21 SECTION 1. BE IT ENACTED BY THE GENERAL ASSEMBLY OF MARYLAND,  
 22 That the Laws of Maryland read as follows:

23 **Article – Education**

24 8–408.

25 (a) (1) In this section the following words have the meanings indicated.

26 (3) “Braille” means the system of reading and writing through touch  
 27 commonly known as Standard English Contracted Braille.

28 (4) “Child who is blind or visually impaired” means a child who:

29 (i) Has a visual acuity of 20/200 or less in the better eye with  
 30 correcting lenses or has a limited field of vision so that the widest diameter of the visual  
 31 field subtends an angle no greater than 20 degrees;

32 (ii) Has a medically indicated expectation of visual deterioration; or

33 (iii) Has a medically diagnosed limitation in visual functioning that  
 34 restricts the child’s ability to read and write standard print at levels expected of other  
 35 children of comparable ability and grade level.

1 (5) "Individualized education program" and "IEP team" have the same  
2 meaning as provided by the Individuals with Disabilities Education Act.

3 (6) "National Instructional Materials Access Center" means the center  
4 established under § 674(e) of the federal Individuals with Disabilities Education  
5 Improvement Act of 2004.

6 (7) "NIMAS" means the National Instructional Materials Accessibility  
7 Standard established by the federal Secretary for Education under 20 U.S.C. 1412 to be  
8 used in the preparation of electronic files suitable and used solely for efficient conversion  
9 into specialized formats.

10 (9) "Print instructional materials" means printed textbooks and related  
11 printed core materials that are written and published primarily for use in elementary  
12 school and secondary school instruction and are required by the Department or county  
13 board for use by students in the classroom.

14 (10) "Specialized formats" means braille, large print, audio, or digital text  
15 that is used by blind or visually impaired individuals.

16 (b) (1) In developing the individualized education program for a child who is  
17 blind or visually impaired, provisions shall be made for instruction in braille and the use of  
18 braille unless the IEP team determines, after an evaluation of the child's reading and  
19 writing skills, needs, and appropriate reading and writing media, including an evaluation  
20 of the child's future needs for instruction in braille or the use of braille, that such  
21 instruction or use is not appropriate for the child.

22 (i) A child may not be denied the opportunity for instruction in  
23 braille reading and writing solely because the child has some remaining vision.

24 (ii) This section does not require the exclusive use of braille if other  
25 reading and writing media are appropriate to the child's educational needs. The use of other  
26 reading and writing media does not preclude the use of braille or the instruction of braille.

5 electronic files containing the contents of the print instructional materials using NIMAS;  
6 or

8 are produced in, or may be rendered in, specialized formats.
