Maryland Health Benefit Exchange - Small Business and Nonprofit Health Insurance Subsidies Program - HB0709

I would first thank for bringing back this bill which was a great boon earlier ( before it was taken away) for a woman owned small business like ours. It was a truly a blessing to afford and provide insurance to our employees whom we treat like family. This bill will allow us to retain talent and also attract talent. Medical Insurance and benefits are the most important factor while justifying for jobs and especially when competing with local Amazon and large corporates.

This subsidy will be a turning point in providing insurance.

Thank you,

Sincerely,

Leena Shrestha-Menon  
President
