

SUPPORT HB 939

Thanks so much for sponsoring this very important bill to help get children back in school full-time. If schools do not fully re-open in the Fall as normal (5 days/week), I will be forced to leave my job. As a working professional mother, this has been an extraordinary hardship and I am very sad to be compelled to leave the workforce because due to union resistance and folks not following the science. Once teachers/staff are vaccinated, kids should be able to return to school as normal. Science shows that children are not the disease spreaders and further, they are low risk. Once schools fully reopen, for those parents that want to keep their kids virtual, then they can continue to do so, but not at the expense of the vast majority of the children who desire to be in school. If schools do not reopen fully in the Fall, I would like the option to pursue private schooling and seek financial support. I would also like a proportionally reduced property tax bill for services not rendered for public education.

Kind thanks and please let me know how I may further support.
