

Written Testimony in **SUPPORT of House Joint Resolution HJ0006**, concerning -United States Constitution – Amendments Convention – Limitations on Federal Power

House Rules and Executive Nominations Committee

March 3, 2022

Name Will Zwart

Address 105 Prussian Turn, Centreville MD, 21617

Dear Committee Chair, the Honorable Senator Healey and HREN Committee Members,

Ladies and Gentleman, who wants to be remembered? My name is Will Zwart, and I live in Queen Anne's County. As you can see, we have quite a few Article V supporters online today, but there are quite a few more who couldn't be here, and I'd like to acknowledge some of them now.

There's Thomas Jefferson, Alexander Hamilton, George Mason, who first proposed Article V, George Washington, James Madison, Milton Friedman, Dwight D. Eisenhower, and, of course, Abraham Lincoln. The man who led the charge against slavery and racism supported a Convention of States.

But who opposes it? Well, among few others, George Soros, who has called on democratic pretenders like Common Cause to stand against our civil rights. A bit ironic, considering that some years ago, he attempted to use Article V for his own agenda. But since it can only succeed if backed by the people, he failed, and now he's all against it. But these are the two camps. Join the camp of freedom and liberation.

And why shouldn't you? The Founders wrote Article V for you – state legislators.

It will reclaim your full authority, money, and influence from the federal government, and give it all back to you. It can send your agendas and careers surging forward, and gain you the respect and support of the whole nation.

Look at Massachusetts. A committee of mostly-Democrats defied expectations, and approved this resolution just last month. Now, millions of Americans across the country are applauding them. Even Republicans are applauding Democrats. That happened with Article V.

So I charge you to approve this resolution, and increase your authority, your state's wealth, your own influence, cement your political career, and make history remember your name. Because it will.

This Convention of States is inevitable. We have far over 2,000,000 supporters nationwide. In addition, 56% of Independents, 74% of Republicans, and 67% of Democrats support a Convention of States, and our numbers have only grown exponentially in the last seven years.

All we want is to have the convention and discuss the problems and their solutions. This is the peaceful, constitutional, and bipartisan answer to all the division and unrest in America. No deceptions. No private interests. All we want is for everyone to equally and honestly sit down and decide how to save America.

God bless you and our Republic.

Thank you.

Sincerely,

Will Zwart
