9. Description and Purpose of Grantee Organization		
The Maryland-National Capital Park and Planning Commission is a bi-county agency, empowered by the State of Maryland in 1927 to acquire, develop, maintain and administer a regional system of parks in Prince George's and Montgomery Counties. The M-NCPPC is also empowered to prepare and administer a General Plan for the physical development of most of the bi-county area and operate the public recreation program in Prince George's County.		
10. Description and Purpose of Project		
Concord is a 2 1/2 story historic brick and frame dwelling that was built by the Berry family in 1798. The house is located on 155 acres of land and is listed on the historic register for the State and the County. This project includes the design and repair/renovation work needed to restore the interior and exterior of the house so it can accommodate public use. After renovation, the interior would be able to accommodate functions such as meetings, receptions, weddings and other special events. The addition of an accessible entrance, public parking area, public restroom, catering kitchen and an efficient heating/cooling system are part of the planned improvements. The repair/renovation work is necessary not only to open the facility for public use but also to prevent further deterioration of the structure. In addition to providing a venue for various events, the renovated house will provide us with an outstanding opportunity to interpret the cultural history associated with the historic mansion and the surrounding 150-acre site. Although the M-NCPPC has other historic houses in Prince George's County that are open for public use, there are no sites within the Capital Beltway in the Greater Capitol Heights area that serve this purpose.
