Dear Delegate Barve and members of the Committee,

Captain Will Gates
Director

We request a favorable finding for HB0204, Complaints, Inspections, and Enforcement - Information Maintenance and Reporting for the Departments of Environment and Natural Resources.

The St. Mary's River Watershed Association is an engaged partner with the state on several fronts including the enforcement of maintenance on temporary storm water control devices at new developments/redevelopments and oyster habitat restoration and restricted harvest area protection. Rarely do we ever hear about how any infraction is handled. Requiring accountability and the maintenance of a web page reporting cases would surely add to our effectiveness.

Captain Paul Kellam
Director

David Lewis

Bob Paul
Director

We request the Committee return a FAVORABLE report on HB0204.
