Annotated Code of Maryland
(2016 Replacement Volume and 2019 Supplement)

Preamble
WHEREAS, In 2007, a petition was filed with the U.S. Environmental Protection Agency (EPA) requesting that the food tolerances for chlorpyrifos be revoked and all chlorpyrifos pesticide product registrations be canceled; and

WHEREAS, The petition argued that continuation of the registrations and tolerances exposed the public to unsafe levels of chlorpyrifos; and

WHEREAS, In November 2015, the EPA responded to the petition by proposing to revoke all food tolerances for chlorpyrifos, stating that “at this time, the agency is unable to conclude that the risk from aggregate exposure from the use of chlorpyrifos meets the safety standard of section 408(b)(2) of the Federal Food, Drug, and Cosmetic Act”; and

WHEREAS, In March 2017, a new administration reversed course, withdrawing the 2015 proposal and denying the 2007 petition; and

WHEREAS, In the absence of federal action, the states of California, Hawaii, and New York have already taken steps to prohibit the use of chlorpyrifos; now, therefore,
