**Analysis**

**Bill Summary:** The board must consider the public health impacts of the sale of alcoholic beverages for off-premises consumption when considering whether to adopt regulations authorizing the sale of alcoholic beverages for off-premises consumption under the bill.

The bill applies only to a Class B or Class D license that authorizes the holder to sell alcoholic beverages for on-premises and off-premises consumption at a restaurant or bar. A license holder may obtain a permit from the board to sell, if authorized under the holder's

license, mixed drinks or cocktails in sealed or closed containers for off-premises consumption if:

- the mixed drink or cocktail is purchased along with prepared food other than prepackaged snacks;
- the individual purchasing the mixed drink or cocktail is at least 21 years old and provides valid identification as proof of age; and
- each mixed drink or cocktail sold for off-premises consumption is provided in the manufacturer's original sealed container or in a container closed with a cap, cork, seal, or lid with no holes for straws or sipping and sold not later than 11:00 p.m.

The board may not charge a license holder an additional fee for selling alcoholic beverages under the bill. The board may limit the quantity of alcoholic beverages that may be sold to an individual in a single transaction.

**Current Law:** Generally, Class B licenses are issued to restaurants and allow the sale of alcoholic beverages with food, and Class D licenses are generally issued to bars and taverns and allow the sale of alcoholic beverages without food.

**Small Business Effect:** A small business restaurant or bar that is authorized to sell alcoholic beverages for on and off premises consumption under the bill is likely to experience increased revenues from the sale of alcoholic beverages.
