§7-10A-05.

The plan to implement the pilot program shall:

- (1) Provide a useful educational medium for students in the pilot program;
- (2) Be capable of being implemented at a reasonable cost;
- (3) Encourage and develop students' familiarity with computer technology and train teachers to integrate such technology into their curriculum;
- (4) Add to the increased performance of the students participating in the program; and
- (5) Provide performance indicators that illustrate how teachers' familiarity with technology and teaching resources within the pilot program have increased.
