

Hb1084COVID-19 Response Act of 2022

HB1084 **OPPOSE**

Hello,

Allowing Pharmacists to Vaxx children 3 years of age and older **WITHOUT** a prescription from a physician and allowing Pharmacy technicians to Vaxx kids 3 and older with 6 hours of training is **DANGEROUS AND I STRONGLY OPPOSE.**

Pharmacists and Pharmacy Techs will not be liable for any harm that they may cause for giving an incorrect Vaxx to a child. The Federal 1986 National Childhood Vaxx Injury Act removed liability for Vaxx makers as well as the people that administer the Vaxx.

On Digital Passport:

I strongly oppose!

A passport will do nothing to stop the spread.

In fact, it means that Vaxxed people who are positive for the virus can gain entry to establishments, while healthy UnVaxxed who are not carrying virus, or have superior natural immunity will be discriminated against. **DISCRIMINATION IS ILLEGAL!**

We also know the MD Health Dept data was compromised earlier this year. My medical decisions and those of all **AMERICANS** have always been and should always be private.
