<b>10. Description and Purpose of Organization</b> (Limit length to visible area)		
<p>The Calvert Marine Museum is a public, non-profit, educational, regionally-oriented museum dedicated to the collection, preservation, research and interpretation of the cultural and natural history of Southern Maryland. The museum is open seven-days-a-week, year-round. There are three permanent exhibits that interpret the three themes of paleontology, estuarine biology, and maritime history: Clues from the Cliffs, River to Bay (which includes a 13-tank aquarium), and The Patuxent: A River and its People. The museum offers educational programming for all ages; public events and festivals; lectures and performances.</p>		

**11. Description and Purpose of Project (Limit length to visible area)**

In the last legislative session, the Calvert Marine Museum was named the State Paleontology Collection and Research Center. This designation reflects the 40 plus years of work the museum's paleontologists have done amassing over 100,000 fossils primarily from the Miocene epoch, and most from the famous Calvert Cliffs. Last year the museum completed a new site master plan which identifies the location of a new paleontology center on the museum campus. The Paleontology Center can provide fossil preparation space, collection storage, house the museum's extensive paleontology library, and provide offices for paleontology staff and a conference area for visiting scholars. The purpose of this bond bill is to fund the architectural and engineering design work for the site work outlined in the master plan and the new paleontology center.
