RE: **SUPPORT FOR SB 568** – Health Care Practitioners - Telehealth - Out-of-State Health Care Practitioners

Dear Chairperson Pinsky and Distinguished Members of the Education, Health, and Environmental Affairs Committee:

I want to thank you for taking my written statement of support for SB 568 on telehealth & out-of-state health care practitioners to be entered into the public hearing record. My name is Paige Lewis and I am a licensed graduate professional counselor who resides and practices in Montgomery County, MD

Telebehavioral health modalities are important to me because it has allowed me to continue providing services to clients safely throughout the pandemic. It also allows me to reach a wider range of clients that may have previously had financial, location, or transportation barriers.

We are still in the throes of a global pandemic and the need for health care and mental health services has never been greater. COVID-19 has revealed systemic flaws in our mental health services for providers and clients alike. It is imperative that we remove barriers to life saving services in a responsible and urgent manner.

This bill will authorize an out-of-state health care practitioner to provide telebehavioral health services to a patient located in the state in accordance with the state practice act. This legislation also requires the health occupations board to register an out-of-state health care practitioner, allowing for necessary oversight and monitoring of out-of-state practice.

While we are working to upload and implement the Counseling Compact in this state and throughout the U.S., this immediate action, removing barriers to critical supports, is essential for the wellbeing of Maryland residents, families, and a social services system overburdened by staggering need.

I strongly urge you to support telebehavioral health services and SB 568.

Sincerely,

Paige Lewis
