§11-117.1.

“Electric bicycle” means a vehicle that:

- (1) Is designed to be operated by human power with the assistance of an electric motor;
- (2) Is equipped with fully operable pedals;
- (3) Has two or three wheels;
- (4) Has a motor with a rating of 500 watts or less; and
- (5) Is capable of a maximum speed of 20 miles per hour on a level surface when powered by the motor.
