3 **Care and Education**

4 FOR the purpose of creating the Judith P. Hoyer Blue Ribbon Commission on the
5 Financing of Early Child Care and Education; providing for the purpose, duties,
6 and membership of the Commission; providing for the terms and compensation
7 of its members; providing for the appointment of its members; requiring the
8 Commission to meet at certain times and issue reports on or before certain
9 dates; providing for the termination of the Commission and the termination of
10 this Act; and generally relating to the creation of a Commission charged with
11 studying the financing of early child care and education in the State.

12 **Preamble**

13 WHEREAS, Maryland's greatest resource is its children; and

14 WHEREAS, Maryland's youngest children must receive an early child care
15 and education that provide a safe, nurturing, educational, and culturally affirming
16 environment, in order to ensure that they enter the school system prepared to
17 succeed; and

18 WHEREAS, In 1999, the State annual average cost for full-time child care for
19 a child 5 years or younger was \$6,112; and

20 WHEREAS, Nationally, approximately 60% of the \$40 billion spent annually
21 on early child care and education is paid by the families of those children; and

1 WHEREAS, The vast majority of the money spent goes to pay for direct
2 services to children, with only a small percentage supporting infrastructure, such as
3 quality assurance and capital costs for facilities; and

4 WHEREAS, A growing body of research has revealed the critical importance of
5 early child care and education to later achievement and learning; and

6 WHEREAS, While the State and federal governments support public
7 education and provide substantial support to public colleges, and State and federal
8 governments make substantial contributions targeted to early child care and
9 education for low-income families, public funding of early child care and education for
10 middle-income families is minimal; and

11 WHEREAS, Nationally, experts in financing are reviewing new approaches to
12 funding early child care and education services, including approaches modeled after
13 the funding mechanisms used for higher education; and

14 WHEREAS, A blue ribbon commission created by the State would make
15 possible an intensive review of innovative approaches to funding early child care and
16 education, including approaches modeled after methods used in financing higher
17 education, transportation, and housing; now, therefore,
