

HB 156 – Student & Military Voter Empowerment. Sponsored by Del. Luedtke. OPPOSE.

Establishes a Voter Coordinator & voting plan at every institution of higher learning & military recruitment station to encourage & support **recognized** student organizations engaged in voter registration & encourage students to vote.

This will be very expensive. It is unnecessary. Registering to vote is provided when students sign-up for classes. Some colleges are very “leftist” in their point of view and discriminate and disallow Republican or Conservative or Pro-Life groups “recognition” status on their campuses. This is an “Organize and Vote Democrat” proposal for colleges in the guise of increasing voter participation. Taxpayers’ money will be used to organize and get out the vote for Democrats on campuses across Maryland.
