RE: HB746

Honorable Members of the House Appropriations Committee,

My name is Maria Bruno, and I am community member in Montgomery County, Maryland. As a community member and recent social work graduate my focus is on finding ways to serve the vulnerable population in our community.

Throughout my experience with working with this population, I have seen how the lack of personal hygiene impacts the dignity and worth of an individual. I fully support the bill before you regarding a mobile laundry truck. This service would be beneficial addition to county resources and the state of Maryland.

Often as a society we take for granted the everyday commodities. This program would aid the community with an opportunity to improve the lives of the vulnerable population.

I urge a favorable report on HB746. Thank you.

Sincerely,

Maria J Bruno
