I am **opposed to** the following bills:

SB646/HB636

HB910(SB958)

HB1257(SB816)

HB1078

HB958(SB910)

HB591

HB1104

HB1501

Above all : HB1261. This is a continuation of SB281 from 2013. Not all of the listed firearms under (5-101(r)(2) are true assault weapons. This a term made up by anti-gun people and applied to firearms they don't like. None of them are select fire, which the primary basis of an "assault weapon". Features do not make a firearm more deadly.

Should this pass, it will go to the Supreme Court. It will get over turned and we will never have deal with the unconstitutional acts of politicians again.
