Preamble

WHEREAS, Following extensive research and the issuance of a report by the
United States Environmental Protection Agency that clearly demonstrated an
alarming extent of degradation of the Chesapeake Bay, in significant part because of
prominent land use and growth patterns, the Critical Area Commission was created in
1984 in order to preserve and restore water quality in the State, to maintain valued
wildlife habitat, and to accommodate inevitable growth, and these same legislative
concerns were addressed in 2002 when the protections of the Critical Area Program
were expanded to include the Atlantic Coastal Bays; and

WHEREAS, The Critical Area, which comprises approximately 11% of
Maryland’s land mass, includes the majority of the State’s most ecologically fragile
and valuable properties; and

WHEREAS, From its inception, partnership between State and local
government has been a cornerstone of the Critical Area Program; and

WHEREAS, To date local Critical Area programs are operative in Baltimore
City, 16 counties, and 47 other municipalities, and Critical Area issues directly impact
at least seven State departments; and
WHEREAS, After nearly a quarter–century of operation, the Critical Area Program has effectively influenced thousands of land use decisions, addressed and minimized the adverse impacts of growth associated with hundreds of requests for growth allocation, and represented a comprehensive effort between the State and local governments to enforce a variety of water quality and habitat protection standards; and

WHEREAS, Despite these efforts, additional measures are necessary in order to enhance a cooperative land use and natural resource management program that will restore the quality and productivity of the Chesapeake Bay, Atlantic Coastal Bays, their tidal tributaries, and associated land–based ecosystems; and

WHEREAS, Particularly in light of the ongoing, accelerating decline of the State’s water quality resources and the loss of valuable shoreline areas due to erosion and global warming, it is the view of the General Assembly that significant improvements are in order at this time so as to accomplish Program preservation goals more effectively while streamlining the Program and enhancing its efficiency and predictability; and

WHEREAS, Experience has provided several strong indications of how to ensure those Program improvements; and

WHEREAS, A key element that is fundamental to the ordinary business operations of all other State agencies is the general authority to adopt regulations, but the ability of the Critical Area Commission to do so was rendered unclear by the March 10, 1987 Opinion of the Attorney General, 72 Md. Op. Atty. Gen. 14, 1987 WL 339797 (Md.A.G.), and it is the intent of this legislation to clarify and supersede that Opinion; and

WHEREAS, It is likewise the intent of this legislation to strengthen and clarify the reach of the Program where necessary to compensate for gaps in the current structure, such as the institution of more meaningful enforcement mechanisms, and to provide for fairer and more effective Program procedures around the State that will continue to allow for flexibility in recognition of local partners’ varying needs; now, therefore,

SECTION 1. BE IT ENACTED BY THE GENERAL ASSEMBLY OF MARYLAND, That the Laws of Maryland read as follows:

Article – Business Regulation

8–1801.

(a) The General Assembly finds and declares that:

(1) The Chesapeake and the Atlantic Coastal Bays and their tributaries are natural resources of great significance to the State and the nation, AND THEIR BEAUTY, THEIR ECOLOGICAL VALUE, AND THEIR ECONOMIC IMPACT ALL REACH FAR BEYOND ANY ONE LOCAL JURISDICTION;

(2) The shoreline and adjacent lands, PARTICULARLY THE BUFFER AREAS, constitute a valuable, fragile, and sensitive part of this estuarine system, where human activity can have a particularly immediate and adverse impact on water quality and natural habitats;

(3) The capacity of these shoreline and adjacent lands to withstand continuing demands without further degradation to water quality and natural habitats is limited;

(4) Human activity is harmful in these shoreline areas, where the new development of nonwater–dependent structures or [the addition of impervious surfaces] AN INCREASE IN LOT COVERAGE is presumed to be contrary to the purpose of this subtitle, because these activities may cause adverse impacts, of both an immediate and a long–term nature, to the Chesapeake and Atlantic Coastal Bays, and thus it is necessary wherever possible to maintain a buffer of at least 100 feet landward from the mean high water line of tidal waters, tributary streams, and tidal wetlands;

(5) National studies have documented that the quality and productivity of the waters of the Chesapeake Bay and its tributaries have declined due to the cumulative effects of human activity that have caused increased levels of pollutants, nutrients, and toxics in the Bay System and declines in more protective land uses such as forestland and agricultural land in the Bay region;

(6) Those portions of the Chesapeake and the Atlantic Coastal Bays and their tributaries within Maryland are particularly stressed by the continuing population growth and development activity concentrated in the Baltimore–Washington metropolitan corridor and along the Atlantic Coast;

(7) The quality of life for the citizens of Maryland is enhanced through the restoration of the quality and productivity of the waters of the Chesapeake and the Atlantic Coastal Bays, and their tributaries;

(8) The restoration of the Chesapeake and the Atlantic Coastal Bays and their tributaries is dependent, in part, on minimizing further adverse impacts to
the water quality and natural habitats of the shoreline and adjacent lands, particularly in the buffer;

(9) The cumulative impact of current development and of each new development activity in the buffer is inimical to these purposes, AND IT IS THEREFORE IMPERATIVE THAT STATE LAW BE SUFFICIENT TO PROTECT IRREPLACEABLE STATE BUFFER RESOURCES FROM UNPERMITTED ACTIVITY; and

(10) There is a critical and substantial State interest for the benefit of current and future generations in fostering more sensitive development [activity] AND MORE EFFECTIVE ENFORCEMENT in a consistent and uniform manner along shoreline areas of the Chesapeake and the Atlantic Coastal Bays and their tributaries so as to minimize damage to water quality and natural habitats.

(b) It is the purpose of the General Assembly in enacting this subtitle:

(1) To establish a Resource Protection Program for the Chesapeake and the Atlantic Coastal Bays and their tributaries by fostering more sensitive development activity for certain shoreline areas so as to minimize damage to water quality and natural habitats; and

(2) To implement the Resource Protection Program on a cooperative basis between the State and affected local governments, with local governments establishing and implementing their programs in a consistent and uniform manner subject to State AND LOCAL LEADERSHIP, [criteria] CRITERIA, and oversight.

8–1802.

(III) PERFORMED THE ABATEMENT MEASURES IN THE APPROVED PLAN IN ACCORDANCE WITH THE LOCAL CRITICAL AREA PROGRAM.

(d) (1) In this subsection, “unwarranted hardship” means that, without a variance, an applicant would be denied reasonable and significant use of the entire parcel or lot for which the variance is requested.

(2) (i) A LOCAL JURISDICTION SHALL PROCESS AN APPLICATION FOR A Variance REGARDING A PARCEL OR LOT THAT IS SUBJECT TO A CURRENT VIOLATION OF THIS SUBTITLE, A REGULATION ADOPTED UNDER THE AUTHORITY OF THIS SUBTITLE, OR ANY PROVISION OF AN ORDER, PERMIT, PLAN, OR LOCAL PROGRAM IN ACCORDANCE WITH SUBSECTION (C)(1)(III)15 OF THIS SECTION.

(II) In considering an application for a variance, a local jurisdiction shall presume that the specific development activity in the critical area that is subject to the application and for which a variance is required does not conform with the general purpose and intent of this subtitle, regulations adopted under this subtitle, and the requirements of the local jurisdiction’s program.

(iii) (III) If the variance request is based on conditions or circumstances that are the result of actions by the applicant[, including the commencement of development activity before an application for a variance has been filed], a local jurisdiction may SHALL consider that fact.

(3) (i) An applicant has the burden of proof and the burden of persuasion to overcome the presumption established under paragraph (2)(i) (2)(II) of this subsection.

(ii) The local jurisdiction finds that the applicant has satisfied each one of the variance provisions; and

(iii) Without the variance, the applicant would be deprived of a use of land or a structure permitted to others in accordance with the provisions of the critical area program.

(5) (I) **WITHIN 10 WORKING DAYS AFTER ISSUANCE A WRITTEN DECISION REGARDING A VARIANCE APPLICATION IS ISSUED, THE COMMISSION SHALL RECEIVE WRITTEN NOTICE A COPY OF THE DECISION FROM A LOCAL JURISDICTION REGARDING ITS DECISION ON EACH VARIANCE APPLICATION.**

2. **VERIFIES, THROUGH ON–SITE INSPECTION OR OTHER RELIABLE MEANS, THAT:**

   A. **FULL COMPLIANCE WITH THE TERMS OF THE NOTICE OF VIOLATION HAS BEEN ACHIEVED, INCLUDING PAYMENT OF ALL ASSESSED FINES AND COMPLETION OF ANY REQUIRED MITIGATION; OR**
B. (III) If the final adjudication of a notice of violation results in a determination that a violation has occurred, the person shall be liable for a penalty that is twice the amount of the assessment in the notice of violation, in addition to the cost of the hearing and any applicable mitigation costs.

(iv) Application for a variance under this paragraph constitutes a waiver of the right to appeal the terms of a notice of violation and its final adjudication, including the payment of any penalties and costs assessed.

(v) If the local jurisdiction finds that the activity or structure for which a variance is requested commenced without permits or approvals and:

1. Does not meet each of the variance criteria under this subsection, the local jurisdiction shall deny the requested variance and order removal or relocation of any structure and restoration of the affected resources; or

2. Does meet each of the variance criteria under this subsection, the local jurisdiction may grant proposed approval to the requested variance.

(vi) 1. Within 10 working days after issuance of a proposed approval of a variance under subparagraph (v)2 of this paragraph, the local jurisdiction shall submit the proposed approval to the Commission for the Commission’s review and final approval.

2. The Commission shall review and issue a final decision on a proposed local approval in accordance with procedures established in regulations adopted by the Commission.
This subsection does not apply to building permits or activities that comply with a buffer exemption plan or buffer management plan of a local jurisdiction which has been approved by the Commission.

2. Propose the use of a part of the remaining growth allocation in accordance with the adopted program.

(o)  (1) For proposed program amendments, a Commission panel shall hold a public hearing in the local jurisdiction, and the Commission shall act on the proposed program amendment within [90] 130 days of the Commission’s acceptance of the proposal.
