

HB0757
FAVOR
Deborah Brocato
3206 Gloucester Dr
Fallston, MD 21047

Dear Delegates,

It is absurd but this bill is necessary in this opposite-of-science environment. The State of Maryland support dignity of the female person.

Women and men are equally deserving of respect and dignity but women and men are uniquely made as 2 separate sexes with very distinct physical bodies and capabilities.

HB0757 protects the rights of women to compete against other women on a level playing field without the interference of biological men who will always have advantage by virtue of their Y-chromosome no matter what medicines or surgeries they receive.

Women should not have to compete against men for positions designated for women.

I urge each of you to recognize the unique design of the female and protect the dignity and rights of women. Vote IN FAVOR of this bill.

Sincerely,
Deborah Brocato
