

testimony in support of HB 748 (2020):  
Transportation – Kim Lamphier Bikeways Network Program

On the car rides to and from Baltimore County and volunteering in Montgomery County, Kim had me send text messages from her phone while she drove. She'd tell me the gist of what she wanted to say, and I'd draft something and read it to her. Because I've always been detail-oriented, my drafts were often met with "nahhhhhhhh, you don't need to say all that."

So I could talk about what this bill does. And I could talk about why it's important. But I think if Kim were here, she'd say, "Nahhhhhhhh, you don't need to say all that."

So I won't.

for Kim,
