

HB0937

OPPOSE

Deborah Brocato
3206 Gloucester Dr
Fallston, MD 21047

Dear Delegates,

The State of Maryland should not be funding the training of people to kill other people.

This bill would include in Maryland's budget money for the purpose of training people to kill other people.

In addition to this atrocity, the bill forces all citizens of the state of Maryland to pay for the killing of unborn people.

I urge each of you to recognize the value of the human person and their Constitutional right to life and reject this bill.
