**28. Comments: (Limit Length to Visible area)**

This new maintenance facility for the parks and recreation department will provide for the future anticipated growth of the department. The building sits on 2 acres and that land will allow for future expansion as needed. The current funding will assist in renovating the building and adjacent land to provide for a central location of the parks and recreation maintenance operation. The addition of a fueling station and salt shed will provide a more efficient maintenance operation for the west side of Laurel.
