1           (2) “Baiting” means the placing, exposing, depositing, distributing, or  
2 scattering of shelled, shucked, or unshucked corn, wheat or other grain, salt, or other feed  
3 so as to constitute for birds a lure, attraction, or enticement to, on, or over any areas where  
4 persons are attempting to hunt them.

5           (3) “Baited area” means any area where shelled, shucked, or unshucked  
6 corn, wheat or other grain, salt, or other feed capable of luring, attracting, or enticing birds  
7 is directly or indirectly placed, exposed, deposited, distributed, or scattered, and this area  
8 remains a baited area for 10 days following complete removal of all corn, wheat or other  
9 grain, salt, or other feed.

10          (b) A person may not hunt wetland game birds or upland game birds, except quail  
11 and pheasant, by the aid of baiting, or on or over any baited area, **IF THE PERSON KNOWS**

13          (c) This section does not prohibit:

14           (1) The hunting of wetland and upland game birds on or over standing  
15 crops, flooded standing crops (including aquatics), flooded harvested croplands, grain crops  
16 properly shocked on the field where grown, or grains found scattered solely as the result of  
17 normal agricultural planting or harvesting; and

24 where grown.
