To whom it may concern,

I Jason D. Lambert am writing as Owner/President of Data Network Solutions, LLC.

I hereby vote in favor of Bill HB 852. I support this bill as I believe this will help lower the many costs involved in running a small business.

Bill HB 852 can help business owners like myself continue to operate a small business in Maryland creating commerce especially with the rising costs in our current economy.

Thank you,

Jason D. Lambert
