## **Department of Legislative Services**

Maryland General Assembly 2018 Session

#### FISCAL AND POLICY NOTE First Reader

(Delegate Gibson, et al.)

House Bill 1040 Appropriations

#### Creation of a State Debt - Baltimore City - West Arlington Water Tower

This bill authorizes the issuance of general obligation (GO) bonds to provide a grant to a recipient for the acquisition, planning, design, construction, expansion, repair, restoration, renovation, reconstruction, or capital equipping of a specified facility. **The bill takes effect June 1, 2018.** 

### **Fiscal Summary**

**State Effect:** If adopted in whole or part, this grant will be part of the total GO debt authorization for FY 2019. The Spending Affordability Committee (SAC) recommended a GO debt authorization of \$1.075 billion for FY 2019. The Maryland Consolidated Capital Bond Loan (MCCBL) of 2018, referred to as the FY 2019 capital budget, provides new GO debt authorizations totaling \$995.0 million, which is \$80.0 million below the SAC recommendation. As introduced, an additional \$5.2 million in prior year authorized GO bonds is to be deauthorized, thus increasing the amount of GO debt included in the MCCBL of 2018 to \$1,000.2 million.

Local Effect: None, unless the recipient is a local government.

Small Business Effect: None.

## Analysis

## **Current Law/Background:**

*Bond Sales and Debt Service:* The State last sold bonds on March 7, 2018, which included \$525.0 million in new money bonds in support of the State's capital program. Of the \$525.0 million, \$475.0 million was issued as new tax-exempt bonds and \$50.0 million as new taxable bonds. The bonds were sold in separate series, with a combined true interest cost of 2.84%, with an average maturity of 10.4 years for the tax-exempt issuance and 2.58% over 5 years for the taxable issuance. The shorter maturities for the taxable issuance explains the lower true interest cost compared to the tax-exempt issuance. The actual annual debt service cost is determined by the coupon rate achieved at the time the bonds were issued, which ranged from 3.25% to 5.0% for an average coupon rate of 4.6%. Therefore, State debt service is estimated to cost \$54.5 million annually based on the average coupon rate.

GO bonds authorized in a given year are not all issued the year in which they are authorized. The State Treasurer's Office estimates that just over half of the GO bonds authorized in a year are typically issued within the first two fiscal years. The Capital Debt Affordability Committee assumes bonds authorized in a given year will be fully issued over five years; specific issuances are 31% in the first year, 25% in the second year, 20% in the third year, 15% in the fourth year, and 9% in the fifth year.

*Legislative Initiatives:* As introduced by the Governor, the MCCBL of 2018 does not include the customary earmark of \$15.0 million for legislative initiatives. However, because the General Assembly can both reduce and add to the capital budget, the budget committees may consider bond bill requests during the 2018 session and amend them into the MCCBL.

The bills listed below authorize the issuance of GO bonds to provide grants to various recipients for the acquisition, planning, design, construction, expansion, repair, restoration, renovation, reconstruction, and/or capital equipping of various facilities.

Most bills require either a "hard" or "soft" match, as noted. Where no match is required, the term "grant" is indicated. A "hard" match means the recipient provides a dollar-for-dollar match of the State funds and does not expend the matching funds until after the effective date of the authorizing act. A "soft" match is any other type of match. Soft matches include the use of the value of the real property as the match, in-kind contributions such as materials or construction services, or funds expended prior to the effective date of the bill. A match key is provided immediately below the list of projects.

The list is organized into two categories: statewide bond bills; and local bond bills. Within the local bond bill category, the projects are sorted first by the county in which the project is located and then alphabetically by project title. Most projects have both a House and a Senate bill.
