10. Description and Purpose of Project		
<p>This project funds a community center to serve western Rockville in the neighborhoods west of I-270. There are well over 5,000 households west of I-270 in Rockville, and yet there are no community centers to serve these residents. When built, the center will be within easy walking distance of 1,500 residences, including 177 moderately priced dwelling units. While the Center will serve all residents, it will place a special focus on serving seniors and school-aged children. The center will also provide more capacity for popular after school activities, and will serve a part of the population that lives far from these types of programs where they are currently offered in other community centers. This project includes a gymnasium, two multipurpose rooms, computer learning center, fitness center, kitchen and snack bar, locker rooms, offices, storage, and a parking lot. A site has been selected as part of the approved Comprehensive Planned Development for Falls Grove. The City seeks bond bill funding for the project due to the significant impact from the loss of Program Open Space funds to the City's parks and recreation</p>
