

35 Towne Centre Way  
McHenry, MD 21541

# HB901 sponsored by Del. Wendell Beitzel

is being heard by the House Health & Government Operations Committee on Thursday, February 13.

As you know, I am the broker of a local realty company that has almost 40 real estate agents affiliated with my office. We also have less than 40 full time employees. This bill would help us as a small business as well as the independent contractors that we help generate personal income and local and state taxes through our services. It has always been a struggle for Independent contractors (all real estate agents) to get affordable coverage. This bill would allow them to get a discount on their policies. We support your legislation.

Thank you.

**Bob Carney**
