Senate Bill 598 – Income Tax – Work Opportunity Tax Credit

Position: Support  
Budget and Taxation Committee  
February 23, 2022

Chair Guzzone, Vice Chair Rosapepe, and Members of the Committee:

Since taking office, Governor Hogan has remained committed to expanding employment opportunities for all Marylanders. Senate Bill 598 will help expand these opportunities by allowing Maryland employers that claim the federal Work Opportunity Tax Credit (WOTC) to claim that credit against their State income tax for the lesser amount of either the amount claimed on their federal tax return for the WOTC or the State income tax imposed for that taxable year. The Work Opportunity Tax Credit (WOTC) is a federal tax credit available to employers for hiring individuals who have consistently faced significant barriers to employment, like veterans.

If enacted, SB 598 will help businesses hire more effectively and reduce their administrative costs by aligning the WOTC with the proposed state tax credit. Research has shown that targeted wage subsidies, including the WOTC, are among the most effective labor market policies for expanding work opportunities. Additionally, the expansion of employment tax credits like the WOTC, increase the average length of employment, and raise the wages earned by the individuals served by these tax credits. Finally, SB 598 is also cost-effective because these subsidies are only paid when targeted individuals are placed in jobs.

During a time when employers are facing historic workforce shortages, it is critical that we do everything in our power to assist businesses with their ability to hire. Expanding the WOTC to apply to an employer's State income tax will not only assist businesses with the costs of hiring and training new employees, but will also incentivize hiring individuals that have had difficulties finding employment.
