Small Business Effect: USM has determined that this bill has minimal or no impact on small business (attached). The Department of Legislative Services concurs with this assessment.

Analysis

Current Law/Background: USM must gain legislative approval to use academic revenue bond (ARB) proceeds for certain capital improvement projects at academic facilities.

The maximum aggregate principal amount of bonds that USM may issue was increased by \$300.0 million, from \$1.4 billion to \$1.7 billion, by Chapter 233 of 2022. This bill does not affect the cap on bond principal; it only authorizes the issuance of bonds within the existing limit for specific capital projects.

[The fiscal 2027 CIP as introduced](#) proposes \$50.0 million in ARBs in fiscal 2027 and similar amounts each year from fiscal 2028 through 2031. The proposed amount of debt is consistent with the Capital Debt Affordability Committee recommendation for fiscal 2027.

State Fiscal Effect: USM revenues and expenditures from bond proceeds increase by \$50.0 million in fiscal 2027. The revenues and expenditures are included in the fiscal 2027 capital budget as introduced. Beginning in fiscal 2028, USM expenditures to pay debt service on the ARBs increase by an estimated \$4.2 million annually for 20 years.
