

HB0087 Public Health- Immunizations- Minor Consent (Access to Vaccines Act)

Krista Epperley

Oppose

To Whom This May Concern,

My name is Krista Epperley and I am writing to make my voice count pertaining this upcoming bill that states, minors as young as 16 could be vaccinated without parental consent. I am opposed to this bill, and the simple reason behind this, is that, as young adolescents they are still not fully equipped to make true decisions with the wisdom that comes from experience. We have laws in place for minors of the same age not being allowed to marry, without parental consent. Also, we have upped the age of consent, and now at 21 you can purchase cigarettes. There is an age that has been placed on people to consider them an adult, and for good reason. Please oppose this bill. Thank you for your time.

Sincerely,
Krista Epperley
