the pregnancy is
44 creating a serious effect on the woman's
45 present mental health and if carried to
46 term there is a substantial risk of a

12 All appropriations provided for the program
 13 -- MQ01.03 are to be used only for the
 14 purposes herein appropriated, and there
 15 shall be no budgetary transfer to any
 16 other program or purpose, except that
 17 general funds may be transferred to the
 18 Subcabinet Fund for the purpose of
 19 assisting local management boards in
 20 returning or diverting children from
 21 out-of-state placements. It is the intent of
 22 the General Assembly that funds travel
 23 with each child returned or diverted from
 24 a Medicaid-funded out-of-state
 25 placement in fiscal 2000 and 2001. Funds
 26 transferred should be equivalent to the
 27 number of days of in-state care provided
 28 to each child returned or diverted from a
 29 Medicaid-funded out-of-state placement
 30 by local management boards during fiscal
 31 2001 multiplied by the average per diem
 32 general fund Medical Assistance cost of
 33 maintaining the child in an out-of-state
 34 placement. Funds should not be
 35 transferred if the in-state placement still
 36 qualifies for federal Medical Assistance
 37 funding, with the exception of any general
 38 fund savings generated by returning the
 39 child to an in-state placement. To the
 40 extent that Medicaid funds for children
 41 placed out of state are included in the
 42 Mental Hygiene Administration, those
 43 funds, rather than Medical Care
 44 Programs Administration funds, should
 45 be transferred to the Subcabinet Fund
 46 when a child is returned from out of state.

47 Further, it is the intent of the General

1 Assembly that the Medical Care Provider
 2 Reimbursements budget be expended in
 3 accordance with the budget detail
 4 presented to and approved by the General
 5 Assembly. Should the department wish to
 6 make a regulatory, policy, or procedural
 7 change which has an increase or decrease
 8 greater than \$300,000 on the program's
 9 budget, whether or not the increase or
 10 decrease is offset in whole or in part by
 11 other action, it shall inform the budget
 12 committees of the change and the
 13 committees shall have 45 days to review
 14 and consider it before it becomes effective.

15 Funds are appropriated in the Departments

FAMILY INVESTMENT ADMINISTRATION

The Department of Human Resources shall implement its plan to reallocate Family Investment Program positions through attrition among the local departments of social services to address inequities identified in a December 1999 report from the University of Baltimore's Schaefer Center. No child welfare casework positions shall be reallocated. If attrition is not sufficient to allow for the reallocation of staff, the Department of Human Resources is authorized to add additional positions through a budget amendment. The Department of Human Resources shall submit a report to the budget committees by July 1, 2000 on how the plan is being implemented.

The Department of Human Resources shall reallocate through attrition 103 of the 138 Family Investment Program positions identified for redistribution among local departments of social services in a December 1999 report from the University of Baltimore's Schaefer Center. The Department of Human Resources may not fill or reallocate the remaining 35 positions once they become vacant until:

(1) the budget committees receive a plan from the department outlining how the positions will be allocated to local departments of social services based on the need to provide intensive services to long term Temporary Cash Assistance recipients; and

1 ~~(2) the budget committees have 45 days to~~
 2 ~~review and comment on the report.~~

3 Further provided that \$1,500,000 of the
 4 federal fund appropriation for NI00.04
 5 may only be expended to create positions
 6 which will be allocated to the Baltimore
 7 City Department of Social Services.

8 The Department of Human Resources
 9 shall proportionately reallocate
 10 through attrition 103 of the 138
 11 Family Investment Program positions
 12 identified for redistribution among
 13 local departments of social services in
 14 a December 1999 report from the
 15 University of Baltimore's Schaefer
 16 Center. The Department of Human
 17 Resources may not reallocate the
 18 remaining 35 positions during fiscal
 19 2001.

20 Further provided that \$1,200,000 of the
 21 federal fund appropriation for
 22 NI00.04 may only be expended to
 23 create positions in local departments
 24 of social services which do not receive
 25 the full complement of positions

STATE DEPARTMENT OF EDUCATION
HEADQUARTERS

The Maryland State Department of Education shall not expend funds on any job or position of employment in this budget in excess of 1,355.9 positions and 158.76 contractual full-time equivalents paid through special payments payroll (defined as the quotient of the sum of the hours worked by all such employees in the fiscal year divided by 2,080 hours) of the total authorized amount established in the budget for the Maryland State Department of Education at any one time during fiscal 2001. The level of 158.76 contractual full-time equivalents may be exceeded only if the Maryland State Department of Education notifies the budget committees of the need and justification for additional contractual personnel and the committees' review and comment upon the request or the passage of 45 days from the date of receipt of the request.

The State Superintendent of Schools shall utilize the authority under the Education Article, Section 2-103, to implement this provision. However, any authorized job or position to be filled above the 1,355.9 position ceiling approved by the Board of Public Works shall count against the Rule of 50 imposed by the General Assembly. The establishment of new jobs or positions of employment not authorized in the fiscal 2001 budget shall be subject to the State Finance and Procurement Article, Section 7-236 and the Rule of 50.

5 departments, boards, commissions, officers, schools and institutions by monthly,
6 quarterly or seasonal periods and by objects of expense and may place any funds
7 appropriated but not allotted in contingency reserve available for subsequent
8 allotment. Upon the Secretary's own initiative or upon the request of the head of any
9 State agency, the Secretary may authorize a change in the amount of funds so
10 allotted.

11 The Secretary shall, before the beginning of the fiscal year, file with the

26 any time during the fiscal year the Secretary may amend the number and classes of
27 positions or person years of employment previously fixed by the Secretary; the
28 Secretary may delegate all or part of this authority. The governing boards of public
29 institutions of higher education shall have the authority to transfer positions between

 14 Special Fund Appropriation 8,980,696
 15 Federal Fund Appropriation 5,190,415

16 SECTION 20 . AND BE IT FURTHER ENACTED, That whenever the Joint
 17 Audit Committee, through its review and evaluation process of audit reports issued
 18 by the Legislative Auditor, and after consultation with the Legislative Auditor,
 19 determines, based upon exceptions contained in the audit reports, that a particular
 20 agency (to include department, administration, division, bureau, board, or
 21 commission) does not adequately comply with State laws, rules and regulations
 22 regarding the agency's fiscal and accounting record and procedures and/or fiscal
 23 administration activities, that the committee may recommend to the Governor that
 24 the Comptroller withhold up to 25% of the salary of the secretary of the department
 25 and/or of the State official deemed responsible. The amount to be withheld, the
 26 duration of such withholding, and the date of release of any amount withheld shall be
 27 recommended by the committee after consultation with the Legislative Auditor,
 28 including any recommendations that the Legislative Auditor deems appropriate. The
 29 Governor shall advise the committee as to the decision regarding the committee's
 30 recommendations. If the Governor directs that the salary of the head of the agency
 31 and/or salary of the secretary of the department and/or salary of the State official
 32 deemed responsible be withheld, the Governor may recommend the date on which the
 33 salary shall be restored to the full amount as provided in the budget and the amount
 34 withheld to be paid. The committee shall consider the recommendations of the
 35 Governor and advise the Governor as to its decision whether or not to allow the salary
 36 to be restored to the full amount as provided in the budget and the amount withheld
 37 to be paid.

38 SECTION 21 . AND BE IT FURTHER ENACTED, That the Board of Public
 39 Works, in exercising its authority to create additional positions pursuant to Section

1 7-236 of the State Finance and Procurement Article, may authorize during the fiscal
2 year no more than 50 positions in excess of the total number of authorized State
3 positions on July 1, 2000, as determined by the Secretary of Budget and Management.
4 Provided, however, that if the imposition of this ceiling causes undue hardship in any
5 department, agency, board, or commission, additional positions may be created for
6 that affected unit to the extent that positions authorized by the General Assembly for
7 the fiscal year are abolished in that unit or in other units of State government. It is
8 further provided that the limit of 50 does not apply to any position that may be
9 created in conformance with specific manpower statutes that may be enacted by the
10 State or federal government nor to any positions created to implement block grant
11 actions or to implement a program reflecting fundamental changes in federal/State
12 relationships. Notwithstanding anything contained in this section, the Board of
13 Public Works may authorize additional temporary positions to meet public
14 emergencies resulting from an act of God and violent acts of men, which are necessary
15 to protect the health and safety of the people of Maryland.

16 In addition to any positions created within the limitation of 50 under this
17 section, the Board of Public Works may authorize the creation of 250 positions within
18 the executive branch provided that 1.25 full-time contract positions or the equivalent
19 are abolished for each permanent position authorized and that there be no increase in
20 agency funds in the current budget and the next two subsequent budgets as the result
21 of this action. The Secretary of Budget and Management shall prepare a report for the
22 budget committees upon creation of these positions detailing where permanent
23 positions have been abolished. It is the intent of the General Assembly that priority be
24 given to converting individuals that have been in a contract position for at least two
25 years.

26 In addition to any positions created within the limitation of 50 under this
27 section, the Board of Public Works may authorize the creation of no more than 150
28 positions within the Department of Human Resources to provide services purchased
29 by Local Management Boards through contracts with local departments of social
30 services. If a Local Management Board terminates a contract with a local department
31 of social services during the fiscal year, all the positions created by the Board of Public
32 Works to provide services under the terms of that contract shall be abolished.

33 In addition to any positions created within the limitation of 50 under this
34 section, the Board of Public Works may authorize the creation of positions within the
35 Department of Human Resources to provide services funded by grants from sources
36 other than Local Management Boards. If any grant entity terminates a grant award
37 with a local department of social services or other unit during the fiscal year, all
38 positions created by the Board of Public Works to provide services under the terms of
39 the grant award shall be abolished. The employee contracts for these positions shall
40 explicitly state that the positions are abolished at the termination of the grant award.
41 General funds, special funds, or any other State funds shall not be used to pay any of
42 the salaries or benefits for these positions. Furthermore, the Department of Human
43 Resources must provide a summary to the budget committees by December 1 of each
44 year on the number of positions created under this section.

1 SECTION 22 . AND BE IT FURTHER ENACTED, That it is the intent of the
2 General Assembly that all State departments, agencies, bureaus, commissions,
3 boards, and other organizational units included in the State budget, including the
4 Judiciary, shall prepare and submit items for the fiscal 2002 budget detailed by
5 "Statewide Subobject" classification in accordance with instructions promulgated by
6 the Comptroller of the Treasury. The presentation of budget data in the State budget
7 book shall include object, fund, and personnel data in the manner provided for fiscal
8 2001 except as indicated elsewhere in this Act; however, this shall not preclude the
9 placement of additional information into the budget book. For fiscal 2002, the budget
10 detail shall be available from the Department of Budget and Management's
11 automated data system at the subobject level by statewide subobject codes and
12 classifications for all agencies and shall include information concerning executive
13 changes to the budget request. To the extent possible, except for public higher
14 education institutions, subobject expenditures shall be designated by fund. The
15 agencies shall exercise due diligence in reporting these data and ensuring
16 correspondence between reported position and expenditure data for the actual,
17 current, and budget fiscal years. These data shall be made available upon request and
18 in a format subject to the concurrence of the Department of Legislative Services.
19 Further, the expenditure of appropriations shall be reported and accounted for by the
20 subobject classification in accordance with the instructions promulgated by the
21 Comptroller of the Treasury.

22 Further provided due diligence shall be taken to accurately report full-time
23 equivalent position counts of contractual positions in the budget books. For the
24 purpose of this count, contractual positions are defined as those individuals having an
25 employee-employer relationship with the State. This count should include those
26 individuals in higher education institutions who meet this definition but are paid
27 with additional assistance funds.

28 SECTION 23 . AND BE IT FURTHER ENACTED, That for fiscal 2002, capital
29 funds shall be budgeted in separate appropriation level programs. Furthermore, the
30 budget detail for fiscal 2000 and 2001 submitted with the fiscal 2002 budget shall be
31 organized in the same fashion to allow comparison between years.

32 SECTION 24 . AND BE IT FURTHER ENACTED, That the executive budget
33 books should include a forecast of the impact of the executive budget proposal on the
34 long-term fiscal condition of general fund, Transportation Trust Fund, and higher
35 education current unrestricted fund accounts. This forecast should estimate
36 aggregate revenues, expenditures and fund balances in each account for the fiscal
37 year last completed, the current year, the budget year, and four years thereafter.
38 Expenditures should be reported at such agency, program or unit levels or categories
39 as may be determined appropriate after consultation with the Department of
40 Legislative Services. A statement of major assumptions underlying the forecast shall
41 also be provided, including but not limited to general salary increases, inflation, and
42 growth of caseloads in significant program areas.

43 SECTION 25 . AND BE IT FURTHER ENACTED, That immediately following
44 the close of fiscal 2000, the Secretary of Budget and Management shall determine the
45 total number of full-time equivalent positions that are authorized as of the last day of

1 fiscal 2000 and on the first day of fiscal 2001. Authorized positions shall include all
2 positions authorized by the General Assembly in the personnel detail of the budgets
3 for fiscal 2000 and 2001 including non-budgetary programs, the Mass Transit
4 Administration, the University System of Maryland self-supported activities, and the
5 State Use Industries.

6 SECTION 26 . AND BE IT FURTHER ENACTED, That executive budget books
7 shall include a summary statement of federal revenues by major federal program
8 source supporting the federal appropriations made therein along with the major
9 assumptions underpinning the federal fund estimates. The Department of Budget
10 and Management shall exercise due diligence in reporting these data and ensure that
11 they are updated as appropriate to reflect ongoing Congressional action on the federal
12 budget. In addition, the Department of Budget and Management shall provide to the
13 Department of Legislative Services data for the actual, current, and budget years
14 listing the components of each federal fund appropriation by Catalogue of Federal
15 Domestic Assistance number or equivalent detail for programs not in the catalogue.
16 Data shall be provided in an electronic format subject to the concurrence of the
17 Department of Legislative Services.

18 SECTION 27 . AND BE IT FURTHER ENACTED, That the Department of
19 Budget and Management shall provide an annual report on indirect costs to the Joint
20 Audit Committee. The report should assess available information on the timeliness,
21 completeness, and deposit history of indirect cost recoveries by State agencies.

22 SECTION 28 . AND BE IT FURTHER ENACTED, That:

23 (1) The Secretary of Health and Mental Hygiene shall maintain the
24 accounting systems necessary to determine the extent to which funds appropriated
25 for fiscal 2000 in program MQ01.03 Medical Care Provider Reimbursements have
26 been disbursed for services provided in that fiscal year and shall prepare and submit
27 the periodic reports required under this section for that program.

28 (2) The State Superintendent of Schools shall maintain the accounting
29 systems necessary to determine the extent to which funds appropriated for fiscal 2000
30 to program RA02.07 Students With Disabilities for Non-Public Placements have been
31 disbursed for service provided in that fiscal year and to prepare periodic reports as
32 required under this section for that program.

33 (3) For the programs specified, reports shall indicate total
34 appropriations for fiscal 2000 and total disbursements for services provided during
35 that fiscal year up through the last day of the second month preceding the date on
36 which the report is to be submitted and a comparison to data applicable to those
37 periods in the preceding fiscal year.

38 (4) Reports shall be submitted to the budget committees, the
39 Department of Legislative Services, the Department of Budget and Management, and
40 the Comptroller on November 1, 2000, March 1, 2001, and June 1, 2001.

41 (5) It is the intent of the General Assembly that general funds
42 appropriated for fiscal 2000 to the programs specified which have not been disbursed

1 within a reasonable period, not to exceed 12 months from the end of the fiscal year,
2 shall revert.

3 SECTION 29 . AND BE IT FURTHER ENACTED, That any budget amendment
4 to increase the total amount of special, federal, or higher education (current restricted
5 and current unrestricted) fund appropriations made in Section 1 shall be subject to
6 the following restrictions:

7 (1) Budget amendments increasing total appropriations in any fund
8 account by \$100,000 or more may not be approved by the Governor until (a) that
9 amendment has been submitted to the Department of Legislative Services and (b) the
10 budget committees or the Legislative Policy Committee have considered the
11 amendment or 45 days have elapsed from the date of submission of the amendment.
12 Each amendment submitted to the Department of Legislative Services shall include a
13 statement of the amount, sources of funds and purposes of the amendment, and a
14 summary of impact on budgeted or contractual position and payroll requirements.

15 (2) Unless permitted by the budget bill or the accompanying supporting
16 documentation or by other authorizing legislation, and notwithstanding the
17 provisions of Section 3-216 of the Transportation Article, a budget amendment may
18 not:

19 (a) restore funds for items or purposes specifically denied by the
20 General Assembly;

21 (b) fund a capital project not authorized by the General Assembly
22 provided, however, that subject to provisions of the Transportation Article, projects of
23 the Maryland Department of Transportation shall be restricted as provided in Section
24 1;

25 (c) increase the scope of a capital project by an amount 7.5% or
26 more over the approved estimate or 5% or more over the net square footage of the
27 approved project until the amendment has been submitted to the Department of
28 Legislative Services and the budget committees have considered and offered comment
29 to the Governor or 45 days have elapsed from the date of submission of the
30 amendment. This provision does not apply to the Maryland Department of
31 Transportation.

32 (3) A budget may not be amended to increase a federal fund
33 appropriation by \$100,000 or more unless documentation evidencing the increase in
34 funds is provided with the amendment and fund availability is certified by the
35 Secretary of Budget and Management.

36 (4) No expenditure or contractual obligation of funds authorized by a
37 proposed budget amendment may be made prior to approval of that amendment by
38 the Governor.

39 (5) Notwithstanding the provisions of this section, any federal, special,
40 or higher education fund appropriation may be increased by budget amendment upon
41 a declaration by the Board of Public Works that the amendment is essential to

1 maintaining public safety, health or welfare, including protecting the environment or
2 economic welfare of the State.

3 (6) This section shall not apply to budget amendments for the sole
4 purpose of appropriating funds available as a result of the award of federal disaster
5 assistance.

6 (7) This section shall not apply to budget amendments for the sole
7 purpose of transferring funds from the State Reserve Fund - Economic Development
8 Opportunities Fund for projects approved by the Legislative Policy Committee.

9 (8) This section shall not apply to budget amendments for the sole
10 purpose of appropriating funds for Information Technology Investment Fund projects
11 approved by the budget committees.

12 SECTION 30 . AND BE IT FURTHER ENACTED, That pursuant to any action
13 by the federal government to provide State aid in the form of block grants, the
14 Governor shall provide the General Assembly with 30 days, for each agency affected,
15 to review and comment on any plans to accept federal funds as block grants.

16 SECTION 31 . AND BE IT FURTHER ENACTED, That funds appropriated by
17 this bill for cost-of-living adjustments for members of each of the nine collective
18 bargaining units may not be expended until the conclusion of the negotiating session
19 and the ratification of the memorandum of understanding by a majority of the votes
20 cast by the employees of that bargaining unit.

21 SECTION 32 . AND BE IT FURTHER ENACTED, That any agreements
22 between State agencies and any public higher education institution involving an
23 expenditure of more than \$100,000 shall be published in the Maryland Register and
24 reported to the budget committees.

25 SECTION 33 . AND BE IT FURTHER ENACTED, That in the expenditure of
26 federal funds appropriated in this budget or subsequent to the enactment of this
27 budget by the budget amendment process:

28 (1) State agencies shall administer these federal funds in a manner that
29 recognizes that federal funds are taxpayer dollars that require prudent fiscal
30 management, careful application to the purposes for which they are directed, and
31 strict attention to budgetary and accounting procedures established for the
32 administration of all public funds.

33 (2) For fiscal 2001, except with respect to capital appropriations, to the
34 extent consistent with federal requirements:

35 (i) when expenditures or encumbrances may be charged to either
36 State or federal fund sources, federal funds shall be charged before State funds are
37 charged; this policy does not apply to the Department of Human Resources with
38 respect to federal funds to be carried forward into future years for child care, child
39 welfare, or welfare reform activities or to the Department of Health and Mental
40 Hygiene with respect to funds to be carried forward into future years for the purpose

1 of reducing the waiting list for community services for individuals with
2 developmental disabilities, or with respect to funds to be carried forward into future
3 years for HIV/AIDS-related activities;

4 (ii) when additional federal funds are sought or otherwise become
5 available in the course of the fiscal year, agencies shall consider, in consultation with
6 the Department of Budget and Management, whether opportunities exist to use these
7 federal revenues to support existing operations rather than to expand programs or
8 establish new ones; and

9 (iii) the Department of Budget and Management shall take
10 appropriate actions to effectively establish these as policies of the State with respect
11 to administration of federal funds by executive agencies.

12 SECTION 34 . AND BE IT FURTHER ENACTED, That the Department of
13 Budget and Management and the Department of Human Resources shall jointly
14 submit a budget amendment to reconcile the accounts of the Department of Human
15 Resources with the closeout of fiscal year 2000, to the budget committees by
16 November 1, 2000. Further provided that the budget committees shall have 45 days to
17 review and comment upon the budget amendment.

18 SECTION 35 . AND BE IT FURTHER ENACTED, That it is the intent of the
19 General Assembly that, in the budget submitted at the 2001 session, funds may be
20 expended to implement provisions of collective bargaining agreements invoked under
21 Executive Order 01.01.1996.13 or legislation enacted at the 2000 session only to the
22 extent that:

23 (1) the direct and indirect cost of implementing the provisions, including
24 the cost of additional employee compensation and fringe benefits developed in
25 consultation with unit representatives, is expressly identified in the budget bill in a
26 format similar to that used for the 2000 session; and

27 (2) the amount indicated is approved by the General Assembly through
28 its actions on the budget bill.

29 SECTION 36 . AND BE IT FURTHER ENACTED, That the Department of
30 General Services (DGS), in consultation with the Maryland Energy Administration
31 (MEA), shall provide a report by November 1 of each year describing the State's
32 efforts to coordinate the purchase of electricity for all State agencies, including
33 institutions of higher education. The report should include (1) the strategies that will
34 be used to purchase the best electric service at the lowest cost; and (2) the efforts that
35 DGS and MEA will employ to annually evaluate whether State agencies are
36 continuing to receive the best electric service at the lowest cost. No State agency shall
37 purchase electricity in the State's competitive electric utility market until the budget
38 committees have had 45 days to review and comment on this report. The University of
39 Maryland, College Park Energy Project, which has entered into a 20 year contract for
40 generation of electricity, shall be exempt from the DGS report and competitive
41 purchase requirements.

1 ~~SECTION 36 . AND BE IT FURTHER ENACTED, That the Department of~~
2 ~~General Services (DGS), in consultation with the Maryland Energy Administration~~
3 ~~(MEA), shall provide a report by November 1 of each year to the budget committees~~
4 ~~describing the State's efforts to coordinate the purchase of electricity for all State~~
5 ~~agencies, including institutions of higher education. The report should include (1) the~~
6 ~~strategies that will be used to purchase the best electric service at the lowest cost; and~~
7 ~~(2) the efforts that DGS and MEA will employ to annually evaluate whether State~~
8 ~~agencies are continuing to receive the best electric service at the lowest cost. No State~~
9 ~~agency shall purchase electricity in the State's competitive electric utility market until~~
10 ~~DGS and MEA can ensure that that purchase is consistent with DGS and MEA's~~
11 ~~strategy for purchase. The University of Maryland, College Park Energy Project, which~~
12 ~~has entered into a 20-year contract for generation of electricity, shall be exempt from~~
13 ~~the DGS report and competitive purchase requirements.~~

14 ~~SECTION 37 . AND BE IT FURTHER ENACTED, That it is the intent of the~~
15 ~~General Assembly to work toward improving the effectiveness of substance abuse~~
16 ~~treatment in the State of Maryland. The system is complex because of the~~
17 ~~involvement of many State agencies and private organizations. To improve the~~
18 ~~system, the General Assembly needs more information on how the current treatment~~
19 ~~system is structured. Therefore, the Subcabinet and the Cabinet Council on Criminal~~
20 ~~and Juvenile Justice shall submit a report to the General Assembly by September 1,~~
21 ~~2000 that addresses the following issues:~~

22 ~~(1) The need for substance abuse treatment. To develop state-wide~~
23 ~~policies, it is necessary to understand the level of substance abuse, type of substance~~
24 ~~abuse, availability of treatment, and need for financial assistance in each jurisdiction.~~

25 ~~(2) The availability of substance abuse treatment programs. Expansion~~
26 ~~of treatment services could require building infrastructure in the provider~~
27 ~~community. The report shall address the level of available treatment for each agency~~
28 ~~and population.~~

29 ~~(3) The allocation of treatment among populations. There are a number~~
30 ~~of populations that are in need of substance abuse treatment. These populations~~
31 ~~include, but are not limited to women with children, pregnant women, adult criminal~~
32 ~~justice clients, juvenile criminal justice clients, welfare recipients, medical assistance~~
33 ~~clients, and adolescents. The report shall include the number of treatment slots~~
34 ~~allocated to different populations in all agencies' programs as well as the number of~~
35 ~~treatment slots funded by each agency.~~

36 ~~(4) The effectiveness of treatment modalities. Evaluations of long-term~~
37 ~~effectiveness should be a factor in determining the allocation of resources. The report~~
38 ~~shall identify existing research on long-term outcomes in the State of Maryland,~~
39 ~~plans for future research on long-term outcomes, and how research from other states,~~
40 ~~such as California, may be used to evaluate Maryland programs.~~

41 ~~(5) The improvement required in the coordination assessment, referral~~
42 ~~and case management system among agencies. Improvements are needed to create an~~
43 ~~effective system.~~

1 (6) ~~The establishment of an effective funding system. With State, local,~~
2 ~~and federal funding sources, this report will address the need for an effective payment~~
3 ~~system for service providers and the need for coordination among agencies.~~

4 SECTION 37. AND BE IT FURTHER ENACTED, That it is the intent of the
5 General Assembly to expand the availability and improve the effectiveness of substance
6 abuse treatment, particularly for priority for various populations, including pregnant
7 women, Temporary Cash Assistance clients, and mothers of drug-addicted babies
8 mothers of drug-addicted babies, families with children at-risk for child
9 abuse or neglect, women with children, adult criminal justice clients,
10 juvenile criminal justice clients, welfare recipients, medical assistance
11 clients, and adolescents.

12 *The substance abuse treatment system is complex because of the involvement of*
13 *many State agencies and private organizations. Therefore, the Task Force to Study the*
14 *Availability of Substance Abuse Programs shall submit a report, in consultation with*
15 *the Subcabinet and the Cabinet Council on Criminal and Juvenile Justice, to the*
16 *General Assembly by September 1, 2000 that addresses the following issues:*

17 (1) *Plans to expand the availability of substance abuse treatment. The*
18 *report shall address how the substance abuse treatment system should be expanded;*
19 *particularly for priority for various populations, including pregnant women,*
20 *Temporary Cash Assistance clients, and mothers of drug-addicted babies mothers of*
21 *drug-addicted babies, women with children, adult criminal justice clients,*
22 *juvenile criminal justice clients, welfare recipients, medical assistance*
23 *clients, and adolescents. Expansion of treatment services would require building*
24 *infrastructure in the provider community.*

25 (2) *The need for substance abuse treatment. To develop statewide policies,*
26 *it is necessary to understand the level of substance abuse, type of substance abuse,*
27 *availability of treatment, and need for financial assistance in each jurisdiction.*

28 (3) *The allocation of treatment among populations. There are a number of*
29 *populations that are in need of substance abuse treatment. These populations include,*
30 *but are not limited to Temporary Cash Assistance clients, mothers of*
31 *drug-addicted babies, families with children at-risk for child abuse or*
32 *neglect, women with children, pregnant women, adult criminal justice clients,*
33 *juvenile criminal justice clients, welfare recipients, medical assistance clients, and*
34 *adolescents. The report shall include the number of treatment slots allocated to*
35 *different populations in all agencies' programs as well as the number of treatment slots*
36 *funded by each agency.*

37 (4) *The effectiveness of treatment modalities. Evaluations of long-term*
38 *effectiveness should be a factor in determining the allocation of resources. The report*
39 *shall identify existing research on long-term outcomes in the State of Maryland, plans*
40 *for future research on long-term outcomes, and how research from other states, such as*
41 *California, may be used to evaluate Maryland programs.*

1 (5) The improvement required in the coordination, assessment, referral
 2 and case management system among agencies. Improvements are needed to create an
 3 effective system.

4 (6) The establishment of an effective funding system. With State, local,
 5 and federal funding sources, this report will address the need for an effective payment
 6 system for service providers and the need for coordination among agencies.

7 SECTION 38 . AND BE IT FURTHER ENACTED, That it is the intent of the
 8 General Assembly that all programs funded with federal Temporary Assistance to
 9 Needy Families Block Grant (TANF) dollars be held harmless if funding for the
 10 Temporary Assistance to Needy Families Block Grant is reduced.

11 SECTION 39 . AND BE IT FURTHER ENACTED, That the general fund
 12 appropriation made in the following State agencies for the purpose of funding the
 13 community court shall be reduced by the following amounts based upon the
