10 Article - Education
11 Section 5-213
12 Annotated Code of Maryland
13 (1999 Replacement Volume)

14 **Preamble**

15 WHEREAS, There is now scientific evidence, based on studies on early brain
16 development, to support the need to promote literacy at the earliest age; and

17 WHEREAS, There is solid scientific evidence for the effectiveness of the Reach
18 Out and Read Program, developed in the Department of Pediatrics of the Boston City
19 Hospital; and

20 WHEREAS, The Program is based on pediatricians prescribing reading at each
21 well child visit and following up with a gift of the child's very own book; and

1 WHEREAS, The Program also involves reading by volunteers in the waiting
2 room; and

3 WHEREAS, The Program targets children who are not likely to own a book; and

4 WHEREAS, The Program trains pediatricians and other child health care
5 providers to promote literacy to all of their patients; and

6 WHEREAS, National book publishers participate in the Program and sell books
7 to clinics and pediatric offices at very low prices; and

8 WHEREAS, The Annie E. Casey Foundation funded the Program in 12 primary
9 care clinics in Baltimore City in 1997, but additional funding is needed to support the
10 Program in those clinics; and

11 WHEREAS, Maryland's pediatricians are seeking training and support for the
12 Program; and

13 WHEREAS, Maryland's library systems promote a program to give a library
14 card to very young children, and this program is easily incorporated in the Program;
15 and

16 WHEREAS, The Program could easily grow with corporate sponsorship,
17 allowing Maryland businesses to invest in early literacy with donations of books; now,
18 therefore,
