Committee Narrative

Update on Program Administration and Outreach: Given the importance of senior centers to the communities that they serve, the committees are concerned about the underutilization of the Senior Center Capital Grants Program. The committees request that the Maryland Department of Aging (MDOA) provide an update that includes the following information:

- a summary of MDOA’s administrative and outreach activities performed throughout each month of the annual grant cycle;
- the department’s current understanding of the capital needs of senior centers throughout the State, including any data to support this evaluation;
- factors that affect local government’s participation in the program, including any data that supports these findings; and
- a vision statement, describing how the department plans to administer the program, and once achieved, how the department envisions senior centers throughout the State will be supported by this program.

Committee Narrative

Report on Renovation of 2100 Guilford Avenue in Baltimore City: The 2021 Capital Improvement Plan provides \$38 million to renovate State building #3 at 2100 Guilford Avenue in Baltimore City. The budget committees are concerned about authorizing such a large sum of general obligation bonds when there is so much uncertainty regarding the State office needs in Baltimore City. To address this, the Department of General Services (DGS) should report to the budget committees on the status of State Center litigation, plans to move State agencies out of the State office buildings on West Preston Street as noted in a press release, State office needs in Baltimore City over the next decade, and the costs and benefits of other options instead of renovating this property. The report should include evaluating multiple options in addition to the renovation of State building #3. This report should be submitted to the budget committees by December 3, 2021.
