

Department of Legislative Services  
Maryland General Assembly  
2009 Session

FISCAL AND POLICY NOTE

Senate Bill 559 (Senator King)  
Judicial Proceedings

---

**Real Property - Restrictions - Clotheslines or Other Laundry Drying Devices**

---

This bill prohibits any contract, deed, covenant, restriction, declaration, rule, bylaw, lease, rental agreement, or other similar document from banning the use of clotheslines or other laundry drying devices on the property of a homeowner or tenant. Reasonable restrictions relating to the timing, placement, and the manner of use are permitted.

---

**Fiscal Summary**

**State Effect:** If the Consumer Protection Division of the Office of the Attorney General receives fewer than 50 complaints per year stemming from the bill, the additional workload can be handled with existing resources.

**Local Effect:** The bill does not directly affect local finances or operations.

**Small Business Effect:** None.

---

**Analysis**

**Bill Summary:** Prior to adopting any rules or regulations relating to the timing, placement, and manner of use of a clothesline or other drying device, the governing body of a condominium, homeowners association, housing cooperative, or a landlord must hold an open meeting to allow affected homeowners and tenants to comment on the proposed rules. Advance notice of the time and the place of the meeting must be published in a community newsletter, on the community bulletin board, by the means provided in the governing document or the lease, or by any other means reasonably calculated to inform the affected homeowners and tenants.

The bill applies retroactively.

**Current Law:** State law does not limit the authority of common ownership communities or landlords to limit by contract, deed, or other instrument the installation or use of clotheslines.

**Background:** As shown in **Exhibit 1**, the U.S. Energy Information Administration estimates that U.S. households owned 61 million electric clothes dryers in 2001, which consumed 66 billion kWh and accounted for 5.8% of total national energy consumption.

---

**Exhibit 1**  
**Electricity Consumption by End Use in U.S. Households in 2001**

	<b>U.S. Households (in Millions)</b>	<b>Total Energy Consumption (Billion kWh)</b>	<b>Percent of Total U.S. Household Energy Consumption</b>
Clothes Washers	84.1	10.1	0.9%
Clothes Dryers	61.1	65.9	5.8%

---

A goal of the Governor's "EmPOWER Maryland" initiative is to reduce State energy consumption 15% by 2015. As part of this effort, the Maryland Energy Administration encourages Maryland residents to adopt cost-effective energy savings measures in their homes. Colorado, Florida, Hawaii, and Utah have enacted various laws protecting the rights of homeowners to use clotheslines, and five other states are considering similar legislation.

---

**Additional Information**

**Prior Introductions:** None.

**Cross File:** HB 443 is designated as a cross file; however, it is not identical.
