### CAP00 Capital Overview

#### Committee Narrative

**Capital Construction Process Review:** The committees request that the Department of Budget and Management (DBM), with the assistance of the Department of General Services (DGS) and the University System of Maryland (USM) Cost Centers, undertake a comprehensive review of the capital construction management processes, procedures, and controls used by all State agencies. This review should focus on the State's abilities and effectiveness in managing construction projects with respect to the following items: procedures and staffing used to manage capital projects; construction project oversight requirements and responsibilities, including project documentation, inspecting and testing, and change order authorization; and advantages and potential applicability of design build, private construction management, and construction management at-risk guaranteed maximum price delivery methods. The review should also address factors such as the optimum use of available funds; project scheduling; optimum use of design and construction firm skills; avoidance of delays, changes, and disputes; and options for improving the State's contracting and procurement processes. DBM, with the assistance of DGS and USM, should provide the committees with a report based on its comprehensive review by November 1, 2015.

**FB04**  
**Department of Information Technology**

**Committee Narrative**

**High Speed Data Networks in State Facilities:** Since 1999, the Maryland State Chief Information Officer has been responsible for developing and operating a statewide high speed data network. This network has evolved to become networkMaryland, which is now operated by the Department of Information Technology (DoIT). High speed data connectivity is now a feature in State facilities. The committees are concerned that the capital budget process does not include the cost of connecting new facilities to data networks. As a result, connections are often made by private vendors at the end of construction at a greater cost to the State. There are also facilities with aging connections that may be in need of upgrades. The Department of Budget and Management (DBM), in consultation with DoIT, should develop procedures for estimating the cost of including network connectivity in State capital projects. Beginning in fiscal 2017, these costs should be included in capital project cost estimates. DoIT should review State facilities, including facilities with long-term leases, to determine the need for improved connectivity. This should include a cost benefit analysis if a need for improvements is identified. The departments should submit the report on network connectivity and the capital budget process to the budget committees by December 1, 2015.

**Local Jails and Detention Centers Population Statistics Report:** As overseer of the Local Jails and Detention Center Capital Improvement Program, the committees direct the Department of Public Safety and Correctional Services (DPSCS), on an annual basis, to coordinate the submission of local jail and detention center population statistics on behalf of the counties and provide that information in a report to the budget committees. At a minimum the report shall include:

- the operational capacity for each facility, making note of specialized population, beds which cannot be used by general population inmates;

- the number of days the population exceeded operational capacity;
- the most consecutive days the population exceeded capacity;
- the range in the number of inmates exceeding operational capacity;

**Explanation:** The design for the Saratoga Center Garage annex was completed in early 2013. Bidding and construction has been on hold since then due to ownership and title issues to buildings at 310 and 311 W. Saratoga Street between DGS and Baltimore City. A total of \$4,445,000 is still authorized for construction. This action de-authorizes a portion of the funding and adds language requiring the remaining portion to be re-directed to the Board of Public Works Facilities Renewal Fund if an MOU between DGS and Baltimore City about the facility by September 1, 2015. If a purchase agreement has not been substantially negotiated by October 1, 2013, this authorization shall be restricted for the sole purpose of designing the Cheltenham Treatment Center on the grounds of the Cheltenham Youth Facility in Prince George’s County. The Department of General Services shall submit certification to the budget committees by October 1, 2013, on the status of land acquisition. The budget committees shall have 45 days from receipt of the certification letter to review and comment (Baltimore City) .....</u>	<u>[3,000,000]</u> <u>0</u>
-----	---	--------------------------------

**Explanation:** The Department of Juvenile Services (DJS) was previously provided \$3 million in general obligation bond funding to acquire a site in Baltimore City for a new 48-bed hardware secure treatment center for committed male youth. During the 2014 session, DJS expressed intentions to acquire a currently occupied special education school from Baltimore City that would eventually be vacated as part of the Baltimore City Public Schools’ (BCPS) 21st Century Buildings Plan. It was anticipated that construction on the new facility would begin in fiscal 2018. The fiscal 2016 Capital Improvement Program delays all funding for the treatment center until fiscal 2020 because there have been changes to the BCPS plan for school construction, which call into question the availability for the proposed site to be acquired by DJS. As such, the \$3 million site acquisition authorization is not required by the department at this time.

-----	--	--------------------------------------

**Explanation:** This action de-authorizes \$1.3 million of the funding provided in the fiscal 2015 capital budget to acquire property in Wicomico County for a new treatment center for male youth. The Governor's fiscal 2016 Capital Improvement Program delays additional funding for the project until fiscal 2019. In addition, the project has changed from a \$15.3 million renovation to create a 24-bed staff-secure treatment facility to a \$47.2 million 36-bed hardware secure facility requiring complete demolition and reconstruction of the structures. As such, additional consideration of the project is required. A total of \$300,000 remains from the original authorization in the event that the Department of Juvenile Services is able to reach an agreement for acquiring the site; this amount should be adequate, as appraisals of the property are considerably lower than originally anticipated.
