

These bills will only effect law bidden citizens and make it harder for us to protect ourselves. Criminals will not follow any of these laws. It's unconstitutional, and you shouldn't be able to create laws to take away our constitutional rights.

Look at the crime rate in Baltimore. Do you think they care about these laws? Baltimore is going to try to pass a bill to pay people not to Murder each other.....think about that for a minute, they don't care about laws. If they didn't we wouldn't have this issue.

In a time of crisis, I think our government should be concentrating on COVID related issues and not gun laws.
