Analysis

Current Law: Commission counties do not have the legislative power to create debt; General Assembly authorization is required before any bonds can be sold. Calvert County is one of six counties that still operates under the commission form of government.

Background: Since 2006, Calvert County has received authorization by the General Assembly to issue up to \$229.1 million in general obligation bonds for public facilities, as shown in **Exhibit 1**. **Exhibit 2** shows the planned capital projects in Calvert County for fiscal 2017.

Local Fiscal Effect: Calvert County revenues increase by up to \$9.41 million from bond proceeds. Annual debt service costs for the bonds total approximately \$647,700 for bonds issued with a 15-year term of maturity and by an additional \$66,400 for bonds issued with a 25-year term of maturity. This estimate is based on a 2.30% interest rate and 2.75%

interest rate, respectively. To the extent that the bond issuance, interest rates, or terms of maturity deviate from this assumption, debt service expenditures would adjust accordingly.

At the end of fiscal 2014, Calvert County had approximately \$149.7 million in total outstanding debt, which represents approximately 1.2% of the county's assessable base and \$1,654 on a per capita basis. The county currently has an AAA credit rating from Standard and Poor's, an Aa1 credit rating from Moody's Investors Service, and an AAA credit rating from Fitch Ratings.
