<b>10. Description and Purpose of Organization</b> (Limit length to visible area)						

MedStar Franklin Square Medical Center (MFSMC), Marylands 4th largest hospital, is a 357bed (415 with 58 bassinets), non-profit, tertiary-care facility in Eastern Baltimore County. Serving 107K+ patients/year, the Emergency Department is also one of the state's busiest (60K+ visits/year). MFSMC employs 3,300+ Associates & nearly 700 Physicians, offering high-quality, routine & specialty care. Our diverse patient population spans Southeast Baltimore County, Northeast Baltimore City & Southern Harford County; it is one of the only facilities with Labor & Delivery services accessible to our communities. MFSMC delivers more than 2,000 babies annually, with ~15% of newborns admitted to our level III-B Neonatal Intensive Care Unit (NICU). Additionally, MFSMC Womens Health provides 40K+ annual visits across 4 ambulatory sites, including air & land obstetrical transports.

## **11. Description and Purpose of Project** (Limit length to visible area)

MFSMCs current L&D ORs present significant challenges, as the complexity & acuity of deliveries rise. We plan to renovate our Womens Services facilities through a phased approach. Currently, Phase 1 is overhauling L&Ds entry, triage & antepartum testing. Phase 2 will address the 3 existing L&D ORs, which have not materially changed since 1968 original construction (despite technology investments & aesthetic modernizations). MFSMC is now seeking \$2M to begin Phase 2 (\$7.5M overall project), ultimately moving & modernizing all 3 L&D ORs. Construction could begin in 2025 with an estimated buildout of ~6 months, repurposing space within an existing footprint. MEP infrastructure modernization is required to update the space to current standards. Modernizing our L&D ORs is of paramount importance due to current trends of advanced maternal age, increased occurrence of multiple births and challenges related to maternal morbidity and mortality nationwide.

Round all amounts to the nearest \$1,000. The totals in Items 12 (Estimated Capital Costs) and 13 (Proposed Funding Sources) must match. The proposed funding sources must not include the value of real property unless an equivalent value is shown under Estimated Capital Costs.

12. Estimated Capital Costs						
Acquisition	\$0					
Design	\$178,000					
Construction	\$1,400,000					
Equipment	\$447,000					
Total	\$2,025,000					
13. Proposed Funding Sources - (List all funding sources and amounts.)						
State of Maryland Legislative Bond Initiative Request	\$2,000,000					
Private Philanthropic Donation	\$25,000					
Total	\$2,025,000

## 28. Comments

18. Other State Capital Grants to Recipients in Past 15 Years (continued)
-2019 \$1,750,000 New Surgical Tower and Infrastructure Improvements
-2018 \$4,000,000 and \$2,000,000 New Surgical Tower and Infrastructure Improvements
-2017 \$2,000,000 New Surgical Tower and Infrastructure Improvements
-2016 \$877,000 Renovation of Inpatient Care Unit

26 & 27. Building Square Footage & Year of Construction:

Current 3 L&D OR's are drastically undersized, comprising 2,500 sq ft in an area originally constructed in 1968 when the hospital was built. The proposed new location for the OR's is located within the hospital, in currently unutilized space (thus, no new GSF). The 6,000 sq ft space to be renovated is much larger than current, due to modernization of the clinical areas and to accommodate for changes in maternal and baby health with deliveries.

## Other

MFSMC continually serves as a referral center for high acuity transfers into the facility, especially for helicopter transfers coming from other MedStar Health hospitals and external locations. Additionally, MFSMC has a strong local relationship with Baltimore Medical System (BMS), the largest federally qualified health center (FQHC) in Maryland, for OB/GYN services and other care.
