10. Description and Purpose of Organiza	tion (Limit lengt	h to visible area)					

The Moyoane Association Inc is an IRS recognized 501(c)(4) non-profit membership organization. It built the Moyoane Community pool approximately 60 years ago. The Moyoane Association is membership based and has been open to the greater Accokeek area community since it was established. Today, the members are not only from Accokeek but from neighboring communities in both Prince George's and Charles County. In 2023, there were over 500 members, many families; some are kids involved with Camp Accokeek and other students attending the Alice Ferguson Foundation summer programs. The Moyoanne Community Pool creates a safe environment where people relax and socialize, enjoy the pool, and kids have an opportunity to learn to swim with certified instructors. Adults may take advantage of water aerobics, land swimming and other activities with family and friends,

11. Description and Purpose of Project (Limit length to visible area)

The purpose of the project involves building code and safety related projects and general improvements to the current infrastructure of the community center, the community pool and the surrounding field and play areas for the current pool members as well as to encourage more new participation from the surrounding areas. The grounds currently include an adult swim pool, a kiddy pool, playground equipment, a basketball/pickleball court and a soccer field. Non-member users include the Accokeek Volunteer Fire Department and a local Girl Scout troop. The overarching two-fold objectives for the grant reaches beyond the necessary building code/safety projects and general improvements: 1) it is to be able to promote the use of the facilities more broadly across the two counties, particularly as other local swim clubs have closed, and 2) to encourage more community access and participation.

Round all amounts to the nearest \$1,000. The totals in Items 12 (Estimated Capital Costs) and 13 (Proposed Funding Sources) must match. The proposed funding sources must not include the value of real property unless an equivalent value is shown under Estimated Capital Costs.

28. Comments

Continuation of section 11:

Having been built 60 years ago the basic pool facility is not compliant with current code, such as havening non-ADA bathrooms. Both bathrooms are bare bones...concrete floors, old sinks, fixtures, toilet and partitions, failing tiles on the walls and in the shower area and overall old plumbing. The major pumps for both pools need to be replaced as do other main control and filter equipment...such as chemical controllers; basic plumbing pipes in the pump room; sand filters etc. The underwater

lighting system, a basis safety feature needs to be rewired and new lights installed. The pool concrete deck has been cracking and eroding and needs to be resurfaced. The life guard chairs need to be replaced. The chain link fence around the pool is rusting and is not high enough by today's standards. A disability hoist needs to be installed to enable those with disabilities to use the pool.

In addition to the work needed to be undertaken for the pool and bathrooms, other projects are needed for the broader enjoyment of the pool. Installing a new pool cover, purchasing new lap lane lines and lane line reels, constructing a new storage shed, adding new bollards for the parking area, pouring new sidewalks that are ADA compliant; adding new lighting in the parking area and in the general pool area, and acquiring a new bike rack and flag pool are all needed.

The Wagner Center is a community meeting building that is adjacent to the Moyaone Community pool and part of the pool complex. It is used throughout the summer by all pool members for children's activities, instructional talks, swim team meetings etc. It is a utilitarian building with concrete block walls, concrete floors and sheet rock ceiling. The chairs and tables are old and stained and in some cases, rusted. The acoustics are inadequate due to the hardness of the walls and floor. Both the pool and the Wagner Center should have new gutters and downspouts.

The Moyaone Community pool is an important asset to the greater Accokeek community. The area is still mainly rural and the Moyaone Community pool still reflects a simpler way of life and valuers not rooted in the faster paced communities to our north.
