State Of Maryland 2022 Bond Initiative Fact Sheet

1. Name Of Project						
Watkins Mill Recreation Area Outdoor Fitness Park						
2. Senate Sponsor	e Sponsor 3. House Sponsor					
King						
4. Jurisdiction (County or Baltimore City)	5. Requested Amount					
Montgomery County	\$700,000					
6. Purpose of Bond Initiative						
the acquisition, planning, design, construction, repair, renovation, reconstruction, site improvement, and capital equipping of Watkins Mill Recreation Area site						
7. Matching Fund						
Requirements:	Type:					
Grant						
8. Special Provisions						
[] Historical Easement	[X] Non-Sectarian					
9. Contact Name and Title	Contact Ph#	Email Address				
Senator Nancy King		Nancy.King@senate.state.md.us				
Duncan Mullis, Director of Recreation and Parks		240-243-2337				
10. Description and Purpose of Organization (Limit length to visible area)						
The Montgomery Village Foundation (MVI	F) has the primar	y mission to promote the health,				

The Montgomery Village Foundation (MVF) has the primary mission to promote the health, safety and welfare of the 40,000 residents of Montgomery Village through a wide array of public services. Its mission includes: maintenance and upkeep of MVF assets, including lakes, parks, pools, and community centers; the Architectural Review Board and Commercial Architectural Review Committee, which help maintain the aesthetic integrity of the community; financial management of Village assets and collection of assessments; communications with members on services through diverse methods; recreation programs, classes, and special events for all ages; and representation of the interests of Montgomery Village to all governments and their agencies.

11. Description and Purpose of Project (Limit length to visible area)

The purpose of this project is to repurpose one of the seven MVF pools. Each year staff provides statistics on utilization of all pools, and it was clear that the Watkins Mill Pool has continued to be underutilized. By repurposing the site, it allows for the creation of a new amenity for better year-round utilization. After an extensive community input phase, the Board of Directors selected to repurpose the underutilized pool to create a park that emphasizes fitness. The fitness park will give the public the opportunity for a free place for year-round exercise. The major components include: the demolition of the existing facility, relocation of the playground next to the gym, and the creation of the fitness space - exercise path, outdoor fitness gym with fabric shade structure, and lighting. Outdoor fitness equipment has become very popular and MVF believes, partially based on community feedback, that this unique fitness park will be a well used amenity.

Round all amounts to the nearest \$1,000. The totals in Items 12 (Estimated Capital Costs) and 13 (Proposed Funding Sources) must match. The proposed funding sources must not include the value of real property unless an equivalent value is shown under Estimated Capital Costs.

12. Estimated Capital Costs						
Acquisition	\$0					
Design	\$65,000					
Construction	\$575,000					
Equipment	\$60,000					
Total	\$700,000					
13. Proposed Funding Sources - (List all funding sources and amounts.)						
Legislative Bond Initiative	\$700,000					
	## 00.000					
Total	\$700,000

Additional information on the description and purpose of project (#11)

After an extensive community engagement phase, the Recreation Committee and the MVF Board of Directors selected, from multiple different proposed concepts, to repurpose the underutilized pool to create a park that has an emphasis on fitness. The concept was first identified as a community priority in the Recreation and Parks Strategic Plan and the MVF Long Range Facility Plan. In fact, in a recent community survey, exercise and health was the highest priority for most age groups.

The major components of the project include: the demolition of the existing building and pool facility; necessary site work; installation of required stormwater management facilities; relocation of the existing playground to be adjacent to the outdoor gym; planting of required trees and shrubs; installation of a path connecting the entrances to the amenities; addition of a four-foot high fence around the perimeter of the park; installation of a utilities building; installation of other site furnishings; and the creation of the fitness space, which will include a 10' wide and 150' long exercise track, fitness equipment with fabric shade structure, and overhead lighting.

The outdoor gym itself will have similar functionality to an indoor gym and will offer a full body workout. Our finalized plan for the gym includes: multiple ADA accessible pieces; pieces that have adjustable resistance to meet all fitness level needs and work all muscle groups; a fitness rig which offers a full body workout on one piece of equipment; and cardio pieces through an elliptical and upright bike. Also, we plan to add a fabric shade structure and lighting to increase usability in multiple seasons.

Currently, the design phase has been completed and the finalized plans are being reviewed by Montgomery County Department of Permitting Services (DPS). Staff anticipates final county approval in February 2022.
