Dr. Mahin Khatami

**PPs Testify Thursday February
23, 2022**

**The way in the
world is just one
and that way is the
Truth.**

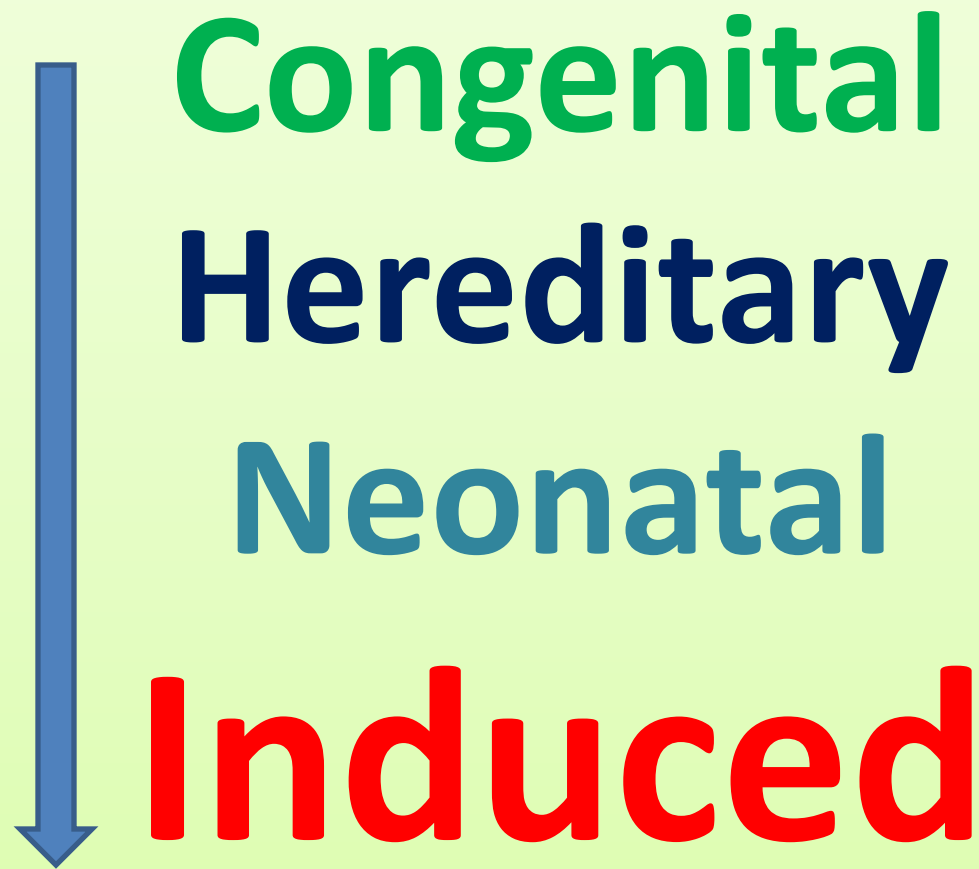

Zoroaster

“From Rockefeller’s support of patent medicine to Gates’ patent vaccines, medical establishment invested a great deal in intellectual ignorance. Through the control over medical education and research it has created a public illusion to prop up corporate profit and encourage the lust for money and power.”

Eight decades ago, NIH the “hidden crown jewel of government” established and received Taxpayers’ funds. In collaborations with other governmental health agencies and centers within DHHS, had “mission” to improve public health, prevent and treat diseases and save lives. Just the opposite occurred. America is rated the sickest nation compared with other developed countries.

“An overview of data on cancer and vaccine sciences, the status of Americans’ health, a survey of repeated failed projects, economic toxicity, and heavy drug consumption or addiction among young and old provide compelling evidence that in the twentieth century nearly all classic disease categories (congenital, inheritance, neonatal, or induced) shifted to increase induced diseases.”

Human Diseases

Khatami, 2017,2018, 2020

“The outcomes of cancer reductionist approaches to therapies reveal failure rates of 90% (+/-5) for solid tumors; loss of over 50 million lives and waste of \$30-50 trillions on too many worthless, out-of-focus, and irresponsible projects.”

Neglected Early Discoveries

1911:

**Peyton Rous:
Virus-Causing
Cancer.**

1910:

The five leading causes of death were:

1. Pneumonia and influenza
2. Tuberculosis
3. Diarrheal
4. Heart disease
5. Stroke

Cancer was not in radar screen for statistics (~5%).

2013: 1/3 woman and 1/2 man develop cancer in their lives (2013 AACR Annual Meeting)!

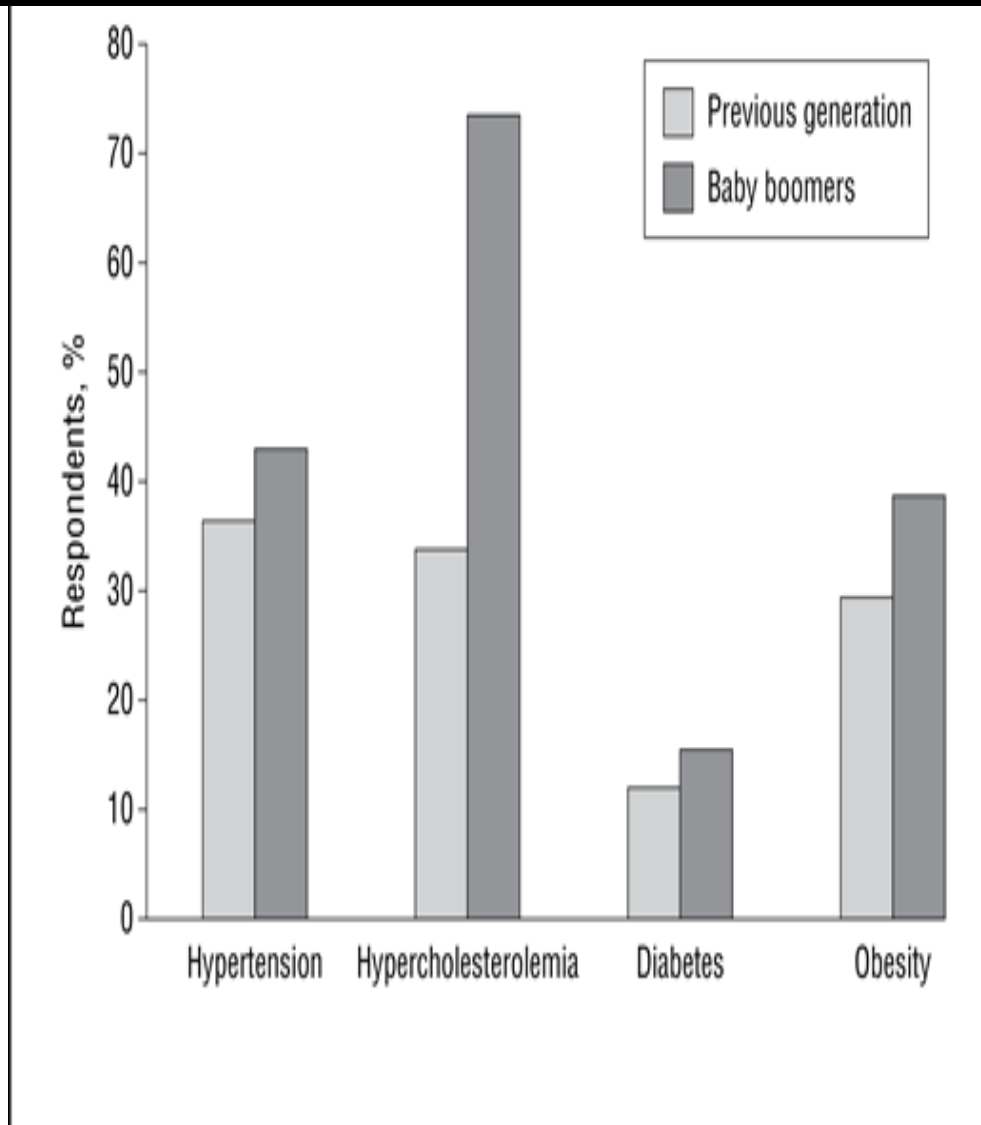

Khatami, 2016, 2017,2018,2020

Khatami, 2016, 2017

“The concept of vaccination, or rather immunization, for protecting, promoting and defending individual health against viruses, bacteria or parasites developed in the eighteenth century, well before the important theory of immune surveillance was developed, and before better hygiene or antibiotics improved public health and reduced many preventable infectious diseases and increased longevity.

The concept of protecting public health by immunization also existed before Rockefeller patent medicine and Gates patent vaccines invested a great deal in medical education to influence promotion of drug sale and to vaccinate the public with pathogen-specific vaccines in toxic media and associated debates and controversies....”

Vaccination, while first used in the 18th century, became more widely implemented in the middle part of the century. Vaccines against diphtheria, tetanus, and pertussis became available during the late 1920s but only widely used in routine pediatric practice after World War II. Thus vaccination does not account for the impressive declines in mortality seen in the first half of the century. The reductions in vac-

Vaccines-Induced Sharp Increase in Cancer Incidence and Mortality

Since 1955s that public (Baby Boomer) was allowed to be injected (take sugar pill) of virus-contaminated polio vaccines (extracted from monkey's kidney), cancer incidence and mortality and numerous other diseases sharply increased, particularly in America.

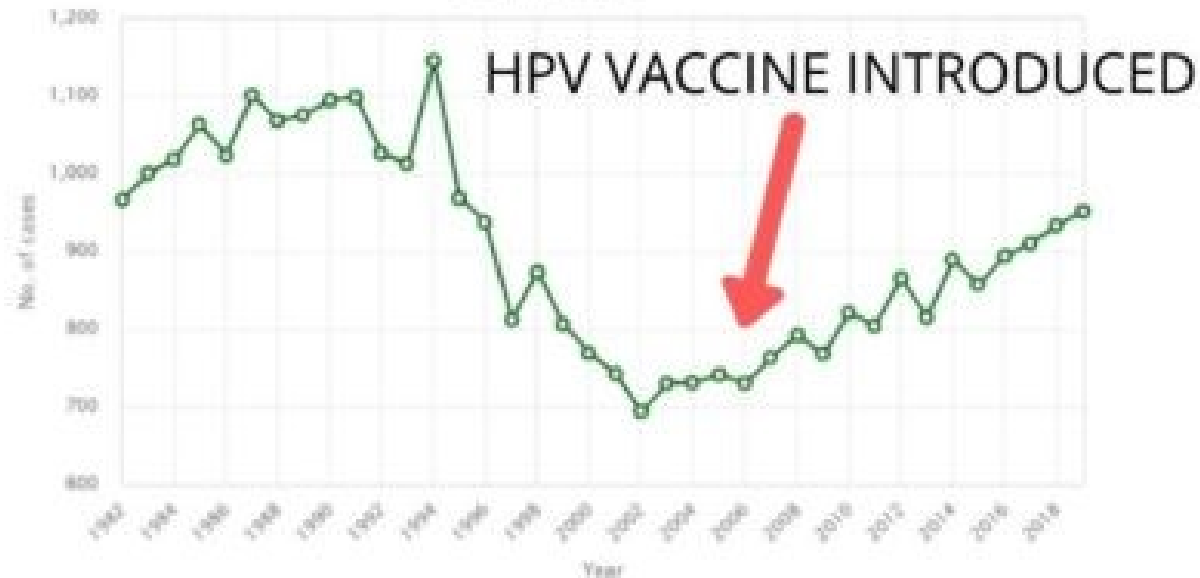

Despite serious concerns raised about safety of vaccines by **Bernice Eddy, MD, microbiologist, NIH.**

Eddy discovered *Cutter vaccines were improperly inactivated-polio vaccine was contaminated with cancer-causing animal virus—SV-40.* Eddy predicted a cancer epidemic if public was injected with such vaccines. Eddy's warnings and findings were ignored.

Cervical Cancer in Australia

Incidence, by sex, 1982 to 2019

Pathogen-Specific Vaccines

(Polio, HPV, Swine Flu, Meningitis, Measles or Corona):

Majority of vaccines that were designed to prevent diseases, caused more death and diseases than public exposures to infective agents.

One of the most dangerous plans of establishment is heavy propaganda to vaccinate the unborn, newborn, infant, toddler, and teenagers with a total of **72 doses of 16 different pathogen-specific vaccines by the time they are 18 years old.**

- 1. In 2000, the PCV cost to fully vaccinate one child was for half the calendar year. The CDC contract was not in place until July 1, 2000.**
- 2. In 2006, ACIP recommended two doses of varicella.**
- 3. Tdap replaced Td as the adolescent booster recommended by ACIP in June 2005, to provide protection against pertussis. The cost of Td has not been included in previous years due to the absence of a CDC contract.**

Toxic Elements in Vaccines **(Flu, Diphtheria, Polio, Tetanus,** **MMR, HPV, Corona)**

**[Reported since 2017, Compared with Tap
Water]**

Aluminum, Mercury, Titanium
L-Histidine, Formaldehyde, CTAB, Tween
80/100, Phenoxyethanol, Fetal tissues,
Gelatin, Sorbitol, Engineered DNA/RNA
(mRNA Spike Proteins in Lipid
Nanoparticles...)

Arifa S Khan: FDA, 2/1/2018:

Investigating viruses in cells used to make vaccines; and evaluating potential threat posed by transmission of viruses to humans

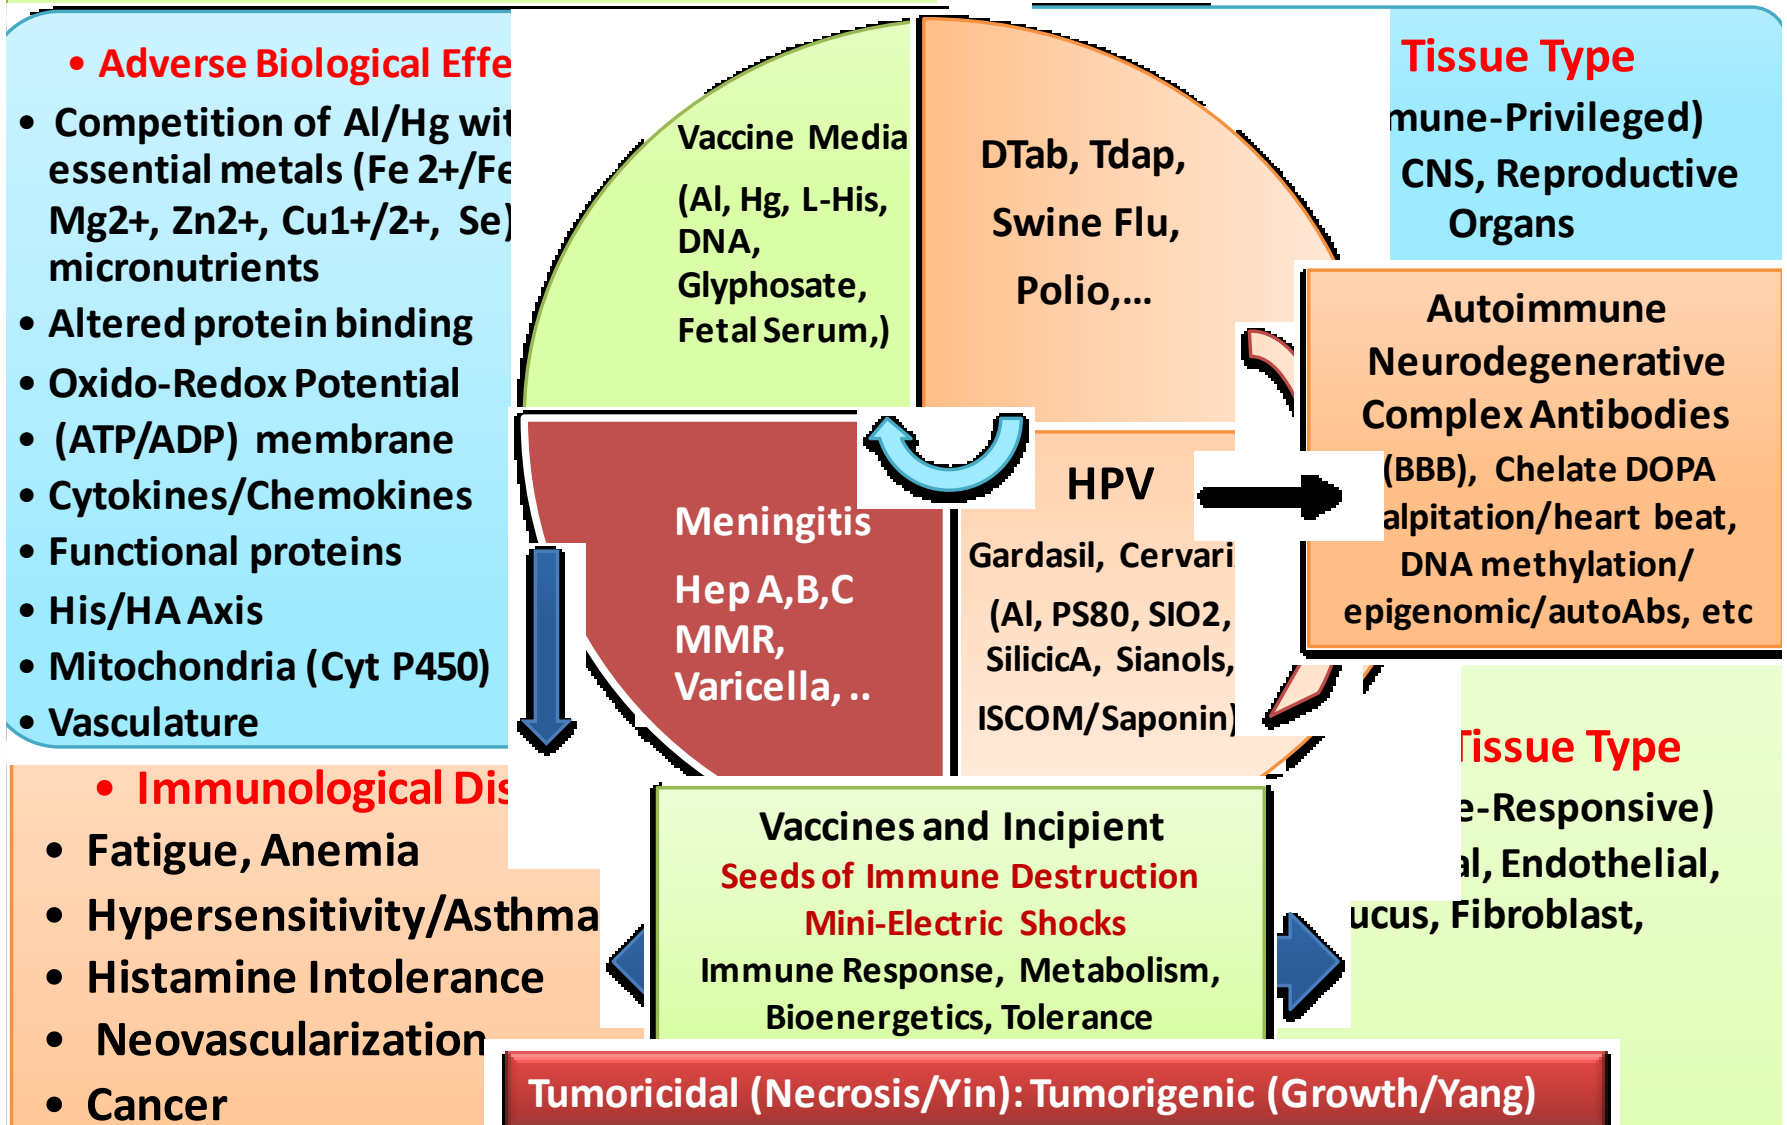

[https://www.fda.gov/vaccines-bloodbiologics/biologics-research-projects/investigating-viruses-cells-usedmake-vaccines-and-evaluating-potential-threat-posed-transmission.](https://www.fda.gov/vaccines-bloodbiologics/biologics-research-projects/investigating-viruses-cells-usedmake-vaccines-and-evaluating-potential-threat-posed-transmission)

Maurice Hilleman who developed several vaccines at Merck, in an interesting interview stated that

“vaccines have to be considered the bargain basement technology for the twentieth century.”

Maurice Hillman Interview (Aug 11, 2015): Vaccine pioneer admits adding cancer causing virus to Vaccine.
