The Honorable Senator Paul Pinsky, Chairperson
EHEA Committee
Maryland Senate
11 Bladen Street
Room 2, West Wing
Annapolis, MD 21401

RE: **SUPPORT FOR SB 568** – Health Care Practitioners - Telehealth - Out-of-State Health Care Practitioners

Dear Chairperson Pinsky and Distinguished Members of the Education, Health, and Environmental Affairs Committee:

I want to thank you for taking my written statement of support for SB 568 on telehealth & out-of-state health care practitioners to be entered into the public hearing record. **My name is Loretta Collins, and I am a Licensed Graduate Professional Counselor who resides and practices in Bethesda, MD.**

Telebehavioral health modalities are important to me because the ability to help those who have experienced a natural disaster would not require therapists to leave home, allowing far more coverage to those in need. College students can have access to their counselors at home, and people who are disabled have equal opportunity to benefit from therapy they would not ordinarily been able to receive.

We are still in the throes of a global pandemic and the need for health care and mental health services has never been greater. COVID-19 has revealed systemic flaws in our mental health services for providers and clients alike. It is imperative that we remove barriers to life saving services in a responsible and urgent manner.

While we are working to upload and implement the Counseling Compact in this state and throughout the U.S., this immediate action, removing barriers to critical supports, is essential for the wellbeing of Maryland residents, families, and a social services system overburdened by staggering need.

I strongly urge you to support telebehavioral health services and SB 568.

Sincerely,

Loretta Collins
