The Honorable Martin O'Malley
Governor of the State of Maryland

Members of the General Assembly

Presented with this letter is the sixty-fifth annual financial report of the counties, incorporated municipalities, and certain State created special districts of Maryland for the fiscal year ended June 30, 2013. The information reasonably reflects the general financial condition of local governments in Maryland.

The material contained in this edition represents edited extracts from the uniform financial reports submitted by the counties, incorporated municipalities, and special districts. Data submitted by the State Highway Administration, the Department of Health and Mental Hygiene, the library boards, the boards of education, and the community colleges also has been utilized. The Department of Legislative Services has adjusted the data contained in the uniform financial reports and reconciled them to audited financial statements for the year ended June 30, 2013. In recent years the department has made several changes in reporting this information which could affect comparability with previous years. See the Notes to the Publication for a summary of these changes. In addition, selected pension plan disclosure is presented for each local government providing a pension plan for employees. A listing of the local governments participating in the Maryland State Retirement and Pension Systems is provided in the Notes to the Publication.

I thank the following members from the Office of Policy Analysis for their contributions to this report: Trevor Owen who had primary responsibility for producing the report; Hiram Burch and John Rohrer who edited the report; and Nancy Scaggs for general publication coordination. Lastly and most importantly, I thank those local officials whose cooperation ultimately made this report possible.

Respectfully submitted,

Warren G. Deschenaux
Director

I. Significant Policies of Presentation

A. Governmental Operations – Operating

The amounts presented were compiled from the respective entity's general fund, special revenue fund, permanent fund, and debt service fund. The general fund represents the entity's general operating fund. Special revenue fund(s) represents the fund(s) used to account for the proceeds of specified revenue sources (other than debt service, major capital projects, or trust fund revenues) that are legally restricted to expenditures for specified purposes. Permanent fund(s) represent the fund(s) used to account for resources that are legally restricted to the extent that only earnings, not principal, may be used for purposes that support the government or its citizens. The debt service fund represents the fund used to account for the accumulation of resources for, and the payment of, certain general long-term debt principal, interest, and related costs.

The measurement focus is upon the determination of changes in financial position, rather than upon net income determination.

B. Governmental Operations – Capital

The amounts presented were compiled from the respective entity's capital projects fund, which is used to account for financial resources to be used for the acquisition or construction of major capital facilities. As with the governmental operations – operating category, this fund's measurement focus is upon the determination of changes in financial position.

C. Enterprise Operations

This category includes the respective entity's enterprise funds, which account for operations (1) that are financed and operated in a manner similar to a private business enterprise – where the intent of the entity is that the costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily from service charges; or (2) where the entity has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

In contrast to governmental operations, operating and capital categories, enterprise operations capitalize and depreciate fixed assets. Further, debt service principal payments are not recorded as expenses.

D. Component Units

In addition, the data includes revenues, expenditures, and debt information for component units. Component unit data was reported according to each unit's basis of accounting, accrual or modified accrual. Component units utilizing the accrual basis were reported in the enterprise operations category, while component units utilizing the modified accrual basis were reported in the governmental-operations operating category. If a component unit had a capital projects fund, the financial information pertaining to this fund was reported in the governmental operations – capital category.

II. Reporting Changes

- Beginning in fiscal 1998, Montgomery County transportation figures were reduced by the federal and State contributions to the Washington Metro Area Transit Authority. For comparability purposes, these amounts were also removed from the five-year expenditure summaries.
- Chapter 476, Laws of Maryland 1996, transferred the responsibility for the Montgomery County board of social services and the local health department from the State to the county effective October 1996. The county combined these departments and in fiscal 1998 began apportioning the costs between the two functions differently. Therefore, the expenditures for health and social services are not comparable with fiscal years prior to 1998.
- Beginning with fiscal 2000, two changes were made to the reporting of boards of education information:
 - Financial information was obtained from the boards' annual audited financial statements. In prior years, financial information was obtained from the State Department of Education, however, due to delays in gathering that information, the audited financial statements were used for fiscal 2000 and will be used in subsequent fiscal years.
 - State contributions for teachers' retirement are now included as a State source of revenue and a corresponding expenditure in accordance with generally accepted accounting principals. Therefore, the boards of education information is not comparable with prior fiscal years.
- This year's report continues with the changes made in the 1995 report. These changes were as follows:
 - **State Grants:** Includes State grants and State shared taxes. Prior to fiscal 1995 State shared taxes were reported separately.
 - **Public Works:** Includes transportation services, sewer/solid waste/water services, and other public works services. Prior to fiscal 1995 this category contained highways and streets, sanitation and waste control, and other public works.
 - **Transportation:** Includes highway and street maintenance, parking facilities, airport facilities, and transit services. Prior to fiscal 1995 airport and transit services were reported under other public works.
 - **Sewer/Solid Waste/ Water:** Includes sewer services, solid waste collection and disposal services, and water services. Prior to fiscal 1995 water services were reported under other public works.
 - **Other Public Works:** Includes expenditures related to the operation of gas, electric, light, and power plants. Prior to fiscal 1995 this category contained airport services, transit services, water services, and gas/electric/light/power services.

- **Health:** Includes health and hospital expenditures. Prior to fiscal 1995 hospital expenditures were reported separately.
- **Primary/Secondary Education:** Includes expenditures for operating and maintaining public schools and other educational facilities, including tuition and fees paid by a county for residents attending the Maryland School for the Blind. Prior to fiscal 1995 these expenditures were reported under education.
- **Community College:** Includes expenditures for operating and maintaining community colleges. Prior to fiscal 1995 these expenditures were reported under education.
- **Economic Development Opportunity:** Includes expenditures incurred in the promotion of economic development, growth, and opportunity. Prior to fiscal 1995 these expenditures were reported separately.
