RE: HB 757-Education- Save Women's Sports Act- **SUPPORT**

Dear Chair Atterbeary and Members of The Committee,

I urge your support of HB 757 for several reasons;

- Allowing biological males to participate in female sports affords them an unfair advantage. Biological males either identifying as females or transitioning to female have greater strength and muscle mass, thereby affording them an unfair physical advantage over their female counterpart.
- The United States, as a whole, has made great strides in promoting women's sports since Title IX revolutionized women's sports 40 years ago. The ratification of HB 757 would void all the progress made then, and since then. Thus, setting us back for women's rights almost a half a century.
- Young girls work hard to develop their athletic skills and demonstrate such with pride. The ratification of HB 757 would discourage female participation in sports which involve competition against biological males by stripping them of such pride.

It is for these reasons that I urge your support for a FAVORABLE report for HB-757- Save Women's Sports Act.

Thank you for your time,

Sarah Price
